Initial Data Request Related to Review of National Monuments.docx

Hi Claire,

Looking forward to having you participate in comment review for the national monuments review- really appreciate your willingness to help!

The plan is to have about 8 folks/day review and categorize comments on Tuesdays-Thursdays. The folks leading the review hope to start comment review this Wednesday in MIB room 5148, but we're still awaiting final guidance. We think we'll have enough people volunteer that we'll only need each person to spend one day per week reviewing comments. I'll keep you posted as we receive more details (hopefully today!).

Another component of the national monuments review process is gathering a variety of data on each of the monuments. The NRSS datasets we're looking for are those related to visitor use and economic value; are you able to link me up with the NRSS folks who would be able to provide that data? I've also attached the initial data call- please let me know if you see other places on the data call where NRSS might have related information.

Thanks again for your help with this. Looking forward to meeting you!

Whitney

Hi Ray,

Thanks for the quick response. I will work with Claire to firm up a schedule for comment review and to identify NRSS contacts who can provide visitor use and economic value data for the monuments data call.

Hi Bert, Grace, and Whitney,

I am recommending Claire Shields to serve on behalf of NRSS as a comment reviewer for the National Monument review. I am confident that Claire will do an excellent job supporting this effort. Also, to the extent that you need any other information about monuments, etc., Claire can help point Whitney in the right direction across NRSS for needed information and points of contact.

Claire is ready to begin as soon as necessary.

Thanks and let me know if you have questions or need other information.

Ray
