Thank you for the Forest Service contact, Here is the data call, and for your review - not for circulation - the first draft of a paper on options for the outcome of the review. On the data request, as you may recall from this morning's meeting, we would also like any legislative actions relating to individual monuments - enacted provisions, including legislative provisions in appropriations bill, but not just funding amounts.

Here is the contact I have at the USFS listed below.

Also Randy can you send me the email and documents for the kick off task meeting today. Everything went to Chris M and he is handing the project to me in the mean time and he headed off to an appointment and I am not able to acquire right away. We want to reach out to Bears Ears / Grand Staircase to get the ball rolling due to the short turn around BLM has on these two monument designations.

I appreciate anything you can send my way.

Peace,

I'm pretty sure that Jaime Schmidt is the USFS contact for national monuments. She's pretty hard to get a hold of right now – lots of projects – but I've attached her contact information for you.

Range of Options for Review of National Monuments

This list illustrates generic examples along a spectrum of choices. There is no priority to the order in which options appear on this list. Revisions to boundaries and allowable uses might be proposed to occur through Executive or Legislative action. It is not practical to list all potential options.

Expand a monument to more fully protect resources listed in the establishing or expansion Proclamation.

Expand a monument to protect important resources not listed in the establishing or expansion Proclamation.

Revise a monument boundary to remove areas not required to protect Proclamation resources.

Revise a Monument management plan to permit recreational activities not prohibited by the Proclamation but not provided for in the current management plan.

Revise a Monument Proclamation to permit uses such as recreational hunting and fishing, grazing or camping) prohibited in the Proclamation while maintaining protection for original or expansion Proclamation Resources.

Revise a Proclamation and/or a monument boundary to exclude areas that do not contain "historic landmarks, historic and prehistoric structures, [or] other objects of historic or scientific interest" as provided in the Antiquities Act.

Revise a Proclamation and/or a monument boundary to permit important potential economic uses of the land that are prohibited by the original or expansion Proclamation.

Revoke a Proclamation on grounds that the resources to be protected in the original or expansion Proclamation did not meet the criteria set forth in the Antiquities Act, or no longer exist within the Monument

Revoke a Proclamation on grounds that the resources protected in the original or expansion Proclamation are less important than economic uses that could occur if the area was not a monument.

Take no action.
