Thank you for the quick response. It may take a few days to know if there is any follow-up

Hi Randy,

The attached map shows the location of the monument in relation to the state and Canadian border. The Katahdin Woods and Waters folks have indicated that establishment of the monument has not restricted public access- the monument lands were formerly private lands.

Please let me know if there are follow up questions, or if a different map is needed.

Thanks!

Great - see you then. Also, could you ask the Katahdin folks whether there are any borders, State, Canadian, or into State park or other area, where the establishment of the monument has restricted public access, and if they could send in a map showing the monument in relation to the State and Canadian borders.

Thanks, but I need to come to your office to see your screen - how about 1 pm, in case your call runs over?

Hi Randy,

I'm about to hop on a call with the folks at Katahdin, but I can swing by your office once it wraps up-- likely around 12:45pm?

Do you have time to let me look over your shoulder as you log into the DiscoverText site and let me see what you see so I can send accurate follow-up instructions to the coding group? My schedule is different due to me being the project manager, and I don't want to inadvertently give inaccurate directions.
