Subject: Re: Acreage check at 2 NPS monuments
Date: Wednesday, August 23, 2017 10:33:53 AM

Thank you for the quick response.

Good morning, Randy-

Here are the most current numbers:

Katahdin Woods and Waters- 87,564.27 acres

87,500 acres was the approximate area described in the proclamation, but subsequent mapping determined the NPS area was actually 87,564.27 acres.

Craters of the Moon National Monument and Preserve- 737,658.78 acres

737,700 is likely a rounded number. Field work and title research show that the total federal acreage (for both the monument and the preserve) is 737,658.78 acres.

Attaching current acreage reports for reference. Let me know if you have any other questions.

Thanks!

In trying to do a final check on things, I have encountered some conflicted numbers. Could you have someone do a quick check - need ASAP, not later than noon tomorrow.

At Craters of the Moon, is the acreage 737,525 or 737,700?

At Katahdin W&W, is it 87,500 or 87,503? This could just be a typo but thought I would check.
