Allan:

I would like you to take the lead in ensuring that this short turn around Data request is completed by the March 16 at noon deadline to the UTSO. This comes from the Secretarial Order that Larry C passed out at MLT this week. We need to compile GSENM actions to implement Executive Order 13443, Facilitation of Hunting Heritage and Wildlife Conservation, President George W. Bush's Executive Order signed in 2007.
 Here is the list of what they are looking for:

Actions Requested: Please provide the consolidated actions completed by your State/Center/Directorate under Section 2 of Executive Order 13443 that:

- (a) Evaluate the effect of agency actions on trends in hunting participation and, where appropriate to address declining trends, implement actions that expand and enhance hunting opportunities for the public;*
- (b) Consider the economic and recreational values of hunting in agency actions, as appropriate;*
- (c) Manage wildlife and wildlife habitats on public lands in a manner that expands and enhances hunting opportunities, including through the use of hunting in wildlife management planning;*
- (d) Work collaboratively with State governments to manage and conserve game species and their habitats in a manner that respects private property rights and State*

management authority over wildlife resources;

(e) Establish short and long term goals, in cooperation with State and tribal governments, and consistent with agency missions, to foster healthy and productive populations of game species and appropriate opportunities for the public to hunt those species;

(f) Ensure that agency plans and actions consider programs and recommendations of comprehensive planning efforts such as State Wildlife Action Plans, the North American Waterfowl Management Plan, and other range-wide management plans for big game and upland game birds;

(g) Seek the advice of State and tribal fish and wildlife agencies, and, as appropriate, consult with the Sporting Conservation Council and other organizations, with respect to the foregoing Federal activities;

Additional actions to report:

(h) Concrete actions currently being worked on that support the goals of EO 13443 such as Recreation & Public Purposes leases being developed for shooting ranges;

(i) Partnership success stories that support the goals of EO 13443;

(j) Other actions that support the goals of EO 13443.

I think we have quite a few items to contribute for GSENM. Most are from the Resource Division, but we may also be able to consider the number of SRPs we have issued for Hunting/Fishing and our work with the Outfitters and Guides (Claire & Brian)

Other thoughts are: Birhorn sheep and antelope reintroductions, the wildlife fence, guzzlers on BLM, guzzler lids, wildlife ladders in tanks, habitat improvement projects...etc, etc.,

Lets pull together a great list of GSENM accomplishments.

Thanks

DMs FMs and Program Managers at UTSO:

This is a quick turn around request from the Washington Office pursuant to a new Secretarial Order.

The particulars are contained in the attached email. For Utah, Aaron Curtis has volunteered Matt Blocker in our Recreation Program as a compiler of the information for the response from UT. If it will help, he will send out a table format to capture the information.

We request:

1. That you establish a POC for the response for your office and program areas affected, and prepare your response to the best of your ability.
2. Send your response back to Matt Blocker by COB Wed 3/15 (or no later than noon 3/16) so that he has time to compile a comprehensive list for UT to send to DC.
3. Please assess your efforts/projects with a critical eye towards the objectives outlines in the request. We may be able to pull a lot of information from recent years related to WRI efforts, but I am sure you have many more examples of work done with local, state, regional or other NGOs or groups that also advance the objectives. Ducks Unlimited, RMEF, Mule Deer, Chukar, Fishing interests, etc.
4. UTSO will compile responses and formulate a list for efforts that were lead or initiated at the SO level, but may need some assistance on specific implementation results.

Thank you for your patience and in advance for your assistance in completing this request for the WO.
