### 3 BUDGET AND SCHEDULE

Table 2 provides a budget and schedule estimate for conducting Task 1. As discussed previously, Task 1 has been broken into two phases. The first phase will include initial planning and data assembly activities, including definition of the study area. The estimate and schedule for the second phase will be re-evaluated following completion of the first phase.

Schedule estimates are provided in terms of duration of the work, rather than specific calendar dates. Schedule estimates are based on the assumption that the BLM ID Team will be able to participate in the project as needed to provide relevant data, evaluate draft materials prepared by Argonne, and prepare for public meetings and webinars, in a timely fashion. If competing workloads delay the involvement of the ID Team, the overall project schedule may

need to be extended. Budget estimates for all of the tasks are dependent on assumed schedule; schedule extensions may result in budget increases.

<sup>c</sup> Estimated schedules are presented in terms of task duration.

<sup>d</sup> Budget and schedule estimates for the 2<sup>nd</sup> bullet in Phase 2 are dependent on (b) (5) - DPP [REDACTED] This task has been broken into two phases for purposes of estimating costs. The estimate and schedule for the second phase will be re evaluated following completion of the first phase.
