Hi Danielle,
Was nice seeing you last week!

Can you forward this to Sam I don't have his address. I also attached a document for you that is a list of BLM monuments impacted by EO

Chris,
Google maps should be updating the background layers to show all monument boundary shading soon, per Ilana's email.

Hi Sally,

Google has been having some issues with its basemap features recently. They are slowly but surely resolving them, so at some point all of our units will show up as green boundaries.

Best,
Ilana

Ilana,

A question that came up recently...how come some of our monuments and NCAs show up on google maps with the green shaded background of the full unit while others only show a point feature with no indication of the size of the full unit?

Thanks for your feedback, Sally
