Thank you, and I did read about the incident. This is not a rush, so next week or the week after will be fine.

Hi Randy,

I made contact with Dr. Scott Kraus at New England Aquarium regarding the slide that Downey would like made into two charts. He was traveling to Nova Scotia to attend the funeral of one of his right whale entanglement rescuers. Not sure if you heard this on the news but the man had just cut the right whale free and was killed when he was struck in the head by it's tail. It will likely be early next week before we have the slide requested.

Brian

It is page 16 on my copy - two whales and dolphin charts on the left, 2 photos of whales and dolphins on the right. Downey would like the 2 charts only, each 8.5 x 11. Thank you for this and for this morning's briefing
