(b) (6)

If so, could you have whomever is the appropriate person or office provide me with publicly releasable information on the oil and gas potential of the area in which the Northeast Canyons and Seamounts Marine National Monument is located. A map of the monument is attached.

The format is not important. Either something like "high, medium or low", or more specific projections for an area including the monument would be OK initially. If possible, I would like it by the end of next week (14th).
