Thank you for the quick response. This is all for now

Attached isa file with all the monuments managed in some way by FWS, with a column added for the Members of Congress that represent the areas (US House and Senate). As you noted, some of the monuments are partially or entirely in Federal waters with no Congressional representation (e.g., the Northeast Canyons and Seamounts MNM).

Please let me know if you need anything else on this piece.

Thank you. Please stand by for now, but expect a number of requests for information before the week is over.

One thing Betsy might want to get started on is a list of Representatives (including Delegates) whose districts include FWS-managed monuments that will be reviewed - off the top of my head that would be Hanford Reach, Papahanaumokuakea, Rose Atoll and Marianas Trench, since I don't think the NE Seamounts are in a State, but in any case we will need that list quickly. Will send an "official" list of monuments under review as soon as its cleared.

Randy,
Betsy Hildebrandt AD-External Affairs and Jeff Rupert, Chief of the Division of Natural Resources, for the Refuge System will be your contacts with the FWS for the monument review.
