VI. Weekly Report:

Week Ahead Schedule of Meetings, Hearings, and Travel

Week Ahead Announcements and Actions

On December 18, Colorado State Senator Lucia Guzman (D-Denver) is scheduled to tour the BLM-CO Sand Wash Basin Wild Horse Herd Management Area in northwestern Colorado. Guzman wants to learn more about wild horse management issues and the successful partnerships BLM-CO has formed. She has already toured the Great Escape Mustang Sanctuary, which works closely with the Northwest District/Little Snake Field Office and the non-profit Sand Wash Advocate Team to manage the Sand Wash Basin HMA. The tour will be weather-dependent. Three BLM employees from the Northwest District Office will be attending this event, including Alicia Austin Johnson, Associate District Manager, David Boyd, Public Affairs Specialist, and Ben Smith, Wild Horse and Burro Specialist. They will be joined by Hunter Seim, Assistant Field manager with the Little Snake Field Office. Successful partnerships include the Great Escape Mustang Sanctuary and the Sand Wash Basin Advocacy Team.

On December 18, the BLM-NV Ely District Caliente Field Office will offer to the public through a competitive sale three parcels of public land totaling 165.92 acres located adjacent to Hiko and Alamo, in Lincoln County, Nevada. Bidding on the sale parcels will begin at appraised fair market value. The proposed sale is in accordance with the Lincoln County Conservation, Recreation, and Development Act of 2004.

On December 18, there will be a public open house to discuss BLM-CO's proposed expansion of the C&J Gravel pit near Durango, Colorado. C&J Gravel is one of the few pits in the region containing materials that meet standards for federal and state projects. If approved, the operation would expand by 46 acres and extend the life of the gravel pit up to 19 years. The expansion would require rerouting portions of the Sale Barn and Cowboy Trails, non-historic trails popular with mountain biking, hiking, wildlife viewing and bird watching. These route changes could occur with limited interruptions to recreation through a joint trail project with C&J Gravel, BLM and Trails 2000.

On December 19-20, the BLM-WY High Plains District Office and its field managers will be traveling to Spearfish, South Dakota, to consult the Rosebud, Cheyenne River, Northern Cheyenne, Northern Arapaho, Crow, Oglala, Spirit Lake, Eastern Shoshone and Standing Rock Sioux Tribes. Steven Wright, BLM-WY assistant district manager for solid minerals, will discuss the West Antelope 3 Lease BY Application. Lonny Bagley, BLM-WY Buffalo field manager, will discuss the Crossbow Oil and Gas EIS with the tribe. Chris Durham, Acting BLM Casper field manager, will consult on the Converse County EIS. Rick Miller, BLM Field Manager in Newcastle, will discuss several smaller issues of interest to the tribes. The meeting is not controversial.

In mid to late December, the BLM-UT Moab Field Office intends to initiate scoping for a programmatic environmental assessment analyzing potential impacts of issuing Special Recreation Permits (SRP) for non-mechanized commercial and organized group activities. The proposed action would include use of designated roads and trails, interpretive sites, and established viewpoints in the Moab Field Office. The purpose is to facilitate timely response to SRP requests and to protect resources while still providing desired visitor experiences.

In mid to late December, the BLM-UT Monticello Field Office plans to initiate scoping on three recreation projects to improve facilities at Grand Flats Campground and Shay Canyon and House on Fire Trailheads. The Shay Canyon Trailhead is in the Indian Creek Unit of the Bears Ears National

Monument and the other two projects are in the Shash Jaa Unit. Visitation to the area has markedly increased in recent years.

On December 21, BLM-UT will release the June 2018 Oil and Gas Lease Sale EA for a 30-day public comment period. A total of four parcels comprised of 3,788 acres were nominated for potential leasing on lands managed by the Color Country District. The comment period closes January 23, 2018.

On December 22, the BLM-CA Central Coast Field Office intends to sign the Decision Record for the Trio Jacalitos Canyon APD in Fresno County, CA. This APD has been on hold since 2013 when the BLM identified the need for additional wildlife, botanical, and cultural inventories. The BLM review was reinitiated in 2017 when the proponents provided notice that the inventories were being completed. This APD is likely to draw the attention of environmental organizations. Public notification for the proposed APD was posted on the BLM's National NEPA Register on October 2, 2017.

30 - 60 Day Look-Ahead

In December and January, the Government Accountability Office is conducting phone interviews with the BLM-CA Bakersfield Field Office oil and gas staff regarding an audit it has been conducting on the field office's oil and gas well inspection and enforcement procedures. This audit is a continuation of the 2015 audit. The types of inspections GPO are looking into include: production inspections; records analysis; records verification; drilling inspections; abandonment inspections; work-over inspections; environmental inspections; idle/orphan well inspections, and oversight.

In December, BLM-AK is completing the first Alaska Native Claims Settlement Act Section 17(d) (1) withdrawal revocation recommendation package. The package will be submitted this month to the BLM WO and then to the Secretary for action. The revocation public land order will open approximately 229,715 acres to surface entry, mining, and mineral leasing in the Goodnews Bay area of Alaska. These lands were recommended for revocation in the 2008 Bay Resource Management Plan.

In December, the BLM-CA Bishop Field Office Manager plans to issue a decision on the Black Rock Mine Well Improvement EA. The EA's proposed action is installation of a livestock watering trough and an adjacent wildlife drinker at the Black Rock Mine Well in Mono County. This action is strongly supported by some stakeholders; however, appeals are expected to be filed since similar projects have received attention before, which will delay implementation.

By December 27, the BLM-CA El Centro Field Office anticipates signing a Notice to Proceed for commercial operation of the Tule Wind Project. Avangrid Renewables has a power purchase agreement with Southern California Edison to supply up to 132 megawatts of energy for a 15- year contract period. The Tule Wind Project is located in the eastern portion of the County of San Diego and consists of 57 turbines, 52 of which are on BLM public lands and 5 on private property.

On January 6 - 8, BLM will host a meeting to develop an interagency strategy to contain the spread of quagga mussels from the Lower Colorado River at the Colorado River District/Lake Havasu Field Office in Lake Havasu, AZ. Development of this strategy was identified as one of the Department of the Interior's top priorities to prevent the introduction and spread of invasive mussels in the June report to the Western Governors Association.

On January 9, BLM-CA Central Coast Field Manager Ben Blom and Planning and Environmental Coordinator Sky Murphy will meet with Palmira Hernandez, regulatory analyst for the California Resources Corporation. The group will discuss the company's foreseeable oil and gas development plans in the Kettleman Hills area of Fresno County.

On January 12, BLM-NV State Director John Ruhs will present an update on BLM operations in the state for the Nevada State Legislative Committee on Public Lands in Las Vegas.

On January 24, the BLM-NV Southern Nevada District Office proposes to sell 40 parcels totaling 754.88 acres of public land in Clark County. The competitive sale would be by sealed and oral bidding in accordance with the Southern Nevada Public Land Management Act (SNPLMA). The 45-day public comment period will close January 8.

From January 28 through February 2, the Society for Range Management will hold its 71st annual meeting in Sparks, Nevada. On January 30, BLM-NV State Director John Ruhs will provide a WHB presentation at the end of the Wild Horse and Burro Symposium. The title of the symposium is "Moving beyond ecological effects of wild horses." On January 31, there will be a tour of the Northern Nevada Correctional Center's Wild Horse inmate training program.

On January 31, BLM-CA staff will participate in an oil and gas operator seminar that focuses on surface and environmental requirements associated with new oil and gas projects (APDs and Sundry Notices). The BLM will provide seminar participants a refresher on the items the BLM needs regarding biological, cultural, and paleontological reviews to ensure a quick turn around when new permits are submitted.

In February, BLM-CA's Bakersfield Field Office will participate in a USFS-led public meeting in Fillmore, California, regarding four APDs in the Sespe Oilfield, which is adjacent to a USFWS refuge and a California Condor sanctuary. This meeting will generate public interest. Previously, BLM-CA had received inquiries from Congresswoman Julia Brownley's (CA-26-D) office.

In February, the U.S. Fish and Wildlife Service anticipates publishing a Federal Register Notice inviting comment for an Environmental Analysis on potentially issuing an Eagle Take Permit to Ocotillo Express, LLC's wind energy facility located on public lands in Imperial County, California. The EA is being prepared in response to the company's application for a 5-year programmatic take permit for Golden Eagles under the Eagle Act. The BLM is a cooperating agency because the EA will also analyze the potential impacts of a decision on Ocotillo Express's requested amendment to the BLM right-of-way grant that would allow discontinuation of a radar avian detection system and a 10-year bio-monitoring program that were required as part of the ROW grant.
