Sorry i missed you, Twinkle. I was on a call with the Forest Service regional forester and forest supervisor talking about Bears Ears. When we got done it was too late to call you. We will send you feedback on the charter and a draft agenda tomorrow. Thank you for your help. Ed

Ed - tried your cell but you must still be tied up on your phone call. If you want to try to get the meeting scheduled, please send in a thorough agenda which describes what the agenda topics are, the purpose of the topic, and expected outcome.  
Take care.

Twinkle

Thank you, Twinkle. We have a draft MAC FR Notice for the January meeting for me to sign. We could edit to say this is the last meeting of the current MAC and it would be re-chartered under the auspices of the Trump Proclamation. So, just let us know how it turns out and we can modify, I can sign and Larry C can send it to you. ed

I spoke with Exec Sec about this yesterday, having read the proclamation carefully and they advised we would need a new charter/committee because of the establishment authority, new duties, etc. Having read your email, I again called Exec Sec and they are checking with General Law/SOL. Regardless, the GSENMACH charter will have a major amendment.  
I will let Cally know that Exec Sec is checking with SOL and that the charter is being rewritten. And we will get your Utah nominees vetted. Thanks.

Will be back in touch.

Twinkle,  
I hope all is well with you and you are preparing for a wonderful holiday season.

You may have heard from Lola that we had a very good RAC meeting in Monticello.

What a great group of folks. We need those 6 new members that the Governor and I forwarded to DC earlier this year and of course need a new charter. What do you think the chances are for that?

Regarding MACs, we are briefing Brian, Mike, Cally and Dan in a path forward for the redesignated monuments. We need to set up and charter them rapidly because the DepSec wants the plans done in 18-24 months. I had hoped to continue the GSENM MAC. The policy makers are emphatic they GSENM is not a new monument so it shouldn't need a new MAC. We are at a recharter point so we could modify with any distinction (object, value, unit designation, etc) and adjust membership classes as well. Dan or Jeff will be in the briefing tomorrow and could weigh in with information from you regarding how to rapidly set these up for this expedited planning process. It may be a chance to let the front office know what we need for an efficient oriceee to charter and get members for our MACs and RACs.

What are your thoughts? Ed
