I think we can give some 'default' resource management objectives. Let's map ACECs, WSAs, SRMAs, Natural Areas, Wilderness, and Trails.

If they want anything else, they can ask for it.

Anita asked if we could look at the attached report for the GSENM and determine if the Bears Ears area has similar resource objects that could be mapped for Ed's briefing. I'm thinking this might be a Tyler Ashcroft task. Your ideas?
