If that was the agreed upon path, then we just need to make a couple of edits and we're probably good to go. If not, we may need to get more clarity from USFS in the morning.

If you want, I can join you for a call with Glen, I can call him myself, or we could loop in BLM-UT. I just think we need a little more clarity on what their intent was with these edits.

Thanks,

Josh

Cally and Mike,

Attached are the SOL edits, with DOJ input, for the National Monument NOIs. We have provided track changes versions for GSENM, Indian Creek Unit, and Shash Jáa Unit. Also, I combined the IC and SJ NOIs and provided you a clean version of a BENM NOI in case the BLM decides to do a single EIS for the two BENM units. We recommend doing a good scrub of the NOIs that implicate the USFS to ensure that they are properly represented.

Please let us know if you have any questions or concerns.
