Hi Nina and Peter, Katherine is recommended for OTW 2245, NCA for the Southeastern States PRMP/FEG. WOFSD reviewed the RMP and there are no outstanding issues. The planning area contains the higher value Lighthouse Channel, WSA, and WDAF. The WOFSD IP can be found at: <https://doi.gov/engr.com/>

Comments provided at the Federal Register Notice include the notice should state the RMP establishes National Trail Management Corridors for segments of the Potomac, National Heritage, Scenic Trail and the Washington-Rochester Revolutionary Route National Historic Trail, and suggested adding to the notice that it other not-a-package materials.

The MAN/CA program reviewed and doesn't have comments on the notice package. The NDAF program concurs with the PRM comments. Call to us if we haven't heard on the WOF program but it should be fine with the language added to the PRM in the stipulations described above. No way we meet the WOF at

Please let me know if additional information is needed.

Hi Steve, Lawrence is recommended for DTSP EISIS Notice of Proposed Supplementary Rules for Campsites of the Ancient National Monument. The NCA/FEIS and Wilderness programs reviewed the Notice package and responded with no comment.  
The proposed supplementary rules would result in changes to some currently authorized activities related to collecting geological and biological materials, commercial fishing and photography, recreational shooting activities, geocaching, climbing, camping in archaeological sites, and travel management.

Comment: Britta Nelson

Niki and Peter, comment is recommended of DTA 1011 BLM Transmission line Project EIS/program amendments.

The Wilderness program reviewed with no comments.

The WMA program provided a comment on page 12 of the HR. Instead of stating that the agency preferred alternative 1 "smaller" the WMA staff (Daphne Ray), the HR states that the alternative "minimizes impacts" to it. As of the HR's review, findings, and discussion, it had been "small".

The updated documents are attached and have been updated into DTA.

Please let me know if there is anything else needed at this point. Thanks.

Nov 01 (2 days ago)

To: Folia

Hi Folia, I am working on the EIS package for the NCL for St George/Thomas Dean Wind/Red CDFW and can't tell from the notice package what the decisions are. Were there changes between the PRMP and approved plan for the NCLs, lands with wilderness characteristics, or NMT?

Thanks,

Britta Nelson, M.P.A., Program Analyst  
National Conservation Lands (NCL-402)  
Bureau of Land Management  
BLM-2040206

Homestead, Folia

Nov 02 (2 days ago)

To: Patricia, Heather, me

We can't say with 100% certainty if there's been changes between the PRMPs and the NCL, since project resolution hasn't concluded and the Governor's Appeal period hasn't ended yet (mid Dec. 15).

That said, Pam, can you please let Britta know (and copy me) if the draft NCLs as they currently stand contain any changes between the PRMPs and NCLs for the NCLs, lands with wilderness characteristics, or NMT?

Thanks,

Folia

Nov 02 (2 days ago)

Patricia, Heather

Hi Britta, the resolution process PRMP and NCLs

Homestead, Folia

Nov 02 (2 days ago)

To: Patricia, me, Heather

Thanks Pam,

Britta, please review and confirm the NCL packet with this assumption that there'll be no changes between PRMP and NCLs, and I will notify you if anything changes based on project resolution or a possible Governor's Appeal.

Thanks,

Folia

Dec 01 (7 days ago)

To: me, Heather, Niki, Lally

Hi Britta,

I hope you had a great weekend. I'm sending you a friendly reminder to please complete the NCL review of 275 Record BLM00001204 for St. George/Thomas Dean Wind/Red CDFW. NCL (which has been with NCL since 12/01) is close to close in possible. As you know, the Red CDFW NCL is under court ordered deadline of Dec.

Please let me know if you have any questions, and thank you!

Nelson, Britta (bnelson@blm.gov)

Comments: Berra Solution:

WD410 records show that under the proposed plan, a NSO disposition would be applied to the suitable WSR segments along the Colorado and Green Rivers (28,347 acres), and the Monticello WSR Segment 1 along the Colorado River would be closed to mineral leasing (754 acres). Have there been changes for WSR data to Pamela, Mr. Ryan, Sally, Nikki, Chelsi

My understanding is that no change will be made between the Muddy Mt/PMMP Amendments and the NSO/Approved RMP Amendments related to areas of NSO and areas closed to mineral leasing. Pam, please correct me if I'm wrong.

Correct, there are no changes to acreages between proposed and approved.

[illegible]

vi) B11A. The short answer to your followup question is "no". We are currently drafting alternatives for our RMP revision, in which we will make those decisions on CWGs. But decisions on CWGs have not been made for this area at this point because our RMP is old (1991) for the area of the Amber Road proposal.

Hi Tim, WD-402 received the NOI to prepare an EIS on the Andover Mining District Industrial Access Project for scoping and has some follow-up questions. I am reaching out to you because your name is listed as the point of contact for the project in the DTP system.

The Andover NEI (drafted) indicates that wilderness characteristics are a key issue. Can more information be provided about this including if the wilderness characteristics inventory is current, if the current MAP addresses lands with wilderness characteristics, and if the project is consistent with the plan?

Also are there National Conservation Lands units such as wildland scenic land or NCLs in the project area?

Please let me know if we need to discuss.

Thanks,

 Thanks for the update!  
 Is NCE included in the meeting with Eastern States? Since the OMS is a National Conservation Lands unit, NCE should be included in discussions in the ACEJWP.

Thanks,

Brett Nelson  
 Management and Program Analyst

 Hello Brett,

We currently were addressed and the BLM was down. As far as ACEJWP table place. There were some issues regarding over-lapping designations between incineration and ACEJ. Additionally making sure that the purpose and need statement captures the right and correct is also essential. I think Eastern States is working internally on inspection of where the Federal Register package is. I don't see where that the issues closed at the ACEJWP are addressed. We will be happy and support from BLM is well. We will keep you in the loop regarding any further developments.

I will be happy to update.

All the best,

Shira

 Subject: Check for National Conservation Lands PMRP/EIS  
 To: Ryan <ryan.acher@blm.gov>  
 Cc: Nani <nani@blm.gov>

Hi Ryan, I hope you are well. WFO20 has the NCE for the Southeastern States PMRP/EIS in DTS. There are remaining issues that were to be worked on by Eastern States, WFO20, and WFO20 but those discussions have not occurred yet. Should we not something up to discuss or is that something EIS will coordinate.

Thanks,

National Conservation Lands, a WO admin review of the Cedar City DRAFT/DGIS is scheduled for January 30 through February 4 with a kick-off briefing scheduled for January 18. After receiving the review file from WO210 I will share them along with a WD610 comment form on google drive. The WD410-Briefing Paper Allison and Rob, can you provide answers to each of the following questions from your review of the Cedar City DRAFT/DGIS to help guide WD410's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the BMP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

How does the State Director bring BLM alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designated) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

**Lands with wilderness characteristics**

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is inventory report included as an Appendix?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is rationale provided for decisions to:  
[X] emphasize other multiple uses, [ ] emphasize other multiple use?  
Is a table included that contains one row per identified land parcel, with columns for wilderness characteristics, areas and the percentage of lands that fall within each of the categories identified in BLM Manual §20.6, which include: [X] protection of lands with wilderness characteristics at a priority over other uses, [ ] emphasizing other values?

Eligible and Suitable WSR

Did the FO complete WSR eligibility inventories consistent with current policy requirements (B154000)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M6400?

Are suitable/unsuitable decisions made for all WSR eligible streams in the planning area?

Is the WSR Study Report protected as an Appendix and is it consistent with current policy?

For segments determined not suitable, do any resource allocations protect the river values; and/or is suitable provided for not protecting the river values especially? Implementation of the RMP will degrade or eliminate those river values?

**National Scenic and Historic Trails**  
Is the national trail management corridor allocation included in the alternatives?  
Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

**Other RMP Issues**  
Does the RMP include any unique issues (e.g., associated settlement agreements) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives?  
How do the unique issues or background affect the alternatives?

Thanks, Britta

Hi @BorisNelson and @GrafKornelien we're a submission that missed. In our case, the "WSP" doesn't mean anything to me - I don't have a guide to all the program numbers and we had to re-use each with the associated program name. It is more subtle to me and the rest of the WSP was (NIGHT, WSP). Many thanks.

To summarize, here is the status of what I think "your" manuscript NC2 programs (but not ours):  
WSP: just heard the NC2 comment and have provided it to Tom Richardson (Stable NC2 + this Link)  
NC2: we're using the original WSP comment and have provided it to Tom Richardson (Stable NC2 + this Link)  
WSP: we're using our alternative for the new Director's direction. Both NC2 programs could not reach reduction, it went to the NC2 and NC4 iterations (at least). As a result, there will be no updates to these comments.

with Fritz G.  
and Britta Nelson:  
Residence: 3000 4th Street, San Francisco, CA 94114

National Conservation Lands, a WO admin review of the GSENM DRMP-A/DES is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 25. After receiving the review from WO210 I will share them along with a WO430 comment form on google drive. WO430 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSENM DRMP-A/DES to help guide WO430's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMP alternatives? If not, is there a stand alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the BMP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on BHP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NM/NCA?

1. Link with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included as an Appendix?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is a table included that summarizes areas inventoried, areas found to have wilderness characteristics, areas and the percentage of lands that fall within each of the categories identified in BLM Manual 533, which include:

- a) protection of lands with wilderness characteristics as a priority over other uses,
- b) emphasizing other

revenue impacts for wilderness characteristics? Will occur and wilderness character will be maintained?

Did the FO complete WSR eligibility inventories consistent with current policy requirements (B1-B400)?

Did the FO complete suitability evaluations and determinations for all eligible stream owners using factors and criteria from M040?

Are suitable/unsuitable decisions made for all WSR eligible stream in the planning area?

Is the WSR Study Report included in an Appendix and is consistent with current policy?

For segments determined not suitable, do the owner/eligible allocations protect the river values; and/or is rationale provided for not protecting the river values especially if implementation of the RMP will degrade or eliminate those river values?

National Scenic and Historic Trails  
Is the national trail management corridor allocation included in the alternatives?

National Conservation Lands: WFO admin review of the GSDM/DMP ADGDS is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 11. After reviewing the review file from WFO2101 will share them along with a WFO2102 comment form on google drive. WFO2102 comment previously  
Allison and Rob, can you provide answers to each of the following questions from your review of the GSDM/DMP ADGDS to help guide WFO2101's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMAP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation conditions identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use alternatives and/or management actions identified in the BMAP that link or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Are all land use planning decisions in the BMAP consistent with the purpose and objectives of the designating proclamation or Act of Congress that established the NAC/NA?

Are new utility corridors or RPOs in the NAC/NA identified as exclusion or avoidance areas?

Land with wilderness characteristics

Does the FO have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included in the BMAP?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is information included for decisions to (1) emphasize other multiple uses (2) emphasize other multiple use while applying management restrictions to reduce impacts to wilderness characteristics, and/or (3) protect wilderness characteristics over other multiple uses?

Is a table included that summarizes areas (owned/managed) areas found to have wilderness characteristics, areas and the percentage of lands that fall within each of the categories described in BLM Manual 6320, which include: (1) protection of lands with wilderness characteristics as a priority over other uses, (2) emphasizing other values impacts to wilderness characteristics, and (3) use and wilderness character will be maintained?

Eligible and Excluded WMA

Did the FO complete WMA eligibility inventories consistent with current policy requirements (BLS 6400)?

Did the FO complete suitability, suitability, and determination for eligible streams using factors and criteria from MMS007?

Are suitability/unusable decisions made for all WMA-eligible streams in the planning area?

Is the WMA Study Report included in an Appendix with its contents with current policy?

For segments determined not suitable, do other resource allocations protect their values, and/or is a table provided for not protecting the non-values especially if implementation of the BMAP will degrade or eliminate those non-values?

National Lands and Resource Trade

Is the National Land Management Council alternative included in the alternative?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purpose of the land?

Other BMAP Issues

Does the BMAP include any unique issues (e.g., associated settlement agreement or background (e.g., anomalies included in a National Monument proclamation) that affect the alternative?

Excludes how the unique issues or background affect the alternative.

Please let me know if you would like to discuss. Thanks, Britta

Revised final draft ROD for the Transborder Transmission Project and the WMA package sent for review by Sharon Knowlton on 05-18-16. Comments requested by CDB, 5-24-16. National Trails comments on ROD provided on 05-24-16. 05-26-17. Followed up on the Mitigation and Monitoring appendix which is missing details on project. It will meet with county council several options including the purchase of land to be newly designated wilderness. The WMA has drafted a plan and is now waiting on Director's approval. Once made, it can be shared internally with the larger BLM group.

Hi Molly, Molly, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project BWP amendment/CDS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WMA as in the draft is being prep.  
Our records show the following project issues:  
1) The project area includes eligible and suitable WMA resources including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WMA and Scientific Monuments Act requires looking at "increment" projects that are upstream, downstream or on a tributary of a designated river. Based  
2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT). The project needs to be considered per BLM NAC200.  
3) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Tenth Field Office BWP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible CDS for this project.  
Additional project information follows:

Comment: Britta Nelson  
05-13-16

A Project reviewed from the Wilderness Society  
a WOTD provided feedback on all final RDR, RDR, and NEPA package 05-24-16.  
a WOTD drafted compensatory mitigation language. The issue was resolved and WOTD agreed to the mitigation language which was not ideal (somebody mitigate and not would mitigate). The compensatory mitigation package language, as modified by WOTD, was incorporated into an addendum to the EIS on 05-01-16.

Hi Adrian, thanks for the note. I will make sure and include you on communications on the Verde project. Thanks for keeping me updated and letting me know what WDCG support might be needed as you move forward. I do have a question - I saw this project is identified as the priority project transmission 4  
Thanks,

Britta Nelson

I have provided the e-mail below from Mark Adler here at the BLM NM State Office. I wanted to let you know that I have been assigned as the Project Manager for the Verde Transmission Project. I'm also stationed here at the BLM NM State Office as well. Please ensure that you include me in all future e-mailing as we start the preparation of the Draft EIS.

Thank you

National Conservation Lands, your review of the final draft RMP for TML, WDCG, and NDA package is requested. Please provide feedback to me by May 10. Additional information is found in Sharon's note below. This is the first of three emails from Sharon I will forward.

Thanks, Britta

From: Kowalen, Brian (brian.kowalen@blm.gov)  
Sent: Friday, May 11, 2018 3:10 PM

Subject: Please see the Transient Project draft final RMP, RMP and final package for review in e-mail.

Hi everyone this is the first of a email providing the draft final package described above. We are pleased to provide the revised final draft RMP for the Transient Transmission Project and the NDA package for review. The body of the RMP is attached, along with the Mitigation and Monitoring appendix, which is at

genc, Appendix 7: Mitigation and Monitoring with the exception explained above, Appendix D: Response to Governor's commentary and FGL comments, Appendix C: Alternatives Eliminated from further analysis and Appendix 1: NPS requirements for access to DevilsGate Road. Appendix B is the Plan of Development with

All comments received on the draft RMP and RMP grant that have been addressed except those noted here or call highlighted in the document. For those who have previously reviewed documents, please verify we've adequately addressed your comments. The purpose of this review is to identify show stopping

Our Wyoming External Affairs Office will be working directly with other states and the WDCG to finalize the NDA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WDCG provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix,

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final RMP and the PA.

Please respond with any suggested revisions by close of business May 10th, 2018. Subsequent emails will contain a copy of the TML Plan of Development in 2 parts due to size limitations.

Regards,

Brian

Revised final draft RMO for the TransWest Transmission Project and the NMP package are for review by Sharon Krowchuk on 05-13-16. Comments requested by 05-13-16. National Trails comments on RMO provided on 05-04-16. 05-16-17. Followed up on the Mitigation and Monitoring appendix which is missing details on project. It will meet final comment review upon completion of mitigation monitoring appendix. The RMO has drafted plan and is now waiting for comments. Appendix. Once ready, it can be shared internally with the larger BLM group.

To: Tamara, Stephen, Sally, Deborah, Christopher, Georganna, me  
To meet the policy and purposes of the National Trails System Act (NTSIA Sec. 701), to prevent a project which will not substantially interfere with the nature and purposes of the trail (NTSIA Sec. 701), and to safeguard the nature and purposes of the National Scenic and Historic Trails (NSHT), BLM MS-4388-1-A-A-1-11.

Analysis and consultation measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the impacts from the Project. For residual (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that were National Trails System components, and will be required to be applied for the duration of the impacts. Mitigation measures will be feasible, additional, timely, consistent, adaptive, integrated, and repeated again.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include, but are not limited to, proposed mitigation measures (e.g., design features), including the associated monitoring, adaptive management, and reporting requirement.

Please let me know if you have any questions!

The attached RCD document has incorporated the NHT-435 with an eng. 10 and 14 under National Conservation Lands, National Historic Trails.  
Additionally we have added a few sentences under Decision, Right-of-Way Authorization and Selected Alternative plus Meyer-Blanks (public) request.

Please post this version to DCE.  
Thanks much!

Hi Teresa, Krista, Tasha, Deborah, Christopher, Christopher, and  
Teresa, Steve, and Gregoire - thank you for sending us the BLM ROD for a quick review. We did notice that the ROD language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands NHT section on  
To meet the policy and purposes of the National Trails System Act (NTSIA, 16 U.S.C. 1601) to permit a project which will not substantially interfere with the nature and purposes of the trail (NTSIA, 16 U.S.C. 1601), and to safeguard the nature and purposes of the National System and Historic Trails (NHTS, 16 U.S.C. 1601),  
Avoidance and minimization measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the impacts from the Project. For avoided (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that were  
National Trails System components, and will be required to be applied for the duration of the impacts. All mitigation measures will be feasible, additional, timely, monitored, adaptively managed, and reported upon.  
  
The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include appropriate proposed mitigation measures (e.g., design, structure), including the associated monitoring, adaptive management, and reporting requirement.  
  
Please let me know if you have any questions!

Teresa, Steve, and Georgeann - Thank you for sending us the BLM NPS for a quick review. We did notice that the NPS language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands NPS section on  
To meet the policy and purposes of the National Trails System Act (NTSA Sec. 100) to permit a project which will not substantially interfere with the nature and purposes of the trail (NTSA Sec. 102), and to safeguard the nature and purposes of the National System and National Trails (NPS): BLM MAY EXERCISE A.A.A. A.A.A. A.A.A.  
Avoidance and minimization measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (Oregon NHT), will be applied for the duration of the impacts from the Project. For avoided (i.e. unavoidable) effects to the values and settings of the Oregon NHT, that have National Trails System components, and will be required to be applied for the duration of the impacts. All mitigation measures will be feasible, additional, timely, monitored, adaptively managed, and reported upon.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include applicant proposed mitigation measures (e.g. design features), including the associated monitoring, adaptive management, and reporting requirements.  
Please let me know if you have any questions!

Our records show the following project items:

1) The project area includes eight and a half WSD streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande near Section 7 of the WSD and hence WSD's Ant requires looking at "Technical" projects that are upstream, downstream or on a tributary of a designated river. Based

2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT's). The project needs to be considered per BLM NHTS.

3) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Ties Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible DLS for the project.

Additional project information follows.

Hi Britta,  
  
Thanks and hope the same to you too!  
  
All briefing was held on December 30th and Chris attended (from 400) and it was agreed to go ahead with Director's briefing and some suggestion were provided for fine tuning the presentation. Director's briefing request has been submitted but not yet scheduled.  
  
All the best,  
  
[REDACTED]

Hi Ryan, Shira, and Anne - I hope your weeks are off to a great start! Thank you for adding W&A&D to the routing for the Southwestern States nation (2017). I am updating W&A&D tracking records and wanted to check it in on where we are with briefings on the plan. Have the AD and Director's briefs been held? If  
  
Thanks!

To Tim, Mrs. Kelly, Molly, Christopher  
Hi Britta,  
  
In mid-December we briefed State Director Amy Lunder on the W&A&D response and we are making a few adjustments to the memo response. We are also close to completing the GMS and user estimate.  
  
The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.  
  
Thanks again for keeping this on your radar.  
  
Happy New Year!  
Chad

Hi Chad and Molly, I hope January is off to a great start for you both! I wanted to check in to see if there is an update on the Callidus information you have been working on.  
  
Please let me know if you would like to discuss. Thanks! Britta

Hi Britta,  
  
No further at all on asking about the status of our response. I appreciate you keeping it on your radar.  
  
We have decided to go ahead and include the land cover greenhouse gas emission (GHG) estimates into the RMP and this effort is taking some time due to the complexity involved in generating current and forecasted eligible production in our field office. We are close to having the production estimates sent to all  
  
With the upcoming holiday I may be a few weeks before we are able to have this done.  
  
If you have any other questions I would be glad to answer them.  
  
Thanks,  
Chad

Correction: We are anticipating having response ready to send back to your office by November 7, not December. My apologies for the confusion.

[REDACTED]

We are getting close to having our responses ready to send back to the WOs. We are meeting today to further discuss the greenhouse gas end-user analysis. We are anticipating having responses ready to send back to your office by December 7.

Thanks for keeping this on your radar.

Chad

Hi Britta,

Thanks and I hope this comes to you soon!

Britta and Chris attended 11/19/18 and it was agreed to go ahead with Director's briefing and some suggestions were provided for fine tuning the presentation. Director's briefing request has been submitted but not yet scheduled.

All the best,

Shira

**NATIONAL  
CONSERVATION  
LANDS**

**March 2017  
Monthly Hot Topic Snapshot  
WO-410 RMP and EIS Review  
Updated 02/27/17**

**Chris McAlear**  
Acting Assistant Director (WO-400)  
Acting Assistant Director (WO-400)

**RMPS AND PROJECTS WITH ISSUES TO ELEVATE/DIRECTORS PRIORITIES**

- **DTS# 1449. NOA of FEIS and Notice of Decision for Proposed Land Exchange between the BLM and Agua Caliente Band of Cahuilla Indians. California.**
  - **No issues. Surname recommended to WO410 on 02-23-17.**
  - BLM to exchange four parcels of public land totaling 2,560 acres for three parcels of tribal land totaling 1,471.24 acres. All lands are within the Santa Rosa and San Jacinto Mountains National Monument.
  - Exchange consolidates lands, enhances public recreation opportunities, and facilitates more efficient land management.
- **DTS# 1401. NOA of the Boardman to Hemingway ROD. Oregon.**
  - **NOA has not reached WO400.** NOA not routed at Division level.
  - WO410 provided updated language for NSHT for the ROD to the Project Manager and WO210 (Jan 12, 2017).
- **Bering Sea-Western Interior preliminary range of alternatives. Alaska.**
  - WO410 submitted comments to WO210 for the wilderness, WSR, and NSHT programs (Nov. 2016).
  - **Update: 1) follow-up meeting scheduled with Alaska for March 1 for lands with wilderness characteristics. 2) a meeting is scheduled with Alaska for February 27 to discuss the Iditarod NHT and what interests and options there are, if any, as to BLM managing or regulating a ROW reservation for the Iditarod for the five townships/two Tentative Approvals that currently do not include a reservation.**
  - **Issues:**
    - Wilderness Program. **Update: Elevation paper submitted to AD for discussion w/SD.** An alternative protecting all or most of the lands with wilderness characteristics is not included in the range of alternatives. The "maximum protection" alternative only protects 2.5% of the planning area (which, minus a few tiny parcels, all contains wilderness characteristics).
    - Wild and Scenic Rivers. **Update: Alaska Recreation Lead, Tom Bickauskas, will follow up with Cathi Bailey.**
      - 1) Did not use the required range of alternatives for suitable WSRs (per manual 6400).
      - 2) All of the action alternatives have the 22 eligible rivers as not suitable. Yet Goal #1 is to effectively manage the ORVs identified during the eligibility inventory.
      - 3) Mitigation standard allows net loss to their designated Wild and Scenic River (Unalakleet).
    - National Trails. **Update: Iditarod NHT Manager (Kevin Keeler) and State NLCS Lead (Tom Bickauskas) spoke with Deb Salt on 02/22/17 and hope to complete the comment response by 02/24/17.**
      - 1) Iditarod NHT is not addressed in coal leasing decisions. Per 43 CFR 3400.2, coal leases shall not be issued on Federal Lands within the National System of Trails.
      - 2) Proposed disposal via state selection of the Rohn site, a site significant under the NTSA and NHPA.
- **Grand Staircase-Escalante National Monument administrative DRMP-A/DEIS WO Review. Utah.**
  - WO review of DRMP-A/DEIS from **January 30 to February 17. Comment period extended for WO410.**
  - Planning area a National Monument that contains wilderness characteristics, NSHT, WSR, wilderness, and WSA.

- **Issues:** 1) More discussion is needed in plan alternatives on WSA non-impairment and grandfathered use requirements (40% of decision area is within WSAs). 2) Discussion of WSAs and designated Wilderness in the analysis should be separated (currently combined). 3) Discussion and analysis of impacts to Old Spanish NHT is needed.
- **Organ Mountains-Desert Peaks National Monument RMP Prep Plan.** New Mexico.
  - Prep plan review from February 13 through 24.
- **Browns Canyon National Monument RMP Prep Plan.** Colorado.
  - Prep plan review from February 13 through 24.
- **Appalachian Basin RMP Prep Plan.** Eastern States.
  - Prep plan review from February 27 through March 10.
- **Upper Snake, Challis, Salmon RMP Prep Plan.** Idaho.
  - Prep plan review from February 27 through March 10.
- **Verde Transmission ADEIS.** New Mexico.
  - **Issues:** Potential impacts to WSR and National Trails.
    - Proposed route crosses Rio Grande River. Eligible and suitable WSR streams in area including additional segments of the Rio Grande WSR.
    - Project would cross the Camino Real de Tierra Adentro NHT and Old Spanish NHT.
  - **Next milestone is review of ADEIS (TBD). Any review is to be coordinated through New Mexico as amendment is not on WO210 priority list for WO review.**
  - **Update:** Scoping Report is being prepared. Scoping indicates opposition to project.
- **Mancos Shale RMP-A NOI, Farmington, New Mexico.**
  - **Issues: Unknown** but WO410 is tracking because the RMP-A proposes to amend four decision types including lands with wilderness characteristics and will analyze potential impacts from oil and gas decisions to the Old Spanish NHT (RMP decisions for the NHT will not be made).
  - **As the RMP-A/EIS moves forward (alts development, impact analysis, etc.) WO410 will participate to ensure that the National Conservation Lands units are adequately considered.**
  - **Update:** draft alternatives will be completed this summer. Public release of the DRMP/DEIS is not anticipated until calendar year 2018. NMSO will coordinate with WO210 on WO review.

#### UPCOMING BRIEFINGS (NEXT 30 DAYS)

- **Lewistown DRMP/DEIS.** Montana.
  - **AD brief anticipated by mid-March.**
  - **No issues.** 202,730 acres contain wilderness characteristics. **100,410 acres (49%) would be managed to protect wilderness characteristics.** 30,000 acres would be managed to reduce impacts to wilderness characteristics (13,000 acres of ACECs and approximately 15,000-20,000 acres where actions are in place to protect GRSG). 70,000 acres would not be protected with underlying prescriptions including open to mineral material sales, non-energy leasables, cross-country mechanized travel, fluid minerals with minor constraints (CSU), and

livestock; limited to designated routes yearlong; 400 acres of ERMA prescription (potentially); and mostly VRM III.

- **Carlsbad Field Office DRMP/DEIS.** New Mexico.

- **Director's Brief was held on 09-27-16. Met with NMSO and WO210 to follow-up.**
- **Follow up:** New Mexico is updating the briefing information related to lands with wilderness characteristics, including specifying acreage that the office will be protecting, maintaining, and not protecting; providing more detailed rationale for these decisions; clarifying that the entire FO was inventoried; and updating the maps to make acreage protected/maintained/not protected more clear. Information related to WSR suitability will also be included either verbally or in the PowerPoint presentation.
- **Update: 02-03-17. Updated rationale provided by Carlsbad for WSR, under review.**
- AD Brief held 08-18-16. Pre-brief held 08-09-16.

- **Rio Puerco PRMP/FEIS.** New Mexico.

**ADL 01-1-1700**

- **No outstanding 410 issues.** Rationale provided for lands with wilderness characteristics decisions (77% protected, 19% impacts minimized, 4% (1,663 acres) not protected.
  - The 1,663 acres is separated from other wilderness characteristics acres by natural geological barriers and has a separate access route. Area had interest from both the Wilderness Society and National Four Wheel Drive Association. New Mexico met with both groups and reached what everyone agreed was an equitable management approach. New Mexico received a "3 cape" award from the Wilderness Society for their efforts.
