[FY2017 Tracking Spreadsheet.xlsx](#)

[Monthly Hot Topic Snapshot for week of February 21.docx](#)

Hi Chris and Nikki, the Monthly Hot Topic Snapshot for the week of February 21 is attached. Also attached is the tracking spreadsheet. Please let me know if you have any questions. Thanks.

Britta Nelson, M.P.A., Program Analyst  
National Conservation Lands (WO-410)  
Bureau of Land Management  
303.236.0539

**NATIONAL  
CONSERVATION  
LANDS**

**February 2017  
Monthly Hot Topic Snapshot  
WO-410 RMP and EIS Review**  
Updated 02/21/17

**Chris McAlear**  
Acting Assistant Director  
Assistant Director (WO-400)

**RMPS AND PROJECTS WITH ISSUES TO ELEVATE/DIRECTORS PRIORITIES**

- **DTS# 1449. NOA of FEIS and Notice of Decision for Proposed Land Exchange between the BLM and Agua Caliente Band of Cahuilla Indians. California.**
  - Issues: unknown. Package under review by NM/NCA program. Map has been requested (no map currently in notice package in DTS).
  - BLM to exchange four parcels of public land totaling 2,560 acres for three parcels of tribal land totaling 1,471.24 acres. All lands are within the Santa Rosa and San Jacinto Mountains National Monument.
  - Exchange consolidates lands, enhances public recreation opportunities, and facilitates more efficient land management.
- **DTS# 1401. NOA of the Boardman to Hemingway ROD. Oregon.**
  - NOA has not reached WO400. NOA not routed at Division level.
  - WO410 provided updated language for NSHT for the ROD to the Project Manager and WO210 (Jan 12, 2017).
- **Grand Staircase-Escalante National Monument administrative DRMP-A/DEIS WO Review. Utah.**
  - WO review of DRMP-A/DEIS from January 30 to February 17
  - Planning area a National Monument that contains wilderness characteristics, NSHT, WSR, wilderness, and WSA.
  - Issues: 1) More discussion is needed in plan alternatives on WSA non-impairment and grandfathered use requirements (40% of decision area is within WSAs). 2) Discussion of WSAs and designated Wilderness in the analysis should be separated (currently combined). 3) Discussion and analysis of impacts to Old Spanish NHT is needed.
- **Organ Mountains-Desert Peaks National Monument RMP Prep Plan. New Mexico.**
  - Prep plan review from February 13 through 24.
- **Browns Canyon National Monument RMP Prep Plan. Colorado.**
  - Prep plan review from February 13 through 24.
- **Appalachian Basin RMP Prep Plan. Eastern States.**
  - Prep plan review from February 27 through March 10.
- **Upper Snake, Challis, Salmon RMP Prep Plan. Idaho.**
  - Prep plan review from February 27 through March 10.
- **Bering Sea-Western Interior preliminary range of alternatives. Alaska.**
  - WO410 submitted comments to WO210 for the wilderness, WSR, and NSHT programs (Nov. 2016).
  - Update: follow-up meetings scheduled with Alaska for February 27 for National Trails and March 1 for lands with wilderness characteristics.

- o **Issues:**

Wilderness Program. An alternative protecting all or most of the lands with wilderness characteristics is not included in the range of alternatives. The "maximum protection" alternative only protects 2.5% of the planning area (which, minus a few tiny parcels, all contains wilderness characteristics). **Elevation paper submitted to AD for discussion w/SD.**

Wild and Scenic Rivers.

- 1) Did not use the required range of alternatives for suitable WSRs (per manual 6400).
- 2) All of the action alternatives have the 22 eligible rivers as not suitable. Yet Goal #1 is to effectively manage the ORVs identified during the eligibility inventory.
- 3) Mitigation standard allows net loss to their designated Wild and Scenic River (Unalakleet).

National Trails.

- 1) Iditarod NHT is not addressed in coal leasing decisions. Per 43 CFR 3400.2, coal leases shall not be issued on Federal Lands within the National System of Trails.
- 2) Proposed disposal via state selection of the Rohn site, a site significant under the NTSA and NHPA.

- **Verde Transmission ADEIS. New Mexico.**

- o **Issues:** Potential impacts to WSR and National Trails.
  - Proposed route crosses Rio Grande River. Eligible and suitable WSR streams in area including additional segments of the Rio Grande WSR.
  - Project would cross the Camino Real de Tierra Adentro NHT and Old Spanish NHT.
- o **Next milestone is review of ADEIS (TBD).** Any review is to be coordinated through New Mexico as amendment is not on WO210 priority list for WO review.
- o **Update:** Scoping Report is being prepared. Scoping indicates opposition to project.

- **Mancos Shale RMP-A NOI, Farmington, New Mexico.**

- o **Issues:** **Unknown** but WO410 is tracking because the RMP-A proposes to amend four decision types including lands with wilderness characteristics and will analyze potential impacts from oil and gas decisions to the Old Spanish NHT (RMP decisions for the NHT will not be made).
- o **As the RMP-A/EIS moves forward (alts development, impact analysis, etc.) WO410 will participate to ensure that the National Conservation Lands units are adequately considered.**
- o **Update:** draft alternatives will be completed this summer. Public release of the DRMP/DEIS is not anticipated until calendar year 2018. NMSO will coordinate with WO210 on WO review.

<b>UPCOMING BRIEFINGS (NEXT 30 DAYS)</b>
--

- **Lewistown DRMP/DEIS. Montana.**

- o **Staff pre-brief scheduled for 02-21-17.**
- o **No issues.** 202,730 acres contain wilderness characteristics. **100,410 acres (49%) would be managed to protect wilderness characteristics.** 30,000 acres would be managed to reduce impacts to wilderness characteristics (13,000 acres of ACECs and approximately 15,000-20,000 acres where actions are in place to protect GRSG). 70,000 acres would not be protected with underlying prescriptions including open to mineral material sales, non-energy leasables, cross-country mechanized travel, fluid minerals with minor constraints (CSU), and livestock; limited to designated routes yearlong; 400 acres of ERMA prescription (potentially); and mostly VRM III.

- **Carlsbad Field Office DRMP/DEIS. New Mexico.**
  - **Director's Brief was held on 09-27-16. Met with NMSO and WO210 to follow-up.**
  - **Follow up:** New Mexico is updating the briefing information related to lands with wilderness characteristics, including specifying acreage that the office will be protecting, maintaining, and not protecting; providing more detailed rationale for these decisions; clarifying that the entire FO was inventoried; and updating the maps to make acreage protected/maintained/not protected more clear. Information related to WSR suitability will also be included either verbally or in the PowerPoint presentation.
  - **Update: 02-03-17. Updated rationale provided by Carlsbad for WSR, under review.**
  - AD Brief held 08-18-16. Pre-brief held 08-09-16.
- **Rio Puerco PRMP/FEIS. New Mexico.**
  - **AD's Brief TBD.**
  - **No outstanding 410 issues.** Rationale provided for lands with wilderness characteristics decisions (77% protected, 19% impacts minimized, 4% (1,663 acres) not protected.  
The 1,663 acres not protected from the wilderness characteristics acres by natural geological barriers and has a separate access route. Area had interest from both the Wilderness Society and National Four Wheel Drive Association. New Mexico met with both groups and reached what everyone agreed was an equitable management approach. New Mexico received a "3 cape" award from the Wilderness Society for their efforts.

Caption 1: Be Check in on the World's Tallest man in Pakistan (Bilal Pannoon) (T.E)

Hi there. Thanks for the note. I will be able to send a help you in communication form on the 16 of April next. There is no keeping me updated and, in agreement with WUOL support to get the mail. If you need forward I do have an idea. I can't speak to other kind of help every project is needed. Also

**Thanks**

On March 24th 2016, a 33-year-old male with a long history of alcohol abuse presented to the emergency department with a 2-day history of severe abdominal pain, nausea, and vomiting. The pain was located in the right upper quadrant and was described as sharp and constant. The patient had a history of chronic alcohol consumption, estimated at 100-150 g of alcohol per day, and had been drinking heavily for the past few weeks. He had no recent falls or trauma. The patient's medical history was significant for hypertension, hyperlipidemia, and type 2 diabetes mellitus. He was currently taking lisinopril, atorvastatin, and metformin. The patient's physical examination revealed a well-appearing man with no acute distress. His vital signs were stable. The abdominal examination showed tenderness in the right upper quadrant, with no guarding or rigidity. There was no jaundice, and the liver and spleen were not enlarged. The patient's laboratory studies showed a white blood cell count of 12,000/mm<sup>3</sup> with a left shift, a serum aspartate aminotransferase (AST) of 150 U/L, and a serum alanine aminotransferase (ALT) of 180 U/L. His serum bilirubin was 1.2 mg/dL, and his serum alkaline phosphatase (ALP) was 120 U/L. His serum amylase and lipase levels were within normal limits. The patient's chest X-ray was unremarkable. The patient was started on intravenous (IV) fluids, pain management, and antiemetics. He was also given a 20-mg bolus of morphine for pain. The patient's symptoms improved over the next 24 hours, and he was discharged on oral pain medication and a 2-week course of ceftriaxone. He was advised to abstain from alcohol and to follow up with his primary care physician. The patient's condition improved, and he was discharged on the 3rd day of admission. The patient's symptoms were consistent with acute cholecystitis, and the elevated AST and ALT levels were consistent with alcohol-induced liver injury. The patient's physical examination and laboratory studies were consistent with this diagnosis. The patient's history of alcohol abuse and the absence of trauma or other causes of abdominal pain supported this diagnosis. The patient's symptoms and physical examination findings were consistent with acute cholecystitis, and the elevated AST and ALT levels were consistent with alcohol-induced liver injury. The patient's physical examination and laboratory studies were consistent with this diagnosis. The patient's history of alcohol abuse and the absence of trauma or other causes of abdominal pain supported this diagnosis.

I was a published film & novel writer for 30 years before the 2008/2009 season. I wanted to let you know that I have been assigned as the Pre and Post manager for the World Tennis club Pre and Post at a national level at all 6000 US & CAN tennis clubs. The members that you include me as a member are a pleasure and a huge support for the 2010/2011.

Subject: The Check is on the Verbal Theorem, and a Proof of It! (Part 1) (1/1)

3) There was no evidence that the measurements or at least some of the measurements or at least some measurements had been considered as part of the BSA of the 2012-2013 season. I believe that the BSA of the 2012-2013 season should be reviewed and updated as part of the BSA of the 2013-2014 season.

Thank you for your information and for your

Thanks
