[IGO Articles Argonne - Bears Ears Heritage Resource Value and Risk Assessment SLL edits.docx](#)

All, Signa took a look at the SOW and made some changes to it.  
I asked Argonne to provide us a response by next week.

Hi Nate and Konnie,  
Here are some edits on the IGO Articles and the SOW for the Bears Ears CLA.

We're getting to the point where changes need to be accepted (or not) because the edits are getting difficult to read.

After you have a chance to look at the edits, please let me know if you want me to accept the changes and send you both a clean document.

This is a very exciting project!

Signa

Hi Konnie,

I started working on the Statement of Work for the Bears Ears Cultural Landscape Assessment. I also sent it to Signa Larralde who has been identified to help and maybe even lead this project. I believe you have met Signa before? Signa is fantastic and will help us navigate through this exciting project.

Please take a look at what I did in the attachment below. I'm hoping we can lower the costs from \$382,000 to around \$310,000 since any funds that we save can go directly to a site stabilization project or a data clean up project at the SHPO's office. But I would love to hear your opinion.
