Hi Cameron,

Thank you for your time on the phone just now. As I explained, we have not been granted permission to release the Report to the Secretary or the powerpoint for the webinars to individuals outside the bureau. We have requested that Secretary Zinke release the Report publicly, but since the Report is an internal report responding to an internal Secretarial Memo, we will not be able to release this material until such time as Secretary Zinke authorizes it.

Thanks,
Fariba

Dear Tribal Leader or Representative:

Please join the Bureau of Land Management (BLM) in a webinar presentation on Monday, September 25, 2017, to preview our draft Report to Secretary Zinke on improving the bureau's planning and NEPA processes (Report).

The BLM provides stewardship on approximately 245 million acres of public lands and 700 million acres of subsurface federal mineral estate. The Secretary of the Interior, Ryan Zinke, recently tasked the BLM with identifying and implementing solutions for improving the bureau's land use planning and National Environmental Policy Act (NEPA) processes. Secretary Zinke directed us to report back to him, by the end of September, on solutions that take less time, cost less money, are more responsive to local needs, and continue to meet our legal and resource stewardship responsibilities.

As part of this effort, the BLM extended invitations to tribal government partners to engage with us and share your views and interests related to potential solutions for streamlining the BLM's land use planning and NEPA processes. The BLM has considered the input received from Tribal government partners in drafting the Report.

Before we submit the Report to Secretary Zinke by the end of September, we would like to re-engage with our Tribal government partners, using a webinar format, in order to review with you the Tribal input that we received, and to share with you how the input was considered and incorporated in the draft Report.

Please note that this webinar will not be the only opportunity for our Tribal

government partners to hear about this Report. The BLM will be reaching out to you in the coming weeks regarding additional engagement opportunities. Please also note that you are welcome to participate in the webinar via telephone (1-415-527-5035 Access code: 902 065 139).
