---

We cannot easily split them up now. If they are all coded the same way, I'm not sure there is an issue.

Okay thanks. I know that's what you said on the call, just wanted to make sure.

The system is set up to prevent duplicate coding, so that should not be a problem. I am copying Stu and Marcia on my reply in case I am missing something.

Randy,

When I select the data set, it only indicates the number of units I have coded (20) and does not reflect all of the units coded by the group (which is well over 1,000 units). Is this right? I want to make sure I'm not doing work that has already been done. Thanks.

Congratulations to Katherine Harrigan, who has reviewed and coded 1,001 comments.

Overall, we have disposed of about 40% of the remaining comments. If those who have not yet worked on these, or have done only a handful, will spend time at it in the next few days we should be able to finish by Wednesday if not sooner.
