So everyone is aware of the background - which I didn't know until now - there is a meeting scheduled in Utah Saturday at which computers will be provided for people to enter comments on [regs.gov](#). so our politicals will check with EPA on the possibility of postponing the shutdown for a day or a week.

Hi Mark and Megan,

This is the email that I was referring to. I left a message with Randy asking if it was [regs.gov](#) or EPA?

The senior politicals are very concerned that in today's climate DOI will be accused of causing the shutdown to limit comments on Bears Ears. Do either of you know who - person preferably but office if necessary - manages the system at EPA, with any contact information?

Need first thing in the morning. Thanks
