There is a new project loaded and available with all 133,044 comments as of June 5. To report on the totals by monument, login, then navigate to:

<http://doi.discovertext.com/search/listing/0000000500?type=project>

You can run a search for each monument and get a total to date. For example, "Bears Ears" comments now total 61,186 as they kept coming in after the deadline.

For other monuments, you will need to account for misspellings. For example: Vermilion is spelled Vermillion by most of the commenters on this monument. You can thus do a search using a Boolean OR operator to get a total that reflects both spellings:

# Vermilion OR Vermillion

Mark is preparing a new project that excludes all of the Bear's Ears comments; it should be ready later today.
