MEMORANDUM FOR THE WHITE HOUSE STAFF SECRETARY AND CABINET SECRETARY  
May 16, 2017

FROM: Scott Hommel, Chief of Staff, U.S. Department of the Interior

SUBJECT: Interior Department Weekly Update for the Week of May 15, 2017

**DOI 30-Day Policy Look Ahead**

**Presidential Initiatives and Awareness**

*Energy*

1. **FINAL NOTICE OF SALE FOR COOK INLET OFFSHORE ENERGY LEASES IN ALASKA.** Later this month, the Department will announce its first sale in Alaska in years (since President Obama canceled the last two sales claiming lack of industry interest). This sale will be the last of the previous five year plan (2012-2017) and will be conducted online.  
**Timing:** May 18<sup>th</sup> (Notice of Sale), June 21<sup>st</sup> (Online Sale)  
**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals
2. **NEW FIVE YEAR OFFSHORE ENERGY PROGRAM.** In response to President Trump's Executive Order on Offshore Energy, Secretary Zinke will announce a request for information for a new five year offshore program that considers opening new areas of the Outer Continental Shelf for offshore exploration. Since the Administration took office, Bureau of Labor Statistics reporting shows that the number of workers in oil and gas extraction has steadily risen as Administration policies and rebounding of energy prices has driven employment higher.  
**Timing:** May 31, 2017  
**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals
3. **COAL PROGRAMS:** On May 15, the Department sent letters to 25 states and coal-producing tribes to solicit suggestions on improving the permitting process for coal. The Department is conducting an internal review of the coal programs managed and regulated by its bureaus to identify ways in which the leasing and permitting of our Nation's coal resources can be improved. The review encompasses both the leasing of Federal coal by the Bureau of Land Management (BLM) and the regulation of surface coal mining operations conducted by the Office of Surface Mining Reclamation and Enforcement (OSMRE), which impacts both Federal and non-Federal coal. A report containing recommendations for improvement to the Secretary is expected in June.  
**Timing:** June 2017 (report)  
**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals
4. **REPEAL OF CONSOLIDATED FEDERAL OIL & GAS AND FEDERAL & INDIAN COAL REFORM:** The Office of Natural Resources Revenue is working to repeal the Consolidated Federal Oil & Gas and Federal & Indian Coal Valuation Reform Rule, having closed the NPR comment period on May 4. This will reduce the regulatory uncertainty and burden of changes to oil, gas, and coal royalty valuation. The result will maintain the status quo

for those that receive royalty revenues- States, Tribes, individual Indian mineral interest owners, and the Federal government. The Department continues to assess candidates for the recently reconstituted Royalty Policy Committee.

**Timing:** June 2017

**Contact:** Jim Cason, Associate Deputy Secretary

5. **VENTING AND FLARING RULE:** The Senate last week did not advance the Congressional Review Act bill repealing the Interior Department's "Waste Prevention, Production Subject to Royalties and Resource Conservation" rule (aka Venting and Flaring rule). This was one of the regulations burdening energy development referenced in the President's March 2017 Executive Order on Energy Independence. The Department issued a statement from the Assistant Secretary for Land and Minerals that the Department will suspend, revise, or rescind the rule shortly after the vote.

**Timing:** June 2017 (anticipated action)

**Contact:** Vincent DeVito, Senior Counselor for Energy Policy.

6. **RECORD OF DECISION TO TRANSCANADA FOR KXL PIPELINE.** The Bureau of Land Management is awaiting action by the U.S. Army Corps of Engineers before issuing a Record of Decision allowing TransCanada right-of-way permission to construct the Keystone XL pipeline across federally-managed public land in Eastern Montana. Of the 285 miles of the KXL pipeline in Montana, the pipeline route crosses 1.5 miles of land managed by the U.S. Army Corps of Engineers near Fort Peck, and about 46 miles on scattered parcels of public land administered by the BLM's Glasgow, Malta and Miles City Field Offices. The Department of State conducted an environmental analysis of the Keystone XL Project and after extensive review, the BLM has determined that all practicable means have been considered to avoid, minimize, and, if required, compensate for unavoidable impacts of the approved project route.

**Timing:** June 2017 (awaiting Corps of Engineers)

**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals.

### *Antiquities Act*

1. **MONUMENT REVIEW:** Secretary Zinke visited Utah last week to meet with tribal leaders, Congressional delegation and state and local officials to gather input on the Bears Ears National Monument (BENM) and the Grand Staircase Escalante National Monument to comply with the President's Executive Order. On May 11, the Department announced the first-ever public comment period on regulations.gov to solicit public input on monuments. The comment period will run for 15 days for BENM and 60 days for the other 26 monuments. The Intergovernmental and Congressional Affairs offices sent letters to the Hill and to Governors soliciting feedback on official position on monuments within their state or district. Secretary Zinke is on track to send the White House recommendations on the Bears Ears Monument early next month.

**Timing:** June- August 2017

**Contact:** Downey Magallanes, Senior Advisor and Counselor

## *Infrastructure*

1. **NEBRASKA POWER LINE DRAFT ENVIRONMENTAL IMPACT STATEMENT.** The R-Project is a 225 mile proposed transmission line that runs through the Nebraska footfills. It will be constructed and operated by the Nebraska Public Power District. Fish and Wildlife Service has completed a Draft Environmental Impact Statement (DEIS) for the project. NPPD is applying for an incidental take permit for the American burying beetle and developing the associated habitat conservation plan.  
**Timing:** May 2017  
**Contact:** James Cason, Associate Deputy Secretary
2. **IDAHO POWER LINE RECORD OF DECISION.** The Boardman to Hemingway power line project is a 500 KV electric transmission line, which will run from Oregon to Idaho to provide capacity for exchanging energy between the Pacific Northwest and Intermountain West. The ROD granting the right of way is expected to be finalized this month.  
**Timing:** Late May 2017  
**Contact:** Kate MacGregor, Acting Assistant Secretary for Land and Minerals.
3. **CALIFORNIA WATER FIX RECORD OF DECISION.** The Bureau of Reclamation, U.S. Fish and Wildlife Service, and the Department of Commerce's National Marine Fisheries Service are working with the State of California to reach federal environmental compliance on the \$16 billion California WaterFix construction project to construct tunnels to divert water from the Sacramento River to provide reliable water supplies to California residents, businesses and farmers. The federal and state environmental reviews are expected to be successfully completed in the next month or so, at which point the Secretary of the Interior will be asked to sign off on the associated federal Record of Decision. The cost of providing water to refuges is paid for by all Central Valley Project (CVP) customers and the State believes that no federal cost-sharing or funding will be necessary for the project to proceed.  
**Timing:** June 2017  
**Contact:** Scott Cameron, Principal Deputy Assistant Secretary, Policy Management and Budget

## *Requiring Presidential Attention*

1. **HALLMARK CHANNEL FOURTH OF JULY SPECIAL.** The Hallmark Channel in conjunction with the National Park Foundation would like to produce a one-hour TV program that will air in primetime on July 4<sup>th</sup> to showcase federal lands across the nation - including parks – that has an independence and freedom theme. Through the National Park Foundation, the Hallmark Channel is hoping that the President and/or Vice President would consider a pre-taped interview for the show – their participation would ensure the Hallmark Channel proceeds with the program. Timing is sensitive given logistics and Cabinet Communications has been alerted of this request.  
**Timing:** May/June 2017  
**Contact:** Laura Rigas, Communications Director

## **Reports to Congress and Congressional Testimony**

**Contact:** Micah Chambers, Deputy Director, Congressional Affairs
4. **HOUSE NATURAL RESOURCES HEARING ON LAND BUYBACK PROGRAM.** The Department will be sending Jim Cason (Acting Dep. Sec.) to testify on the Cobell Land Consolidation Program (Land Buyback). The hearing is on the status and future of the program. It will be controversial with Indian Country as the majority of the set aside funds have been mismanaged with little progress to show for the roughly \$4b that have been spent. Mr. Cason is testifying because of his history with the program and because he will deliver a more direct message than any career employee within in the Department.  
**Timing:** May 23, 2017  
**Contact:** Micah Chambers, Deputy Director, Congressional Affairs
5. **SECRETARY ZINKE TO TESTIFY ON THE HILL FOR BUDGET HEARINGS.** The Secretary is tentatively scheduled to testify on the FY18 Budget before the House and Senate Interior Appropriations Subcommittees on June 8 and 21 respectively. The report also outlines research that could

improve the ability to control the spread of Asian carp and quantitative measures proposed for use in documenting progress in controlling the spread of Asian carp. The report is potentially controversial due to the slight range expansion of silver carp.

Loxahatchee National Wildlife Refuge. SFWMD has shared a draft motion to vacate, and DOJ has responded that the matter is under ongoing review, due to the transition of administrations. DOI's technical experts, working with the Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers, have prepared an analysis of facts relevant to SFWMD's arguments, and we are currently reviewing a draft.
