Not sure this will be useful - the archaeological attachment is spreadsheets and lists. BLM provided State-generated maps on archaeological sites that likely reflect is somewhat useful form the hard data in the attachment, but the attachment is useless for your purposes. I don't have anything on my computer that will even open the files in the "State Private Data" attachment.

Will get back as soon as I have a name from BLM.

Hey Downey,

Here is the state data pursuant to the Secretary's request.

Let me know if you have any questions about this data or if there is something else we can provide you as you make this important decision.

Cody
