I think his approach makes sense.

Sorry, my IT "skills" failed me again. Here is a [correct link](#) to the Mt. Olympus documents on google drive.

Hi, Dan:

Per our discussions, attached is a chart describing the BENM objects, whether they are within the proposed modified boundaries, and management/protections prior to designation. Also [linked here](#) is a google drive folder that has background documents regarding the modification of Mt. Olympus National Monument in 1915. If you, David, and Downey approve, I propose to send these to OLC.

Note that although I'd plan to send all the documents in the Olympus folder, the ones of most interest to the question of whether identified objects were excluded are (1) the 1992 Olympic National Park Administrative history, (2) the 12/10/14 Recommendations, (3) the 1/20/15 Graves Report, and (4) the 1/23/15 Letter from Ag to DOI.

We are working on a similar chart for GSENM, as well as pulling additional historic files from archives on other monument modifications that we think may prove useful to OLC's questions.

Assuming this look ok to you and Jack, will you plan to run this past David/Downey? I'd then be happy to transmit over to Rosemary once we have approval.

-Aaron
