Here are my comments - I added "RB Comments" to the file name to distinguish it from your document. I put my changes and comments in red so they hopefully stand out.

Did you base this on my late Friday draft or earlier versions? Some of the new material from that draft is not here.

The BOEM material attached is source for much of the oil and gas, renewable and marine minerals discussion in text, along with briefing I had; they will put date on it when they transmit, which I presume happened Thursday or Friday. Kate McGregor and Downey have both cleared it.

Attached is the draft memo. I have drawn from some other sources beyond what you sent. I have not worked on formatting, yet.

I have questions about point that are highlighted.

Lets talk tomorrow am - is there a good time for me to call?
