Hi Ryan. I hope you are well. W0410 has the NOA for the Southern term States PIMP FEIS in DTS. There are remaining issues that were to be worked out by Eastern States W0210 and W0410 but the additional issues have not occurred yet. Should we set some thing up to discuss or is that something 210 will coordinate?

W0 - comment were addressed and Preliminary was done. So, all briefing took place. There were some issues regarding over-appealing designations between medication and ACSG. Additionally making sure that the purpose and need statement captures the appropriate content and all the elements that are required. The work is ongoing.

I respective of where the Federal Register package is SO and we will ensure that the issues raised at the AD b hearings are addressed. We will need help and support from RTO as well. We will keep you in the loop regarding any further developments.

I will keep you updated!

Hi Nikki,

I think this package looks good. In the initial BLM section of the Order (on page 2), I would like to request the following change:

Replace this:

"BLM's 32 million-acre National Conservation Lands System."

With this:

"BLM's 35 million-acre National Conservation Lands."

Thank you,
-Ilana

Thanks for the opportunity to review the BLM's response/strategy to the Secretarial Order signed by Secretary Jewell in October.

I see no red flags in the response/strategy. Surname is recommended from my perspective.

There may be future opportunities for us to also formulate ways to work with Tribes leading up to the 50th anniversaries of the Wild and scenic Rivers Act and National Trails System Act (2018) based on this SO; however, we are not prepared at this time to offer such an initiative in the response, given the imminent deadline. We could consider this idea as we develop our 50th strategies, as appropriate.
