So,
Here is an update of what is needed for our CSNM data call. The general rule is to use what we have available and not to create something that doesn't exist. I have shared with Kfalls and Don Holmstrom said he and Terry Austin are POCs to coordinate data for their side. My question to you, can we collect # of sites at the same time we do our side or will I need to have Terry get with their Archy. We have examples attached from Escalante and Bears Ears if that is helpful.

I'm on the call and noted that several individual Nat'l Monuments have called in. So if you'd like to share a speaker phone and call in, I think that would be fine.

It's just starting w/ Sally Butts...
