DOI DAILY UPDATE FOR CABINET AFFAIRS – 3/22/17

Doug Domenech, Senior Advisor

Status of the Secretary

The Secretary will be in Washington this week.

Media Announcements Today

“Successful Gulf of Mexico Lease Sale Yields \$275 Million in High Bids on 913,542 Acres in Central Planning Area.” Sale reflects strong market conditions, industry interest in Federal offshore oil and gas resources under new Administration. NEW ORLEANS - U.S. Secretary of the Interior Ryan Zinke today announced that Lease Sale 247 for oil and gas parcels in the Gulf of Mexico garnered \$274,797,434 in high bids for 163 tracts covering 913,542 acres in the Central Planning Area of the Outer Continental Shelf offshore Louisiana, Mississippi, and Alabama. A total of 28 offshore energy companies submitted 189 bids. The sum of all bids received totaled \$315,303,884.

Executive Orders

EO on Energy is on Monday. (Of note, the Secretary is on travel Thursday and Friday next week.)

Congressional Action Under the CRA

The BLM Planning 2.0 Rule CRA is pending at the White House. We understand the CRA needs to be signed by Tuesday. We assume that the Secretary would participate in any signing ceremony. Asking when this will happen. LATE NEWS: Looks like its Monday.

CRA: Passed the House and Senate.

- FWS H.J.Res.69 - "Non-Subsistence Take of Wildlife, and Public Participation and Closure Procedures, on National Wildlife Refuges in Alaska". Understand this is headed to the Senate floor perhaps as early as today.

Congress Approves Bill To Lift Limits On Hunting In Alaska Refuges.

The AP (3/21, Daly) reports that Congress has “approved a bill that would allow aerial hunting of grizzly bears and killing of bears and wolves near dens on federal lands in Alaska.” In a 52-47 vote, the Senate “gave final legislative approval Tuesday to a measure that repeals an Obama-era rule on hunting on Alaska’s 16 national wildlife refuges.” The

House approved the measure last month, and it now goes to the president.

CRA pending in the Senate:

- BLM Venting and Flaring Methane Rule

Secretary Meetings and Schedule

3/30-4/1: Participate in the 100th Commemoration of the purchase of the Virgin Islands from Denmark. The Danish Prime Minister will participate.

Waiting on Resolution of these items: (working with IGA)

The Secretary is requesting that he attend this important event at the request of the President.

The Secretary is requesting military aircraft assistance with this trip.

The Secretary is requesting the White House provide a Proclamation and/or letter he can read from the President acknowledging the commemoration. Interior has provided a draft.

Speaking Invitations

Accepted

3/23 Address to the American Petroleum Institute's Board of Directors Meeting (DC, Trump Hotel)

3/28 Public Lands Council Legislative Conference Luncheon Keynote 12:00-1:00 Liaison Hotel in DC

3/30-31 U.S. Virgin Islands Transfer Centennial Commission (St. Croix, St. Thomas)

4/3 North America's Building Trades Unions National Legislative Conference Remarks at the Washington Hilton & Towers Hotel, timing TBD.

4/5-7 National Ocean Industries Assoc (NOIA) 2017 Annual Meeting (DC, Ritz Carlton)

4/27 NRA Leadership Forum, George World Congress Center in Atlanta, GA.

Regretted

3/20 Address to the National Water Resources Association's Federal Water Issues Conference
3/23 Address the Student Conservation Association's 60th Anniversary Commemoration (DC)
4/3 Interstate Mining Compact Commission (Williamsburg, VA)

Outstanding Invitations in Process

4/4 The Memorial Foundation Martin Luther King Jr. Wreath Laying (DC, MLK Memorial)
4/5 National Alliance of Forest Owners Board of Directors (DC)
4/5 Association of Equipment Distributors & Equipment Dealers Association (DC, Liaison Hotel)
4/5 National Parks Conservation Association Board of Trustees (DC)
4/13 Columbia University's Center on Global Energy Policy's Global Energy Summit (NYC)
4/13-14 Arctic Encounter Symposium (Seattle, WA)
4/14 Montana State Meeting of the Society of American Foresters (Missoula, MT)
4/19 American Forest Resource Council 2017 Annual Meeting (Stevenson, WA)
4/24 National Mining Association Board of Directors Meeting (Naples, FL)

Sportsmen's Event with VP: We are working on a possible announcement of \$1.1 billion in funding for hunting and fishing activities.

Emergency Management

The Office of Environmental Policy and Compliance (O EPC) continues to lead the recovery efforts for Natural and Cultural Resources (NCR) at FEMA's Joint Field Offices (JFO s) in Durham, N C and Baton Rouge, LA . In NC, Field Coordinators are nearing completion of the NCR portion of FEMA's Recovery Support Strategy (RSS), which provides a blueprint for Federal assistance to State's recovering from impacts associated with Hurricane Matthew. In LA, the Field Coordinator continues coordination with the interagency team and the State to finalize implementation of the NCR portion of FEMA's RSS with assistance from the National Park Service Rivers and Trails Conservation Assistance Program, the National Center for Preservation Technology and Training, the DOI Office of Policy Analysis, and the FWS Coastal Protection Program.

In Florida, the Parliament Fire, which began March 18 on Big Cypress National Preserve in

Florida (NPS), has burned 6,027 (+1,752) acres and is 0 (no change)-percent contained. The fire has transitioned up to a Type-3 Incident Management Team (IMT) with 37 (+13) personnel assigned, including 7 (-1) DOI personnel. There are 14 (no change) residential structures threatened. In addition to residential structures, the fire continues to threaten endangered species habitat and other private holdings. Major concerns for this reporting period were wind-driven runs. The containment date for this fire remains March 26.

In Oklahoma, the Coker Fire (BIA) began on March 20 in Hughes, OK, has burned 1,157 acres, and is 30-percent contained. The fire is being managed by a Type-3 IMT with 15 personnel assigned, all of which are DOI personnel. There are 3 residential structures threatened. High winds have been the most significant containment challenge during the operational period. The fire is projected for containment on March 24.

Also, in Wetumka, Oklahoma, the Quassarte Fire (BIA), which began on March 16 and has burned 2,300 acres, is 75-percent contained. The fire is being managed by a Type-3 IMT with 19 personnel assigned, including 15 DOI personnel. There are 22 residential structures threatened, and full containment is expected on March 25.

The U.S. Bureau of Reclamation (USBR) reports that the Dickinson Dam, in North Dakota, remains at Response Level 1 with 199 cubic feet per second (cfs) flowing over the Bascule gate and reservoir inflows of 167 cfs. There remains no threat to downstream communities at this time. USBR and the Interior Operations Center will continue to monitor the situation and provide updates as warranted.

Media of Interest

Proposed Budget Cuts Receive Bipartisan Pushback.

Morning Consult (3/21, Fitzpatrick) reports that “lawmakers in both parties are complaining about the energy and environmental agenda laid out in the Trump administration’s budget blueprint last week.” Democrats blasted “a wide array of proposed cuts, while Senate Energy and Natural Resources Committee Chairman Lisa Murkowski (R-Alaska) said Republicans would detail their own priorities in due time.”

Senate Committee Told Of Erosion Of Public Lands Infrastructure.

National Parks Traveler (3/21, Repanshek) reports that “America’s national parklands and forests for too long have been allowed to fall into disrepair,” and Congress “must take dedicated steps” to tackle “maintenance backlogs,” the Senate Energy and Natural Resources Committee was told Tuesday. Jill Simmons, executive director of the Washington Trails Association, said, “At a time when visitation to our public lands is at an all-time high, this cycle of chronic underfunding cannot continue. Land management agencies cannot see their

budgets further reduced.

Trump Under Pressure To Undo Obama National Monument Designations.

McClatchy (3/21) reports that “powerful Republican congressmen and governors are pressing President Donald Trump to take an unprecedented step: Reverse his predecessor’s creation of several national monuments under” the Antiquities Act. According to the article, “White House officials are reviewing the requests and haven’t yet signaled whether Trump will challenge Obama’s use of the Antiquities Act.” The article notes that “no president has ever attempted such a reversal, and legal experts doubt it could succeed.”

Report: Interior’s Science Centers May Waste Millions On Duplicative Research.

The Daily Caller (3/21, Bastasch) reports that “science centers that were supposed to be the ‘cornerstone’ of the Department of the Interior’s ‘climate change response strategy’ don’t have the proper controls in place to prevent wasteful spending, according to an internal audit.” The inspector general’s office “found Interior Department’s climate science centers (CSC) and landscape conservation cooperatives (LCC) could be wasting millions of taxpayer dollars on duplicative research grants.” Investigators said “that these science centers did not regularly coordinate research within the Interior Department and did not share their climate data with Climate. Data.Gov as required by federal law.”

Rusty Patched Bumblebee Listed As Endangered.

The AP (3/21, Flesher) reports that the rusty patched bumblebee on Tuesday “became the first officially endangered bee species in the continental U.S., overcoming objections from some business interests and a last-minute delay ordered by the Trump administration.” Its listing means the U.S. Fish and Wildlife Service will formulate a recovery plan for returning the species to “a healthy and secure condition,” the U.S. Department of Interior said. It added, “We will work with stakeholders to ensure collaborative conservation among landowners, farmers, industry, and developers in the areas where the species is native.”

White House Communications Report (sent to WH Comms yesterday, Tuesday.)

Inquiries

CNBC, The New Yorker, POLITICO Europe, Argus – REQUEST – Comment on claims made by Senators Cardin and Luger that the U.S. is withdrawing from the international Extractive Industries Transparency Initiative (EITI). – RESPONSE -;The Department remains committed to the principles and goals of EITI including transparency and good governance of the extractive sectors and are institutionalizing and mainstreaming EITI goals into how the Department manages its revenues. No decision has been made on applying for validation

under the EITI standard and the U.S. is not even scheduled to begin the validation process until April of 2018 (per the EITI International Board schedule published regularly). The United States has led the global initiative in providing revenue-related data and information from the extraction of oil, natural gas, coal and other minerals on federal land in an interactive, open-source data portal and regularly engaging with other implementing countries to share our best practices.

Associated Press, E&E News, Reuters, Bloomberg – REQUEST – Requesting comment on the Trump Administration “allowing” the rusty patched bumble bee to be listed on the endangered species list after the 60 day regulatory review. – RESPONSE – FWS previously delayed the effective date of the final listing determination for the rusty patched bumble bee under the Endangered Species Act from February 10, 2017 to today (March 21, 2017) to allow for standard review. Fish and Wildlife Service scientists have noted that the brief delay is not expected to have an impact on the conservation of the species since FWS is still developing a recovery plan to guide efforts to bring this species back to what they believe is a healthy and secure condition. We will work with stakeholders to ensure collaborative conservation among landowners, farmers, industry, and developers in the areas where the species is native.”
