Good morning all - attached is the Interior Accomplishments document that the White House asked us to put together.
This incorporates many of your edits.

Please review and let us know if we are missing anything or need to tweak any text.
We are adding some points on recovery efforts in the Insular and Tribal areas.

Russell Newell
Deputy Director of Communications
U.S. Department of the Interior
(202) 208 6232
@Interior

Draft Deliberative Document: For Internal Use Only**U.S. Department of the Interior: Accomplishments under the Trump Administration****Regulatory Reform**

- Signed Secretarial Order 3349, putting the Department on the path to suspend, revise, or rescind dozens of regulatory and policy actions from the previous administration.
 - Initiated the rescission of the Bureau of Land Management (BLM) Hydraulic Fracturing Rule (EO 13783; RIN 1004-AE52).
 - Initiated revision of the BLM Venting and Flaring Rule (EO 13783; RIN 1004-AE54).
 - Re-examined compensatory mitigation policies that have reduced predictability, created conflicts, and unnecessarily increased permitting/authorization timelines.
 - Reviewed, repealed, or rewrote the following rules: the Bureau of Safety and Environmental Enforcement (BSEE) Well Control and BOP Rules, the Office of Natural Resource Revenue (ONRR) Valuation Rule, the BLM Management Planning 2.0 Rule, and the Office of Surface Mining Reclamation & Enforcement (OSMRE) Stream Protection Rule.
- Took actions to reduce the length of the permitting process under the National Environmental Policy Act (NEPA).
 - Identified a number of rules and regulations to revise and rescind, including the Master Leasing Plans, the NEPA Compliance for Oil and Gas Lease Reinstatement Petitions, and the Sage-Grouse Resource Management Plans.
 - Issued a memo from the Deputy Secretary setting a permitting deadline of one year and limiting Environmental Impact Statements (EIS) to 150 pages (or 300 pages for unusually complex projects).
- Reduced the semi-annual regulatory agenda more than 50-percent.
 - Initiated 21 deregulatory actions, with 11 of them complete. These efforts will save \$3.8 billion over time, based on a \$261 million annual number.
- At the project level, reduced the regulatory burden of environmental review processes for proposed infrastructure, energy, and development projects through standardizing consultation and coordination practices such as the FAST-41 permitting dashboard and programmatic consultations under the Endangered Species Act (ESA).

Conservation**Hunting and Fishing/Public Access to Public Lands**

- Declared October as National Hunting and Fishing Month.
- Ended the ban on lead ammo and tackle, making hunting and fishing affordable again for everyday Americans.

Draft Deliberative Document: For Internal Use Only

- Opened up public access to the Sabinoso Wilderness through the acceptance of a donation of 3,595 acres of land.
- Signed Secretarial Order 3356 to expand public access to public land, promote hunting and fishing, and improve wildlife management.
 - Directed Interior bureaus to produce plans on expanding access for hunting and fishing.
 - Directed the expansion of educational outreach programs for underrepresented communities such as veterans, minorities, and youth.
- Held a Sportsmen Access Summit with over 60 conservation and industry organizations to kick-start broad efforts for enhancing hunting, fishing, and outdoor recreation opportunities.
- Held a Departmental event with veterans groups to discuss expanding access for veterans on public lands.
- Proposed opening or expanding access for hunting and fishing at 10 national wildlife refuges.
- Streamlined the permitting for importation of trophies of big game from African range countries.
- Promoted President Trump's "Made in America" Week by highlighting the American outdoor recreation industry, showcasing "Made in America" products like boats and RVs. The day was marked by the Secretary leading a roundtable discussion on public-private partnerships for recreating on federal land and waterways.

Land Management/Wildlife

- Continued to advocate against the sale or transfer of any public lands.
- Signed a Secretarial Order on sage-grouse conservation, strengthening collaboration between the federal government and the states.
- Published a Notice of Intent to Amend the Greater Sage-Grouse Resource Management Plans to address state-specific issues and restore trust with state and local partners.
- Issued guidance on wildland fire management, pivoting sharply from the previous administration's reactive approach to an aggressive and proactive strategy focused on clearing the dead and dying timber from forests, so they do not accumulate and fuel catastrophic fires.
- Sent recommendations on modifications to recently designated National Monuments to the White House, in compliance with Executive Order 13792.
- Instilled a renewed focus on recovery of threatened or endangered species under the Endangered Species Act
 - To date under the Trump Administration, five species have been delisted and twelve delisting proposals are outstanding or are expected to be published before the end of the calendar year.
 - Were able to remove the Yellowstone population of the grizzly bear from federal protection as a result.

Draft Deliberative Document: For Internal Use Only**America-First Infrastructure**

- Initiated a new approach to managing rail corridors in a way that protects property rights and promotes economic growth/infrastructure development.
- Cleared the way for permitting, construction, and operation of the KXL and Dakota Access pipeline projects on public land.
- Resolved conflicts impeding the construction of a Virginia utility power line project (Surry-Skiffes Creek -Wheaton 500 kV utility line) comprising a \$200 million infrastructure investment.
- Secretary Zinke visited dozens of National Parks to prioritize infrastructure and address the backlog of deferred maintenance projects.
- Initiated a public process for raising entrance fees at popular National Parks to address concerns of infrastructural deterioration and visitor enhancement.
- Working with other federal partners, ensured the Arlington Memorial Bridge Rehabilitation project will be completed **under budget and ahead of schedule:** the project will be completed 1.5 years sooner due to design build procedures and will come under budget by \$35 million (November 14, 2017 is the award date).
- U.S. Fish and Wildlife Service staff worked with other federal partners for the future repair of the historic “Swinging Bridge” that crosses the Green River on Browns Park National Wildlife Refuge, restoring access for local citizens.
- Rolled out Version 1.2 of the ShakeAlert earthquake early warning system in April 2017.
- Increased mussel control activities through additional inspection and decontamination stations throughout the West, including the Columbia River Basin, Colorado, and Montana.
- Successfully concluded a new Colorado River Agreement between the United States and Mexico, Minute 323, for the Extension of Cooperative Measures and Adoption of a Binational Water Scarcity Contingency Plan in the Colorado River Basin.
- Opened the Charles M. Russell National Wildlife Refuge during the Lodgepole Complex fires in Montana for emergency grazing relief, making allotments available for ranchers who lost grazing land in the fires.

American Energy Dominance**Overall**

- Published an extensive report assessing the Department of the Interior’s Actions that Potentially Burden Domestic Energy (EO 13783).
- Established, through Secretarial Order 3351, a specific office to achieve energy dominance: Counselor to the Secretary for Energy Policy.
- Engaged the Royalty Policy Committee to ensure the public continues to receive the full value of energy produced on federal lands.
- Established, through Secretarial Order 3358, an Executive Committee for Expedited Permitting to focus on procedural and policy protocols to enhance the responsible development of energy resources and to identify energy infrastructure corridors.

Draft Deliberative Document: For Internal Use Only

- Worked with the White House and State Department to pull the United States out of the Extractive Industries Transparency Initiative (EITI) that would have violated U.S. tax law, saving costs and reducing complexity.

Oil and Gas

- Helped put America on track to be a net exporter of natural gas for the first time in 60 years.
- Initiated a new Five-Year Program for oil and gas leasing on the Outer Continental Shelf (OCS), after the previous administration put 94% of the OCS off-limits from leasing.
- Prioritized Alaskan energy development.
 - Signed Secretarial Order 3352 to jump-start Alaskan energy production in the National Petroleum Reserve Alaska (NPR-A); noticed lease sale for December making all open acreage available for leasing in NPR-A.
 - Supported Senate efforts to open up the 1002 area of the North Slope for energy development.
 - Awarded OCS leases in Alaska's Cook Inlet for the first time in 20 years.
- Noticed lease sale for March 2018 making 76 million acres in the Gulf of Mexico available for oil and gas exploration and development.
- Leased 913,542 offshore acres in the Central Gulf oil and gas generating \$275 million on March 22, 2017.
- Conducted 20 onshore oil and gas lease sales with 8 more planned for December, netting over \$317 million in revenue, including a \$130 million lease sale in the State of New Mexico – BLM's second highest lease sale on record.
- Conducted geological, geophysical, and geochemical research through the U.S. Geological Survey's Energy Resources Program – assessments of undiscovered, technically recoverable oil and gas resources provided useful data.
 - The Program also conducted work on the Alaska North Slope, underpinning major oil and gas discovery efforts.

Coal

- Ended the previous administration's coal moratorium, which banned coal leasing on federal lands.
 - Since lifting the moratorium, the Bureau of Land Management has received three new applications for an additional 2,230 acres and 15.3 million tons of coal all together.
 - The Bureau also issued a lease for over 6,175 acres of land in the West, containing approximately 56.6 million tons of recoverable coal.
- Rescinded several Obama-era OSMRE memoranda and guidance that burdened domestic coal development.
- Oversaw a 20% jump in mining in the first quarter of 2017.
- Supported the first-ever export of U.S. coal to the Ukraine.
- Oversaw U.S. crude oil exports hitting an all-time high.

Draft Deliberative Document: For Internal Use Only

- Leased Bureau of Land Management coal in Utah netting \$23 million and supporting 1,000 local jobs on March 15, 2017.

Tribal and Indian Affairs

- Supported the first-ever Presidential Emergency Declaration for a tribe, when President Trump authorized sending Bureau of Indian Affairs law enforcement officers to the Seminole Tribe of Florida in the wake of Hurricane Irma.
- Recommended revising the management plan for Bears Ears National Monument to support tribal co-management.
- Drew the important distinction between banned African elephant ivory and Alaska Native walrus ivory, which Alaska Natives sell as handicraft.
- Restored the right of Alaska Natives to sell handicrafts that incorporate migratory bird parts.
- Supported President Trump's nomination of Tara Sweeney for Assistant Secretary of Indian Affairs – Sweeney is the first-ever female Alaska Native nominated for any Senate confirmed position.
