#### **VI. Weekly Report:**

##### **Week Ahead Schedule of Meetings, Hearings, and Travel**

##### **Week Ahead Announcements and Actions**

**On January 3**, BLM-CA Eagle Lake Field Office staff will meet with representatives from Lassen County to discuss potential relinquishment of a public land right of way associated with a former communication site that was once a component in a transcontinental communication cable network.

**On January 4**, the BLM-CA Eagle Lake Field Office staff will meet with the Nevada Department of Wildlife and the Natural Resources Conservation Service staff to discuss riparian area improvement design plans/projects for public lands that provide habitat for sage grouse and other species.

**On January 5-6**, the BLM-WY Rock Springs Wild Horse Holding Facility will reopen with a wild horse adoption event. The adoption will include approximately 60 female horses which were recently gathered in the Adobe Town, Salt Wells Creek and Great Divide Basin herd management areas.

**On January 6 - 8**, BLM will host a meeting at its Colorado River District/Lake Havasu Field Office in Lake Havasu, AZ to develop an interagency strategy to contain the spread of quagga mussels from the Lower Colorado River. In its June report to the Western Governors Association Development, the Department identified this strategy as one of its top priorities.

**In December and January**, the GAO is conducting phone interviews with the BLM-CA Bakersfield Field Office oil and gas staff regarding an audit it has been conducting on the office's oil and gas well inspection and enforcement procedures. This audit is a continuation of the 2015 audit, and includes reviews of records analyses and verification, as well as the following types of inspections: production; drilling; abandonment; work-over; environmental; and idle/orphan wells. One of the teleconferences will take place January 3.

Calpine has requested the BLM-CA Ukiah Field Office renew the site licenses for the Sonoma Power Plant located at the Geysers geothermal area in Sonoma County. The 30-year licenses which are also

required for operations have expired. BLM-CA is reviewing what level of NEPA would be required for license renewal.

**In early January**, BLM-CA is preparing to send a comment letter to the City of Santa Clarita in response to a planning commission proposal to annex land within Los Angeles County, including the Soledad Canyon, CEMEX property. The annexation would affect BLM-managed subsurface mineral estate by changing planning jurisdiction from the county to the city and designating the land for open space. The comment letter to the city will address the significant resource impacts of the proposed annexation. This is the second attempt by the city to annex this land and other lands in the Soledad Canyon. In 2006, the BLM responded negatively to similar proposals by the city. Congressman Steve Knight (CA-25-R) has introduced legislation to withdraw the Soledad Canyon from mineral entry. It is unknown when the city council may review the planning commission's proposal.

**TBD**, BLM-CA Bakersfield Field Office will release for 30-day public comment an environmental assessment for one oil well within the Carrizo Plain National Monument. The well is proposed to be located on a decades old lease and drilled from an existing well pad; no new ground disturbance is expected. The BLM-CA anticipates some controversy and comments back from monument advocates and opposition from some environmental nonprofits. Outreach to Congressman Salud Carbajal's Office (CA-24-D) has taken place and they have requested a copy of the environmental assessment. A communication plan is being drafted and reviewed.

### **30 - 60 Day Look-Ahead**

**In early January 2018**, Washington Office BLM will be issuing an Instruction Memorandum (IM) titled "Interim Direction on Mitigation. This IM will implement E.O. 13783 and S.O. 3349 as they relate to mitigation. The IM will provide updated guidance on mitigation and will rescind the BLM's Mitigation Manual Section and Handbook issued on December 22, 2016.

**In early January**, the BLM-UT Moab Field Office intends to issue a final decision approving upgrades to two primary access roads in the Canyon Rims Recreation Area (approximately 37.7 miles of designated routes for which BLM holds the rights-of-ways). The project is opposed by the Southern Utah Wilderness Alliance. (A very small portion was within the 2016 boundary of Bears Ears National Monument. The project is outside of the modified boundary of the Indian Creek Unit of the Bears Ears National Monument.)

**In early 2018**, BLM-UT plans to publish a *Notice of Intended Disposition* in four newspapers in the Four Corners region for two weeks in accordance with the Native American Graves Protection and Repatriation Act. The notices will communicate the BLM's intention to repatriate to the Hopi Tribe human remains and 4,121 associated funerary objects that were illegally excavated and/or disturbed in 2008 from Site 42SA9266 on BLM-administered lands in San Juan County, Utah. The site is located outside of any existing or previously-designated National Monument boundaries.

**On January 8**, BLM-CO will attend the Western States Land Commissioners Association (WSLCA) Winter Meeting in Denver. The WSLCA is an organization representing 23 state land management agencies that together manage more than 440 million acres of surface and subsurface state lands throughout the central and western U.S. The BLM has an MOU with the WSLCA to advance the long-term goals of both the BLM and member states by resolving state-Federal land exchanges and other appropriate realty actions.

**On January 9**, BLM-CA Central Coast Field Manager Ben Blom and Planning and Environmental Coordinator Sky Murphy will meet with Palmira Hernandez, regulatory analyst for the California Resources Corporation. The group will discuss the company's foreseeable oil and gas development plans in the Kettleman Hills area of Fresno County.

**On January 9**, the BLM-NV Southern Nevada District will begin to host public meetings for the development of the Revised Draft of the Southern Nevada District Resource Management Plan/EIS. Meetings will also be held on January 10, 11, 16, 17 and 18.

**On January 10, 17 and 18**, the BLM-MT/DKs Missoula Field Office will hold a series of public open houses as part of sharing preliminary alternatives for its Resource Management Plan revision. The BLM will send out a newsletter and issue a press release on January 5, 2018, to announce the scoping period and public open house schedule. The open houses will be on January 10 in Greenough, Montana; January 17 in Philipsburg, Montana; and January 18 in Missoula, Montana.

**On January 12**, BLM-NV Southern Nevada District Manager Tim Smith will represent Nevada State Director John Ruhs and present an update on BLM operations for the Nevada State Legislative Committee on Public Lands in Las Vegas. He will also include a brief summary from a Southern Nevada District perspective.

**On January 17**, the U.S. Air Force will begin a series of public hearings for the Withdrawal Extension and Proposed Withdrawal Expansion of the Nevada Test and Training Range. Additional meetings will be held on January 18, 23, 24 and 25. The BLM is not the lead agency for this project but will be attending the meetings as a cooperator.

**In Mid-January**, BLM-AK Eastern Interior Field Manager Adam Carr will meet with the tribal councils in Fort Yukon and Chalkyitsik to conduct government-to-government consultation. The councils have requested discussion of BLM's implementation of the Draanjik Resource Management Plan and associated transportation management plan, opportunities for tribal participation in implementation (possible job creation, data collection, etc.), and fish and wildlife issues. Meetings will include council members, support staff, and first and second chiefs and are open to all enrolled tribal members and others the tribe invites to attend. The news media are not expected to attend. Meetings dates and locations will be forthcoming.

**In mid-January**, the BLM-UT Monticello Field Office intends to initiate scoping on a proposal from San Juan County to add a very short designated motorized route which accesses an archaeological ruin known as "Spirit Cave." The ruins are accessible by foot and can easily be seen from the slickrock shelf above. The site is southwest of Blanding and popular with local residents, but not well known to the general public. The county's request is to designate this motorized access and add it to the travel plan to aid those that may have trouble hiking to it. An environmental assessment will be prepared, including appropriate consultation regarding cultural resources. While there will likely be strong local support for the project, it may be controversial because the ruins are not well known to the general public. (The site lies between the easternmost boundary of the Shash Jaa Unit of the Bears Ears National Monument.)

**On January 18**, BLM-CA Bakersfield staff will meet with the Los Padres National Forest and Bitter Creek National Wildlife Refuge to discuss the Plains All American Pipeline replacement and right-of-way renewal, including which agency will be the lead for conducting the National Environmental Policy Act

analysis and how work will be coordinated. The pipeline replacement is necessitated by a 2015 oil spill called the Refugio oil spill that occurred May 19, 2015, depositing 142,800 gallons or 3,400 barrels of crude oil onto Refugio State Beach, Santa Barbara, when an 11-mile underground Plains pipeline ruptured. The pipeline has since been out of service. The pipeline crosses multiple jurisdictions (federal, state and county) and will include removal and replacement of the existing pipeline within the same footprint. Santa Barbara County will be the California Environmental Quality Act lead for this project. BLM anticipates high public interest and media attention on this project.

**During the week of January 22**, BLM-CA Redding, Eagle Lake, and Applegate field office managers and staff will hold a regularly scheduled consultation meeting with Susanville Indian Rancheria tribal leaders to discuss BLM projects and proposed actions on northeast California public lands. The Rancheria includes members of the Paiute, Maidu, Pit River and Washoe tribes.

**On January 22**, the public comment period closes on the plan to gather and remove all excess wild horses in the Seaman and White River Herd Areas, in Lincoln and Nye counties, Nev. The proposed gather plan would allow for an initial gather with follow-up gathers for up to 10 years from the date of the initial gather. The herd areas are not designated for wild horses due to insufficient forage and water resources available to maintain healthy wild horses and rangelands over the long-term. As of March 2017, the estimated wild horse population was 365, including foals.

**On January 22**, the BLM MT/DKs expects to transfer 2,126.11 acres of land in Chouteau, Hill, and Custer counties to the State of Montana to satisfy \$1.8 million of Montana's \$4.1 million entitlement under in lieu selection provisions of the Enabling Act of 1889. Management of these lands by the State will generate revenue for the school trust which will benefit the children of Montana. Additional lands selected by the State in the Miles City Field Office area will be reviewed in 2018 so that the remaining \$2.3 million entitlement can be satisfied in full.

**On January 24**, the BLM-NV Southern Nevada District Office proposes to sell 40 parcels totaling 754.88 acres of public land in Clark County. The competitive sale would be by sealed and oral bidding in accordance with the Southern Nevada Public Land Management Act (SNPLMA).

**On January 26**, public scoping will end for the BLM-CA Bakersfield Field Office draft vegetation and forest health plan for the Bureau's only giant sequoia grove on Case Mountain, in Tulare County. The BLM manages approximately 444 acres on Case Mountain, which supports the Giant Sequoia Complex and the Case Mountain Extensive Recreation Management Area.

**From January 28 through February 2**, the Society for Range Management will hold its 71st annual meeting in Sparks, NV. On January 30, BLM-NV State Director John Ruhs will provide a presentation on wild horses and burros symposium, "Moving Beyond Ecological Effects of Wild Horses." On January 31, there will be a tour of the Northern Nevada Correctional Center's wild horse inmate training program.

**From January 28 through 30**, the Wild Sheep Foundation will hold its annual convention in Reno. BLM Nevada Biologist Sandra Brewer will attend on behalf of the BLM NV State office. She will not be presenting.

**On January 31**, BLM-CA staff will participate in an oil and gas operator seminar that focuses on surface and environmental requirements associated with new oil and gas projects, including APDs and Sundry Notices. The BLM will provide seminar participants a refresher on the items the BLM needs regarding biological, cultural, and paleontological reviews to ensure a quick turn around when new permits are submitted.

**In February**, BLM-CA's Bakersfield Field Office will participate in a USFS public meeting in Fillmore, CA regarding four APDs in the Sespe Oilfield, which is adjacent to a USFWS refuge and a California condor sanctuary. The USFS is the lead Federal agency for the preparation of the NEPA analysis. The BLM anticipates a negative reaction to the proposed wells from local residents who in the past opposed oil and gas development and because of the presence of several active anti-oil and gas organizations in the surrounding counties. The meeting is expected to generate a lot of public interest, including interest from U.S. Rep. Julia Brownley's (CA-26-D) office, due to the wells being in a national forest and near a California condor sanctuary. BLM Assistant Field Manager John Hodge and Petroleum Engineer Jeff Prude, will participate.

**From February 2-10**, the 2018 King of the Hammers Ultra Race will be held at the Johnson Valley OHV Area, including portions of public lands shared with the Twentynine Palms marine base, in San Bernardino County. This event is the largest BLM-CA special recreation permitted event and is expected to draw tens of thousands participants and spectators. The event takes place in Congressman Paul Cook's (CA-08-R) district and the Congressman and his staff have participated in previous years.

**In February**, the U.S. Fish and Wildlife Service anticipates publishing a Federal Register Notice of Availability for an Environmental Assessment that analyzes issuing an Eagle Take Permit to Ocotillo Express LLC for the Ocotillo Wind Energy Facility located on public lands in Imperial County, California. The EA is being prepared in response to Ocotillo Express LLC's application for a 5-year programmatic take permit for Golden Eagles under the Eagle Act. The BLM is a cooperating agency with the USFWS as the EA will also analyze the potential impacts of a decision regarding Ocotillo Express LLC's requested amendment to the BLM right-of-way grant to allow discontinuation of a radar avian detection system and a 10-year bio-monitoring program that were required as part of the ROW grant. Comments on the EA will be accepted during a thirty day comment period upon publication of the EA.

**Through February 11**, BLM-AK will seek public comments for the Greater Mooses Tooth 2 Draft Supplemental Environmental Impact Statement. Once the Federal Register Notice of Availability for the draft publishes, the BLM plans to hold public meetings and subsistence hearings during the comment period in the following communities (dates are tentative): Jan. 8: Utqiagvik, Jan. 9: Nuiqsut, Jan. 10: Anaktuvuk Pass, Jan. 11: Atkasuk, Jan. 16: Fairbanks, and Jan. 18: Anchorage.

**On February 13**, BLM-CA Bakersfield Field Office staff will provide an update to the Lake Isabella Bodfish Property Owners Association on ongoing planning efforts at the Keysville Special Recreation Management Area. Keysville is a very popular historic mining area that offers a wide variety of recreational opportunities.

**In 2018**, California Department of Fish & Wildlife will begin charging fees to access state and federal lands at the Redbud and Judge Davis Trailheads, which are located on CDFW owned land. This action will be controversial for the BLM since many outdoor recreationists are unaware that the Redbud and Judge Davis Trailheads are owned by the CDFW and not BLM. CDFW is implementing these fees over several months and has not yet notified the public.

**VII. Major Federal Register Notices and Approval Packages:****BLM Federal Register Notices as of December 28, 2017, 2:00 p.m. ET**
