FY17 Cultural FOA Amend #1.docx

Tyler,

I've attached last year's cultural umbrella announcement, the FY 2018 one will look a little different, but not much. It will just have some language to more clearly tie back to the administration's priorities.

just about anyone can apply for these, you do not have to be a 501(c).

Most likely, the 2018 announcement won't be on Grants.gov until early 2018, and the earliest any agreement could be awarded would be summer. The process has gotten longer, as announcements now go through the WO, and any awards must be approved by Ed (<\$100K) or the WO.

The primary push from the WO for all new agreements is that they not be open ended, ongoing funding. They want specific projects with clear timelines, final products/outcomes, and an end date.

If you want more information, Melanie can explain all of this more.

Ashley

Federal Land Policy and Management Act of 1976 (FLPMA), 43 USC §1737, Public Law 94-579

Take Pride in America (TPIA), Public Law 101-628, as amended, 16 USC §4601, 4605

Watershed Restoration and Enhancement Agreements (aka The Wyden Amendment), 16 USC 1011, PL 104-208, Section 124, as amended by PL 105-277, Section 136, as amended by PL 108-7, Section 135. Section 1011

**2. Description of Program and/or Project****a. Background:**

Public lands in Utah are home to many thousands of unique and irreplaceable archaeological, historical, and paleontological resources that represent Utah's 13,000 year human history and millions of years of biological prehistory. The Bureau of Land Management (BLM) administers approximately 23 million acres of public land in Utah with eleven local field offices, which are coordinated by the BLM Utah State Office in Salt Lake City. BLM-Utah's State Office's Cultural Resources Management and Paleontology Programs coordinate the management, preservation, and outreach efforts for these resources.

Cultural and Paleontological Resources Management Program manages and preserves the archaeological and historical locations, structures, and objects that represent a unique component of our national heritage. This program also engages with Native American tribes and the public as stakeholders in these resources. BLM-Utah's Paleontology Program manages and preserves paleontological resources as a fragile, nonrenewable scientific record and an important component of America's natural heritage. These programs manage these archaeological, historical, and paleontological resources, or "heritage resources," for educational, scientific, cultural, and recreational values.

The BLM Utah State Office's Cultural Resource Management and Paleontology Programs are seeking to establish partnerships to collaboratively encourage the public to learn about and engage with heritage resources in Utah, increase volunteer opportunities, increase engagement with Native American tribes, and encourage studies on public lands.

**b. Objectives:**

Broadly, the objective is to develop partnerships that preserve heritage resources and promote their educational, scientific, cultural, and recreational values. Individual programs/projects may have one or more of the following types of objectives:

- Proactive studies, including inventory, excavation, and collections-based studies;
- Monitor at-risk heritage resources, such as through site steward programs;
- Stabilize at-risk heritage resources;
- Provide support for and foster volunteer partnerships to maintain BLM recreation facilities that lead to or are focused on heritage resources;
- Promote public engagement, learning opportunities, and archaeological and/or paleontological ethics through heritage resources education and outreach programs, events, and products.
- Promote engagement with tribal communities and foster partnerships with tribal governments and programs;
- Assist with heritage resources data management, such as digitizing records;
- Complete special projects involving BLM museum collections, including studies, interpretation, and proactive conservation projects; and
- Develop interpretive programs and products.

**b. Public Benefit:**

The activities to be undertaken through this announcement support the goals of the *U.S. Department of the Interior's Strategic Plan for Fiscal Years 2014 – 2018*, including the goals to:

- Protecting and maintaining our heritage resources for the enjoyment of present and future generations;
- Increasing the public's knowledge, enjoyment and appreciation of heritage resources through education, outreach, studies, and opportunities for meaningful engagement.

**3. Program/Project Performance Goals**

Broadly, the goals of the partnerships formed under this blanket cultural resources preservation announcement include:

- Protect and preserve heritage resources;
- Increase public knowledge of archaeological and paleontological ethics and site etiquette;
- Increase public appreciation and respect for cultural resources and Native Americans;
- Increase professional and/or public knowledge and understanding of cultural resources; and
- Increase opportunities for the public to positively engage with heritage resources.

Specific performance goals will be defined by individual program/project.

## **3. Third Level Review Pre-award Clearance and Approvals**

Following the described review process, BLM will also complete a business evaluation and determination of responsibility. During these evaluations the Grants Management Officer will evaluate variables such as:

- a. Risk Management. The BLM uses a risk-based approach to evaluate the risk posed by the supporting applicants' projects before it awards Federal funds.
  - 1) BLM is required to review information available through OMB-designated eligibility and/or financial integrity databases, such as the Federal Awardee Performance and Integrity Information System (FAPIIS). The BLM considers factors such as:
    - (a) Financial stability;
    - (b) Quality of management systems;
    - (c) History of performance managing Federal awards, timeliness of compliance with reporting requirements, conformance to the terms and conditions of previous Federal awards, etc.;
    - (d) Reports and findings from audits performed; and
    - (e) The applicant's ability to effectively implement statutory, regulatory, or other requirements imposed on non-Federal entities.
  - 2) Budget review is based on the following:
    - (a) Budget line items must be allowable, allocable, reasonable in price, and appropriate for the level of effort needed to accomplish the project
    - (b) Budget details and narrative must provide adequate explanation of, and justification for, each estimated cost
    - (c) Requested equipment must be justified and necessary for completion of the project
    - (d) Cost Sharing/Matching funds must not come from Federal funds

If the results of all pre-award reviews and clearances are satisfactory, an award of funding will be made once the agreement is finalized. If the BLM determines that a Federal award will be made, special conditions that correspond to the degree of risk assessed may be applied to the Federal award

If the results of pre-award reviews and clearances are unsatisfactory, consideration of funding for the project may be withdrawn.

#### **4. Application Selection Process**

- a. Applications eligible for merit review will be evaluated by an ad hoc evaluation team assembled to review, rate, rank, and recommend applications for award using the above evaluation criteria. Evaluation teams are made up of two or more qualified personnel familiar with the program and who have been certified to have no conflict of interest with any persons or organizations applying for award.

- b. Reviews are treated as confidential documents. Once award decisions are made, applicants may request in writing a written summary of the evaluation of their application/proposal.
- c. Applications received by the BLM under this announcement, but not selected for funding in FY17, will remain on file and available for funding consideration through FY19.

## **F. FEDERAL AWARD ADMINISTRATION INFORMATION**

### **1. Federal Award Notices**

- a. Any award made from this announcement will be based on the application submitted to, and as approved by, the Department of the Interior, Bureau of Land Management, and will be regulated by OMB's Uniform Guidance, 2 CFR Part 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.
- b. Acceptance. Acceptance is defined as the start of work, drawing down of funds, or accepting the award via electronic means. Costs may not be incurred before the effective date listed on the award. Acceptance of a Federal Financial Assistance award from the Department of the Interior, Bureau of Land Management, carries with it the responsibility to be aware of, and comply with, the administrative and national policy requirements and terms and conditions of award.

### **2. Reporting**

Periodic submission of Federal Financial reports (SF-425), Performance/Progress reports, and Youth Employment reports (if applicable) will be required under this financial assistance agreement. Submission of financial and performance/progress reports may be required either quarterly, semi-annually, or annually. Submission of youth employment reports (if applicable) is required quarterly.

### **3. Administrative and National Policy Requirements**

- a. Office of Management and Budget Guidance for Grants and Agreements. By accepting additional Federal funding under the current Federal assistance, your organization agrees to abide by the applicable OMB Guidance for Grants and Agreement in the expenditure of Federal funds and performance under this program. OMB guidance is available at the following web site:  
<http://www.ecfr.gov/cgi-bin/text-idx?SID=954b81d94bf127c6de3c76a3c99d8d9f&tpl=/ecfrbrowse/Title02/2subttitleA.tpl>
- b. Administrative Requirements.

- 1) 2 CFR Part 200 Subparts A through D - Uniform Administrative Requirements and Cost Principles.
- 2) 2 CFR Part 200 Subpart F - Audit Requirements. Non-Federal entities that expend \$750,000.00, or more, in federal awards in a single year shall have a single or program-specific audit conducted for that year in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A-133, available at:  
<http://www.whitehouse.gov/omb/circulars/default>.
- 3) Indirect Facilities and Administration (F&A) Costs.
  - (a) 2 CFR Part 200.414 - Indirect (F&A) Costs
  - (b) 2 CFR, Appendix III to Part 200 - Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Institutions of Higher Education (IHEs)
  - (c) Appendix IV to Part 200 - Indirect (F&A) Costs Identification and Assignment, and Rate Determination for Nonprofit Organizations
  - (d) Appendix V to Part 200 - State/Local Government-wide Central Service Cost Allocation Plans
    - (1) The provisions of 2 CFR 200.414(c) require Federal agencies to accept federally negotiated indirect cost rates. The BLM has applied the following policies, procedures and general decision-making criteria for deviations from negotiated Indirect Cost Rates for financial assistance programs and agreements.
    - (2) Distribution Basis. For all deviations to the Federal negotiated indirect cost rate, including statutory, regulatory, programmatic, and voluntary, the basis of direct costs against which the indirect cost rate is applied must be:
      - (i) The same base identified in the recipient's negotiated indirect cost rate agreement, if the recipient has a federally negotiated indirect cost rate agreement; or
      - (ii) The Modified Total Direct Cost (MTDC) base in cases where the recipient does not have a federally negotiated indirect cost rate agreement or, with prior approval of the Awarding Agency, when the recipient's federally negotiated indirect cost rate agreement base is only a subset of the MTDC (such as salaries and wages) and the use of the MTDC still results in an overall reduction in

the total indirect cost recovered. MTDC is the base defined by 2 CFR 200.68, "Modified Total Direct Cost (MTDC)."

- (iii) In cases where the recipient does not have a federally negotiated indirect cost rate agreement, under no circumstances will the Department use a modified rate based upon Total Direct Cost or other base not identified in the federally negotiated indirect cost rate agreement or defined within 2 CFR 200.68. The purpose of this restriction is to ensure that the reduced rate is applied against a base that does not include any potentially distorting items (such as pass-through funds, subcontracts in excess of \$25,000, and participant support costs) and is based on the requirements outlined in 2 CFR 200.68; 2 CFR 200.414(f); 2 CFR 200 Appendix III, Section C.2.; 2 CFR 200 Appendix IV, Section B.3.f.; and Appendix VII, Section C.2.c.
- (3) Indirect Cost Rate Reductions Used as Cost-Share. Instances where the recipient elects to use a rate lower than the federally negotiated indirect cost rate, and uses the balance of the unrecovered indirect costs to meet a cost-share or matching requirement required by the program and/or statute, are not considered a deviation from 2 CFR 200.414(c) as the federally negotiated indirect cost rate is being applied under the agreement in order to meet the terms and conditions of the award.

c. Program Legislation and/or Regulations.

Please be aware that some projects may trigger federal laws pertaining to federal actions and the management of heritage resources, including, but not limited to the National Environmental Policy Act, the National Historic Preservation Act, the Native American Graves Protection and Repatriation Act. The completion of the proposed project/program may require time for BLM to complete its obligations under these laws and their implementing regulations.

In addition, some heritage resources information is protected under federal law. Section 9 of the Archaeological Resources Protection Act of 1979 states, "Information concerning the nature and location of any archaeological resource... may not be made available to the public... unless the Federal land manager concerned determines that such disclosure would-

- (1) Further the purposes of this Act...
- (2) Not create a risk of harm to such resources or to the site at which such resources are located."

Similarly, Section 6309 of the Paleontological Resources Preservation Act of 2009 states, “Information concerning the nature and specific location of a paleontological resource shall be exempt from disclosure... unless the Secretary determines that disclosure would:

- (1) Further the purposes of this subtitle;
- (2) Not create risk of harm to or theft or destruction of the resource or the site containing the resource; and
- (3) Be in accordance with other applicable laws.”

If access to, use of, and/or release of protected archaeological and/or paleontological resources information is part of the proposed project/program, the partner will have to work with the appropriate Federal land manager to ensure these statutes are followed and the resources are protected.

#### 4. Standard Award Terms and Conditions

- a. Code of Federal Regulations/Regulatory Requirements, as applicable (contact your program officer with any questions regarding the applicability of the following):

Recipients of grants/cooperative agreements and/or sub-awards are encouraged to adopt and enforce on-the-job seat belt use policies and programs for their employees when operating company-owned, rented, or personally owned vehicles. These measures include, but are not limited to, conducting education, awareness, and other appropriate programs for their employees about the importance of wearing seat belts and the consequences of not wearing them.

- 11) Scientific integrity is vital to Department of the Interior (DOI) activities under which scientific research, data, summaries, syntheses, interpretations, presentations, and/or publications are developed and used. Failure to uphold the highest degree of scientific integrity will result not only in potentially flawed scientific results, interpretations, and applications but will damage DOI's reputation and ability to uphold the public's trust. Recipients must not require their employees or contractors seeking to report fraud, waste, or abuse to sign internal confidentiality agreements or statements prohibiting or otherwise restricting such employees or contractors from lawfully reporting such waste, fraud, or abuse to a designated investigative or law enforcement representative of a federal department or agency authorized to receive such information.

Recipients must notify their employees or contractors that existing internal confidentiality agreements covered by this condition are no longer in effect

- b. Funding.
  - 1) Awards shall be funded subject to availability of BLM funding. Initial funding does not guarantee additional funding in subsequent years.
  - 2) Once the grant or cooperative agreement is signed by a BLM Grants Management Officer (GMO), funding is obligated and the recipient may incur approved costs beginning on the effective date of the award and as specified in their submitted and approved budget.
- c. Payment Mechanism. Payment will be made by draw-down reimbursement through the Department of the Treasury, Automated Standard Application for Payment (ASAP) System. See following website:  
<http://www.fms.treas.gov/asap> Treasury Circular 1075 (31 CFR 205) requires that draw-downs to a recipient organization shall be limited to the minimum amounts needed and shall be timed to be in accordance with the actual, immediate cash requirements of the recipient organization in carrying out the purposes of the approved program or project. The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program or project costs and the proportionate share of any allowable indirect costs
- d. Conflicts of Interest. The Recipient must establish safeguards to prohibit its employees and sub-recipients from using their positions for purposes that constitute or present the appearance of a personal or organizational conflict of interest. The Recipient is responsible for notifying the Grants Management Officer (GMO) in writing of any actual or potential conflicts of interest which may include, but are not limited to, direct or indirect financial interests, close personal relationships, positions of trust in outside organizations, consideration of future employment arrangements with a different organization, or decision-making affecting the award that would cause a reasonable person with knowledge of the relevant facts to question the impartiality of the recipient and/or recipient's employees and sub-recipients in the matter.

## **5. Special Award Terms and Conditions:**

- a. Liability, Insurance, and Indemnification. Recipients of awards arising from this announcement will be required to agree to the following:
  - 1) Liability. The BLM assumes no liability for any actions or activities conducted under this agreement except to the extent that recourse or remedies are provided by Congress under the Federal Tort Claims Act, 28 USC 2671.
  - 2) Indemnification. The recipient hereby agrees:

- (a) To indemnify the federal government, Bureau of Land Management (BLM), from any act or omission of the recipient, its officers, employees, or (members, participants, agents, representatives, as appropriate) (1) against third party claims for damages arising from one or more activities carried out in connection with this financial assistance agreement and (2) for damage or loss to government property resulting from such an activity, to the extent the laws of the State where the recipient is located permit. This obligation shall survive the termination of this agreement.
- (b) To pay the United States the full value for all damage to the lands or other property of the United States caused by the recipient, its officers, employees, or (members, participants, agents, representatives, agents as appropriate).
- (c) To provide workers' compensation protection to the recipient's officers, employees, and representatives.
- (d) To cooperate with the BLM in the investigation and defense of any claims that may be filed with the BLM arising out of the activities of the recipient, its agents, and employees.
- (e) In the event of damage to or destruction of the buildings and facilities assigned for the use of the recipient in whole or in part by any cause whatsoever, nothing herein contained shall be deemed to require the BLM to replace or repair the buildings or facilities. If the BLM determines in writing, after consultation with the recipient that damage to the buildings or portions thereof renders such buildings unsuitable for continued use by the recipient, the BLM shall assume sole control over such buildings or portions thereof. If the buildings or facilities rendered unsuitable for use are essential for conducting operations authorized under this agreement, then failure to substitute and assign other facilities acceptable to the recipient will constitute termination of this agreement by the BLM.
- (f) Flow-down. For the purposes of this clause, "recipient" includes such sub-recipients, contractors, or subcontractors as, in the judgment of the recipient and subject to the Government's determination of sufficiency, have sufficient resources and/or maintain adequate and appropriate insurance to achieve the purposes of this clause.
- (g) Identified Activities. All activities carried out in connection with financial assistance arising from this funding opportunity announcement.

- b. Recipients must successfully complete an appropriate Defensive Driving Course before operating a Government-owned vehicle (GOV).
- c. Recipients must successfully complete appropriate safety and training requirements before operating Government-owned equipment, 4-wheel all-terrain vehicles (ATV) or other Government-furnished property (GFP).
- d. Recipient/Sub-recipient Personnel Security and Suitability Requirements.
  - 1) If performance of this grant/cooperative agreement requires recipient/sub-recipient personnel to have a Federal government-issued personal identification card before being allowed unsupervised access to a DOI facility and/or information system, the Program Officer will be the sponsoring official, and will make the arrangements for personal identity verification and card issuance.
  - 2) At least two weeks before start of grant/cooperative agreement performance, the recipient will identify all recipient and sub-recipient personnel who will require physical and/or logical access for performance of work under this grant/cooperative agreement. The recipient and sub-recipient must make their personnel available at the place and time specified by the Program Officer in order to initiate screening and background investigations. The following forms, or their equivalent, may be used to initiate the credentialing process:
    - (a) OPM Standard Form 85 or 85P
    - (b) OF 306
    - (c) Fingerprint card (local procedures may require the fingerprinting to be done at a police station; in this case, any charges are to be borne by the recipient or sub-recipient, as applicable)
    - (d) Release to Obtain Credit Information
    - (e) PIV card application (web-based)
  - 3) Recipient and sub-recipient employees are required to give, and to authorize others to give, full, frank, and truthful answers to relevant and material questions needed to reach a suitability determination. Refusal or failure to furnish or authorize provision of information may constitute grounds for denial or revocation of credentials. Government personnel may contact the recipient or sub-recipient personnel being screened or investigated in person, by telephone or in writing, and the recipient agrees to make them available for such contact.
  - 4) Alternatively, if an individual has already been credentialed by another agency through OPM, and that credential has not yet expired, further clearance may not be necessary. Provide the sponsoring office with documentation that supports the individual's status.

- 5) During performance of the grant/cooperative agreement, the recipient will keep the Program Officer apprised of changes in personnel to ensure that performance is not delayed by compliance with credentialing processes. Cards that have been lost, damaged, or stolen must be reported to the Program Officer, Grants Management Officer, and Issuing Office within 24 hours. Replacement will be at the recipient's expense. If reissuance of expired credentials is needed, it will be coordinated through the Program Officer.
- 6) At the end of grant/cooperative agreement's performance, or when a recipient/sub-recipient employee is no longer working under this grant/cooperative agreement, the recipient will ensure that all identification cards are returned to the Program Officer. Before starting work under this agreement, a National Agency Check (NAC) will be conducted to verify the identity of the individual applying for clearance. Upon successful completion of the NAC process, an identification card will be issued and access granted.
- 7) Simultaneously, a NAC with Inquiries (NACI) will be initiated to determine the individual's suitability for the position. If the NACI adjudication is favorable, nothing more needs to be done. If the adjudication is unfavorable, the credentials will be revoked. In the event of a disagreement between the recipient and the Government concerning the suitability of an individual to perform work under this grant/cooperative agreement, DOI shall have the right of final determination.
- 8) This requirement must be incorporated into any sub-grants/cooperative agreements that require sub-recipient personnel to have unsupervised access to a Federally controlled facility for more than 180 calendar days or unsupervised access to a Federally controlled Level 3 or 4 information system.
- 9) Federal Information Systems Security Awareness Training. Before the recipient, or any of its employees or sub-recipients, are granted access to the BLM Federal computer system they must first successfully complete the U.S. Department of the Interior's (DOI) Federal Information Systems Security Awareness Online Course. This course was designed specifically for users of Federal computer systems. The course is a Web-based training product that explains the importance of Information Systems Security and takes approximately one hour to complete. This course is mandatory for all Department of the Interior employees, contractors, recipients, and all other users of DOI computer resources. Topics covered in the course include: threats and vulnerabilities, malicious code, user responsibilities, and new developments affecting Information Systems Security.

**J) INDIRECT COSTS** (SF-424A Object Class Category 6j. Indirect Charges)

Indirect costs are expenses which cannot be readily identified and charged to a particular project or agreement, e.g. building rent, utilities, office supplies, etc. Such costs are charged to the project as a percentage of the Direct Costs (items A through H above) and this percentage is called the Indirect Cost Rate. If your organization has a Negotiated Indirect Cost Rate Agreement (NICRA) please submit a copy of the agreement with your application. If your organization has no NICRA, the BLM may allow a "de minimis" indirect cost rate of up to 10% of your Modified Total Direct Costs (MTDC), which are your Direct Costs excluding sub grant and sub contract costs in excess of \$25,000. See **2 CFR 200.68 Modified Total Direct Cost (MTDC)** and **2 CFR 200.414(f) Indirect (F&A) Costs** for more information.

If your organization is a Cooperative Ecosystems Studies Unit (CESU) partner, your indirect cost rate will be 17.5% of your NICRA determined indirect cost base.

Use the Narrative Box below to explain how you calculated your indirect cost base and resulting indirect costs.
