National Conservation Lands (WO-410)  
Bureau of Land Management  
303.236.0539

**NATIONAL  
CONSERVATION  
LANDS**

**March 2017  
Monthly Hot Topic Snapshot  
WO-410 RMP and EIS Review  
Updated 02/27/17**

**Chris McAlear**  
Acting Assistant Director (WO-400)  
Acting Assistant Director (WO-400)

**RMPS AND PROJECTS WITH ISSUES TO ELEVATE/DIRECTORS PRIORITIES**

- **DTS# 1401. NOA of the Boardman to Hemingway ROD. Oregon.**
  - **NOA has not reached WO400.** NOA not routed at Division level.
  - WO410 provided updated language for NSHT for the ROD to the Project Manager and WO210 (Jan 12, 2017).
- **Bering Sea-Western Interior preliminary range of alternatives. Alaska.**
  - WO410 submitted comments to WO210 for the wilderness, WSR, and NSHT programs (Nov. 2016).
  - **Update: 1) follow-up meeting scheduled with Alaska for March 1 for lands with wilderness characteristics. 2) a meeting is scheduled with Alaska for February 27 to discuss the Iditarod NHT and what interests and options there are, if any, as to BLM managing or regulating a ROW reservation for the Iditarod for the five townships/two Tentative Approvals that currently do not include a reservation.**
  - **Issues:**
    - Wilderness Program. **Update: Elevation paper submitted to AD for discussion w/SD.** An alternative protecting all or most of the lands with wilderness characteristics is not included in the range of alternatives. The "maximum protection" alternative only protects 2.5% of the planning area (which, minus a few tiny parcels, all contains wilderness characteristics).
    - Wild and Scenic Rivers. **Update: Alaska Recreation Lead, Tom Bickauskas, will follow up with Cathi Bailey.**
      - 1) Did not use the required range of alternatives for suitable WSRs (per manual 6400).
      - 2) All of the action alternatives have the 22 eligible rivers as not suitable. Yet Goal #1 is to effectively manage the ORVs identified during the eligibility inventory.
      - 3) Mitigation standard allows net loss to their designated Wild and Scenic River (Unalakleet).
    - National Trails. **Update: Iditarod NHT Manager (Kevin Keeler) and State NLCS Lead (Tom Bickauskas) spoke with Deb Salt on 02/22/17 and hope to complete the comment response by 02/24/17.**
      - 1) Iditarod NHT is not addressed in coal leasing decisions. Per 43 CFR 3400.2, coal leases shall not be issued on Federal Lands within the National System of Trails.
      - 2) Proposed disposal via state selection of the Rohn site, a site significant under the NTSA and NHPA.
- **Grand Staircase-Escalante National Monument administrative DRMP-A/DEIS WO Review. Utah.**
  - WO review of DRMP-A/DEIS from **January 30 to February 17. Comment period extended for WO410.**
  - Planning area a National Monument that contains wilderness characteristics, NSHT, WSR, wilderness, and WSA.
  - **Issues:** 1) More discussion is needed in plan alternatives on WSA non-impairment and grandfathered use requirements (40% of decision area is within WSAs). 2) Discussion of WSAs and designated Wilderness in the analysis should be separated (currently combined). 3) Discussion and analysis of impacts to Old Spanish NHT is needed.
- **Organ Mountains-Desert Peaks National Monument RMP Prep Plan. New Mexico.**
  - Prep plan review from February 13 through 24.

- **Browns Canyon National Monument RMP Prep Plan.** Colorado.
  - Prep plan review from February 13 through 24.
- **Appalachian Basin RMP Prep Plan.** Eastern States.
  - Prep plan review from February 27 through March 10.
- **Upper Snake, Challis, Salmon RMP Prep Plan.** Idaho.
  - Prep plan review from February 27 through March 10.
- **Verde Transmission ADEIS.** New Mexico.
  - **Issues:** Potential impacts to WSR and National Trails.
    - Proposed route crosses Rio Grande River. Eligible and suitable WSR streams in area including additional segments of the Rio Grande WSR.
    - Project would cross the Camino Real de Tierra Adentro NHT and Old Spanish NHT.
  - **Next milestone is review of ADEIS (TBD). Any review is to be coordinated through New Mexico as amendment is not on WO210 priority list for WO review.**
  - **Update:** Scoping Report is being prepared. Scoping indicates opposition to project.
- **Mancos Shale RMP-A NOI, Farmington, New Mexico.**
  - **Issues: Unknown** but WO410 is tracking because the RMP-A proposes to amend four decision types including lands with wilderness characteristics and will analyze potential impacts from oil and gas decisions to the Old Spanish NHT (RMP decisions for the NHT will not be made).
  - **As the RMP-A/EIS moves forward (alts development, impact analysis, etc.) WO410 will participate to ensure that the National Conservation Lands units are adequately considered.**
  - **Update:** draft alternatives will be completed this summer. Public release of the DRMP/DEIS is not anticipated until calendar year 2018. NMSO will coordinate with WO210 on WO review.

#### UPCOMING BRIEFINGS (NEXT 30 DAYS)

- **Lewistown DRMP/DEIS.** Montana.
  - **AD brief anticipated by mid-March.**
  - **No issues.** 202,730 acres contain wilderness characteristics. **100,410 acres (49%) would be managed to protect wilderness characteristics.** 30,000 acres would be managed to reduce impacts to wilderness characteristics (13,000 acres of ACECs and approximately 15,000-20,000 acres where actions are in place to protect GRSG). 70,000 acres would not be protected with underlying prescriptions including open to mineral material sales, non-energy leasables, cross-country mechanized travel, fluid minerals with minor constraints (CSU), and livestock; limited to designated routes yearlong; 400 acres of ERMA prescription (potentially); and mostly VRM III.
- **Carlsbad Field Office DRMP/DEIS.** New Mexico.
  - **Director's Brief was held on 09-27-16. Met with NMSO and WO210 to follow-up.**
  - **Follow up:** New Mexico is updating the briefing information related to lands with wilderness characteristics, including specifying acreage that the office will be protecting, maintaining, and not protecting; providing more detailed rationale for these decisions; clarifying that the entire FO was inventoried; and updating the maps to

make acreage protected/maintained/not protected more clear. Information related to WSR suitability will also be included either verbally or in the PowerPoint presentation.

- **Update: 02-03-17. Updated rationale provided by Carlsbad for WSR, under review.**
- AD Brief held 08-18-16. Pre-brief held 08-09-16.

- **Rio Puerco PRMP/FEIS.** New Mexico.

- **AD's Brief TBD.**
- **No outstanding 410 issues.** Rationale provided for lands with wilderness characteristics decisions (77% protected, 19% impacts minimized, 4% (1,663 acres) not protected.
  - The 1,663 acres is separated from other wilderness characteristics acres by natural geological barriers and has a separate access route. Area had interest from both the Wilderness Society and National Four Wheel Drive Association. New Mexico met with both groups and reached what everyone agreed was an equitable management approach. New Mexico received a "3 cape" award from the Wilderness Society for their efforts.

Hi Nina and Peter, as we've recommended for OTM 2248, NCA for the Southeastern States PRMP/FIS, WCEIS reviewed the RMP and there are no outstanding issues. The planning area contains the higher value Lighthouse Channel, WCE, and WCEI. The WCEIS IP can be found at: <https://doi.gov/engr/>

Comments provided at the Federal Register Notice include the notice should state the RMP establishes National Trail Management Corridors for segments of the Potomac, National Heritage Scenic Trail and the Washington-Rochester Revolutionary Route National Historic Trail, and suggested adding to the notice that it other not-a-package materials.

The MANCA program reviewed and doesn't have comments on the notice package. The NDAF program concurs with the PRM comments. Call ID is an IP so I haven't heard on the WCE program but it should be fine with the language added to the PRM in the stipulations described above. No way we meet the WCE at

Please let me know if additional information is needed.

To: Shiva, Nina, Peter, Robert  
Hi Shiva, Lawrence is recommended for DTSP EISIS Notice of Proposed Supplementary Rules for Congress of the Ancient National Monument. The NDA/FEIS and Wilderness programs reviewed the Notice package and responded with no comment.

The proposed supplementary rules would result in changes to some currently authorized activities related to collecting geological and biological materials, commercial fishing and photography, recreational shooting activities, geocaching, climbing, camping in archaeological sites, and forest management.

Thanks,

Comment: Britta Nelson

NINA and Peter, summary is recommended of DTA 101.3 BLM Transmission line Project EIS/impact amendments.

The Wilderness program reviewed with no comments.

The WMA program provided a comment on page 12 of the HRA. Instead of stating that the agency preferred alternative in segment C "smaller" the WMA stated (underline blue), the HRA states that the alternative "minimizes impacts" to it. As if the HRA review, findings, and discussion, it had been "small".

The updated documents are attached and have been updated into DTA.

Please let me know if there is anything else needed at this point. Thanks.

To: NWS, re: Heather, Sally  
Many thanks NWS and Betsy

Nelson, Betsy <bethn@blm.gov>  
Dec 17 10:46 AM

To: Kelly, NWS, Heather, Sally

Hi Kelly, we want to let you know NWS has provided a comment to DTS.

(b)(5) DPP

Call: 1/18

Comment: Kelly Nelson

Hi NWS and Sally, comment is recommended for DTS 1/20/18 of NWS for the Proposed Goshute Rock Mine Project, White Pine County, NV. Per the Notice BP, there are no lands with wilderness characteristics or units of the National Conservation Lands in the project area. I've noted this in a comment to DTS.

The Notice BP Item #12 states: "There are no natural monuments, national conservation areas, or other designations, national scenic or historic trails, wild and scenic rivers, wilderness study areas, wilderness areas or lands with Wilderness Characteristics located within the proposed project area. The Bask and Bridge National Monuments of the proposed project area in the Nevada-Texas National Forests (N-T-NFS) District. The remaining four wilderness areas located within the area of the proposed project area include: Goshute, Rock Mountain, Current Mountains, and the Goshute. Portions of these four wilderness study areas (WASAs) are located

The Notice documents are attached. Please let me know if additional information is needed.

National Conservation Lands (NCL-410)

Call: 1/15

Comment: Kelly Nelson

Hi Kelly, this is in regard to our asking Bask to include in the NWS for Eastern Interior that outstandingly remarkable values of the designated WBSs are being identified and suitability determinations are being made for eligible programs.

Does the language make sense to you?

Betsy Nelson, M.P.A., Program Analyst  
National Conservation Lands (NCL-410)  
Bureau of Land Management  
202.228.5148

Kelly, Kelly  
Nov 29 11:4 AM

To: NWS  
NWS, Kelly,

I don't quite remember the specifics of our request for the NWS but provide the following as a quick response.

The Proposed BNP Final EIS considered the claim to be eligible for potential designation as WBS and Scenic River, but the NWS do not determine them to be suitable for designation as WBS and Scenic River, instead protecting them through other means.

Thanks!

Call: 1/16

Comment: Kelly Nelson

My Ryan - WWSB has submitted the NWS for the NCA.

**Comments:** **Re: this section:**

NO10 records show that under the proposed plan, a NSO disposition would be applied to the suitable NSR segments along the Colorado and Green Rivers (38,347 acres), and the Monticello NSR Segment 1 along the Colorado River would be closed to mineral leasing (754 acres). Have there been changes for NSR data to Panola, i.e., Paya, Sells, Mill, Cato?

My understanding is that no changes will be made between the Muddy MNP/MP Amendments and the NSO/Agood MNP Amendments related to areas of NSO and areas closed to mineral leasing. Pan, please correct me if I'm wrong.

Correct, there are no changes to acreages between proposed and approved.

[illegible]

vi) RT11A. The short answer to your followup question is "no". We are currently drafting alternatives for our RMP revision, in which we will make those decisions on CWGs. But decisions on CWGs have not been made for this area at this point because our RMP is old (1991) for the area of the Amber Road proposal.

Hi Tim, WD010 received the NOI to prepare an EIS on the Andover Mining District Industrial Access Project for review and has some follow-up questions. I am reaching out to you because your name is listed as the point of contact for the project in the DTP system.

The Andover NEI (drafted) indicates that wilderness characteristics are a key issue. Can more information be provided about this including if the wilderness characteristics inventory is current, if the current MAP addresses lands with wilderness characteristics, and if the project is consistent with the plan?

Also are there National Conservation Lands units such as wildland scenic land or NCLs in the project area?

Please let me know if we need to discuss.

Supplemental October 18, 2016. Since this is an NPS land exchange, an additional review for submission of the NPS into the NPS is required. The NPS/NPS package has been submitted into NPS and is currently being reviewed by NPS. Estimated date of publication is unknown.

Publication of the NPS/NPS into the NPS and local newspapers will initiate a 45-day protest period. After the protest period and absent any protests, the NPS would be completed.

No other major accomplishments or issues to report this week.

NOTE: Please let me know if there is anyone that needs to be included or removed from the list of people receiving these reports. Thanks!

WD NPS Review Process:

Below is a list of all offices, as identified in NPS, for review of the NPS/NPS (offices that have completed their review/timeline are marked with X).

WD-400 Regulatory Affairs (Completed 1/10/2017)  
WD-400 Land Tenure (Completed 1/10/2017)  
WD-400 NPS Review (Completed 1/10/2017)

Question re: NDA of FEIS for Proposed Land Exchange w/Neu Caliente Band of Cahuilla Indians

Nelson, Britta [brittan@linguist.lsa.umich.edu](mailto:brittan@linguist.lsa.umich.edu)

Hi Tim and Mark, I hope you are both well! W0610 received the NDA for the FEIS of the Proposed Land Exchange with the Agua Caliente Band of Cahuilla Indians within the Santa Rosa and San Jacinto Mountains National Monument. With this action, the BLM would exchange four parcels totaling 2,560 acres of

Please let me know if we need to discuss. Thanks,

Bureau of Land Management.

Comment: Britta Nelson  
Britta Nelson recommended: USFS L&M Section of Availability of Total Environmental Impact Statement and Notice of Decision for Proposed Land Exchange Between the Bureau of Land Management and Agua Caliente Band of Cahuilla Indians.  
Title:  
1.  
Nelson, Britta Nelson@blm.gov  
Attachment: 04.13.11 (414).ppt  
to: Sally, Peter, Timothy  
Hi Sally and Peter, here is a recommendation of USFS L&M Section for the NOD of the Proposed Land Exchange with the Agua Caliente Band of Cahuilla Indians within the Santa Rosa and San Jacinto Mountains National Monument. No edits have been made to the entire package (attached). With this action, the BLM is approving, and further reviewing the land management.  
[REDACTED]  
2) The current BLM lands being exchanged are isolated and the only way to gain access is through reservation lands and Agua Caliente permits. The exchange will allow more consistent jurisdiction of the lands by the Agua Caliente, but do not change how the lands will be managed in the future. These lands are  
3) The new BLM acquired lands will provide a larger tract of land considered as lands having wilderness character of within the monument. These lands will also have a more consistent recreation use and improve management of these lands as identified in the S&M L&M L&M.  
4) These new acquired lands will prevent any potential development within the monument boundary. There is a currently a road transecting these lands but no right of way.  
5) The Monument Manager can use the NOD as any negative long term impacts from this Land Exchange.  
In addition Doug Herrera indicated that such an exchange was mentioned in the legislation that created Santa Rosa & San Jacinto Mountains National Monument in 2003.  
Please let me know if additional information is needed.

Britta  
Review of the Land Exchange and possible concerns:  
1) The land exchange moves BLM lands to the Agua Caliente Band of Cahuilla Indians within their reservation boundary that is also within the S&M L&M boundary. The land exchange provides key reservation lands outside the reservation boundary but within the monument boundary to the BLM providing a larger can  
2) The current BLM lands being exchanged are isolated and the only way to gain access is through reservation lands and Agua Caliente permits. The exchange will allow more consistent jurisdiction of the lands by the Agua Caliente, but do not change how the lands will be managed in the future. These lands are  
3) The new BLM acquired lands will provide a larger tract of land considered as lands having wilderness character of within the monument. These lands will also have a more consistent recreation use and improve management of these lands as identified in the S&M L&M L&M.  
4) These new acquired lands will prevent any potential development within the monument boundary. There is a currently a road transecting these lands but no right of way.  
5) The Monument Manager can use the NOD as any negative long term impacts from this Land Exchange.

Hi Britta and Sally!  
I hope this finds you both doing well. Just noticed that this land exchange is in RUS, so I thought I'd reach out and ask if you had any questions about it or if there's anything holding it up. It's an exchange between BLM and the Agua Caliente Band of Cahuilla Indians right here in Palm Springs.  
I'm also a big fan of the monument manager, and love, our project manager.  
Thanks!  
Best,  
Doug

Publication of the NCA/NCD into the FRN and local newspapers will initiate a 60-day protest period. After the protest period and absent any protests, the NCD would be completed.

No other major accomplishments or issues to report this week.

NOTE: Please let me know if there is anyone that needs to be included or removed from the list of people receiving these reports. Thanks!

WCD NCD Review Process:

Below is a list of offices, as identified in DFL, for review of the NCA/NCD (offices that have completed their review/turnover are marked with X).

- WCD-400 Regulatory Affairs (completed 2/22/2011)
- WCD-410 Land Trust (completed 2/23/2011)
- WCD-410 NE-CE Decision (pending)
- WCD-430 Regulatory Affairs
- WCD-500 Subsurface/Lit/Env & SOG
- WCD-610 Regulatory Affairs
- WCD-610 Public Affairs
- WCD-660 Minerals and Geology Management
- WCD-660 NE-CE and Community Partnership
- WCD-660 Communications
- WCD-100 BLM Director's Office
- WCD-110 Regulatory Affairs
- DOE Assistant Secretary Land/Minerals
- DOE DOE Regulatory Affairs
- WCD-610 Regulatory Affairs

Next Steps:

- NCA/NCD published (45 protest period begins)
- If no Protests, Closure, Closing
- Final EIS/CEP Completed
- Final Title Opinion (BLM Accepts Title)

Appraised Values and Equalization: Date of Value 4/30/2010

Net Federal Land: \$481,000  
Federal Land: \$745,000  
Cash Equalization to be paid to BLM (BWSF Funds): \$264,000

Current BWSF for this project  
\$142,900 on NCA/NCD Package

Exchange Overview:

- This exchange involves the donation of 2,546 acres of Federal land to the Agua Caliente Band of Cahuilla Indians in exchange of 3,471.24 acres of non-Federal land.
- Change was located within the Santa Rosa and San Jacinto Mountains National Monument, Southern California Desert District.

\* The Agua Caliente serial number is CA-6202P102.

Exchange Decision Phase Accomplishments:

- Palm Springs Draft EIS (completed Mar 2010)
- CEQ Review Draft EIS (completed April 2010)
- Palm Springs Draft EIS/CEQA for CE review (completed April 2010)
- Nat'l Legal Description Review (2010) (completed April 2010)
- Palm Springs Request for NE-CE consultation (completed July 2010)
- Nat'l Legal Description Requested (completed July 2010)
- Nat'l Legal Review (completed July 2010)
- Statement of Preference (SR) (completed Aug 2010)
- EIS/CEQA/NE-CE (completed Sept 2010)
- Statement of Work (SOW) awarded to BWSF (completed Dec 2010)
- BWSF NE-CE published (protest period) (completed Dec 2010)
- Protest Appeal returned (completed Jan 2011)
- Revised EIS/CEP (completed Jan 2011)

- AGRI Acceptance of Value and Offer to Exchange (completed June 2011)
- Palm Springs NE-CE/CEQA/NE-CE Value Equalization/NE-CE Funding (completed Aug 2011)
- Palm Springs NE-CE/NE-CE/NE-CE (completed Dec 2011)
- CEQ Review of EIS/CEQA/NE-CE (completed Dec 2011)
- NE-CE/CEQA/NE-CE Decision Package (completed Dec 2010)
- CEQ/NE-CE/NE-CE Review Decision Package (completed Mar 2012)
- Market Review (completed April 2012)
- EIS Concurrence - Appraisal Extension (completed April 2012)
- Exchange Decision (2012) package to NE-CE (completed April 2012)
- NE-CE Review/Approval (completed Dec 2012)
- Final Exchange Agreement

Please let me know if you have any questions.

Hi Ryan, I hope you are well. W0410 has the NGA for the Southeastern States PRMP/VES in OYS. There are remaining issues that were to be worked out by Eastern States, W0210, and W0410 but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will coordinate?

Hi Shiva, I was hoping you could provide some information on the Southeastern States PMP/JEIS. WOH 20 has the NCA for the Southeastern States PMP/JEIS in OYS. There are remaining issues that were to be worked out by Eastern States, WQ210, and WQ220 but I am not sure if those discussions have not occurred.

Thanks!

Hi Ryan, I hope you are well. WQD 93 has the NDA for the Southeastern States PMP/FDS in OYS. There are remaining issues that were to be worked out by Eastern States, WQ2 10, and WQD 93 but those discussions have not occurred yet. Should we set something up to discuss or is that something 210 will coordinate?

Thanks,

Britta Nelson

Review Kick-off

Review kick-off briefing held on 10-13-16.

Cell: C56

**Comment:** Lita Nelson:

National Conservation Lands, a WO admin review of the GSENM DRMP A/DGIS is scheduled for January 30 through February 20 with a kick-off briefing scheduled for January 31. After receiving the review file from WO210 I will share them along with a WO432 comment form on google drive. WO412 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSENM DRMP A/DGIS to help guide WO432's review?

Are there any National Conservation Lands (NCLs) or other related areas that are located within the planning area identified as the management watershed in the BHP alternative? If not, is there a stand-alone plan for that area?

Are any riparian lands identified? Have lands and activities within National Conservation Lands (NCLs) and other related special areas?

Are riparian lands and activities in NCL management within the BHP alternative? If not, how are NCLs and any riparian lands within the management of National Conservation Lands and other related special areas?

Has the State Director been consulted and are decisions regarding National Conservation Lands, both with and without Classifications, eligible to be made with the management (BHP) and State Forest Managers, and to be under study or recommended as suitable for designations?

**National Wetlands Inventory and Sensitive Designations**

Is there a combined BHP, a unique set of decisions specific to the NCA/NCA2?

Do we fully verify the resource, activity, and/or NCA(s) within the NCA/NCA2 was designated, and those BHP(s) within the NCA/NCA2?

Are there any planning decisions in the BHP consistent with treatment and objectives of the designating authority, and/or are there any decisions in the NCA/NCA2?

Are there any conflicts or overlaps in the NCA/NCA2 identified as the NCA/NCA2 was designated?

National Science and Historic Trails

Is the national trail management corridor allocation included in the alternatives?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Other NEPA issues

Does the trail include any unique issues (e.g., associated settlement agreements) or background (e.g., resources included in a National Monument proclamation) that affect the alternatives?

Summarize how the unique issues or background affect the alternatives.

Please let me know if you would like to discuss. Thanks, Britta

The WAO admin review period for the Grand Staircase-Escalante National Monument (SENM) Grazing Draft RMP Amendment (DRMPA) will run from January 30 – February 20, 2017. To help inform your WAO admin review, please attend this briefing for an overview of the SENM Grazing DRMPA. I will send the DRMPA and present. Please let me know if you have any questions.

National Council

**General**

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand-alone plan for that unit?

Are certain lands identified for future study and activities that impact National Conservation Lands units and other related special areas?

Are exceptional site situations or other management actions identified in the RMP that are inconsistent with the management of National Conservation Lands units and other related special areas?

Has the BLM been consulted regarding RMP alternatives and decisions made by the National Conservation Lands Board with respect to designations, releases and acquisition of resources (National Conservation Lands and Special Study Areas) and/or under study or recommended as suitable for designation?

[illegible]

Does the plan include objectives and associated management actions, allowable use, and restrictions to safeguard the nature and purposes of the trail?

National Conservation Lands, a WO admin review of the Cedar City DRMP/DGS is scheduled for January 30 through February 4 with a kick-off briefing scheduled for January 18. After receiving the review file from WO210 I will share them along with a WO410 comment form on google drive. The WO410 Briefing Paper

Allison and Rob, can you provide answers to each of the following questions from your review of the Cedar City DRMP/DGS to help guide WO410's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the RMP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the RMP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on RMP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) Wild and Scenic River segments, and trails under study or recommended as suitable for designation?

1. Are there any lands with wilderness characteristics?  
 Does the FO have a complete, updated inventory of lands with wilderness characteristics?  
 Is an inventory report included in an Appendix?  
 Are decisions made for all lands with wilderness characteristics within the planning area?  
 Is a table included for decisions to: (1) emphasize other multiple uses, (2) emphasize other multiple use, (3) protect wilderness characteristics over other multiple use?  
 Is a table included that contains an acreage-related amount for each of the categories identified in BLM Manual 4-01, which include: (1) protection of lands with wilderness characteristics in a priority over other uses, (2) emphasizing other multiple use, and (3) emphasizing wilderness character will be maintained?

Eligible and Suitable WSR

Did the FO complete WSR eligibility inventories consistent with current policy requirements (B154000)?

Did the FO complete suitability evaluations and determinations for all eligible streams using factors and criteria from M6400?

Are suitable/unsuitable decisions made for all WSR eligible streams in the planning area?

Is the WSR Study Report protected as an Appendix and is it consistent with current policy?

For segments determined not suitable, do any resource allocations protect the river values; and/or is rationale provided for not protecting the river values especially if implementation of the RMP will degrade or eliminate those river values?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

Does the RMP include any unique issues (e.g., associated settlement agreement) or background (e.g., anomalies included in a National Monument proclamation) that affect the alternatives? How do the unique issues or background affect the alternatives?

Please let me know if you would like to discuss:

Review kick-off briefing held on 10-12-14

**Comments:** Leticia Nalaga:

National Conservation Lands, a WD admin review of the GSENM DMAP-A/DGIS is scheduled for January 30 with a kick-off briefing scheduled for January 15. After receiving the review files from WD210 I will share them along with a WD430 comment form on google drive. WD10 commented previously Allison and Rob, can you provide answers to each of the following questions from your review of the GSENM DMAP-A/DGIS to help guide WD430's review?

General

Are all National Conservation Lands units and other related areas that are located within the planning area identified and the management addressed in the BMAP alternatives? If not, is there a stand-alone plan for that unit?

Are mitigation standards identified for future land use activities that impact National Conservation Lands units and other related special areas?

Are appropriate land use allocations and/or management actions identified in the BMAP that limit or exclude land use activities that are incompatible with the management of National Conservation Lands units and other related special areas?

Has the State Director been briefed on BMAP alternatives and decisions regarding National Conservation Lands, lands with wilderness characteristics, eligible and suitable (pre-designation) WMA and Scenic River segments, and trails under study or recommended as suitable for designation?

National Monuments/National Conservation Areas and Similar Designations  
 If this is a combined RMP, is there a unique set of decisions specific to the NMA/NCA?  
 Does the RMP identify the resources, objects, and values (ROVs) for which the NMA/NCA was designated, and how those ROVs will be managed?  
 Are all land use planning decisions in the RMP consistent with the purposes and objectives of the designating proclamation or Act of Congress that established the NMA/NCA?  
 Do any land uses or ROVs in the NMA/NCA identified as exclusion or avoidance areas?

Land with wilderness characteristics

Does the FQ have a complete, updated inventory of lands with wilderness characteristics?

Is an inventory report included as an Appendix?

Are decisions made for all lands with wilderness characteristics within the planning area?

Is rationale included for decisions to (1) emphasize other multiple uses, (2) emphasize other multiple uses while applying management restrictions to wilderness characteristics, and/or (3) protect wilderness characteristics as other multiple uses?

Is a table included that summarizes areas inventoried, areas found to have wilderness characteristics, areas and the percentage of lands that fall within each of the categories identified in BLM Manual 130, which include: 1) protection of lands with wilderness characteristics as a priority over other uses, 2) emphasizing other multiple uses to wilderness characteristics will occur and wilderness character will be maintained?

Eligible and Excluded WGR

National Scenic and Historic Trails  
Is the national trail management corridor allocation included in the alternatives?

Does the plan include objectives and associated management actions, allowable uses, and restrictions to safeguard the nature and purposes of the trail?

### Other R&D Issues

Summarize how the unique issue or background affect the alternatives.

Please let me know if you would like to discuss. Thanks, Britta

Please let me know if you have any questions.

02-08-17, Nelson, Britta <b@nelson@bim.gov>

Hi Molly, Steve, and Annie - I thought I'd check in on the Maroon Skule RMP-A to see if there are any updates since we last communicated about the NDR back in September 2016. We have in our records that the RMP-A proposes to amend four decision types including lands with wilderness characteristics and we

**Comments:** I think the WOX10 NIGHT and WSR comments were a submission that I missed. I'm sorry, but "410" doesn't mean anything to me - I don't have a guide to all the program numbers and I've had to re-cave each with the associated program names for it to make sense to me and the rest of the RMP team (NIGHT, WSR). Many submitters

To summarize, here is the status of what "I think" encompasses NCL programs (but not sure)

WSR - just found the original WD comment and have provided it to Tom Wickauckas (State NCL + Rec Lead)

NCL - just found the original WD comment and have provided it to Tom Wickauckas (State NCL + Rec Lead) and Kevin Keeler (distorted RHT lead)

LWC - we are sending our alternatives per our State Director's direction. Bob Wick and Tom Wickauckas could not reach resolution, so it went to the SD and Chris Macalino's level. As a result, there will be no responses to these comments.

Revised final draft ROD for the Transborder Transmission Project and the WMA package sent for review by Sharon Knowlton on 05-18-16. Comments requested by CDB, 5-24-16. National Trails comments on ROD provided on 05-24-16. 05-26-17. Followed up on the Mitigation and Monitoring appendix which is missing details on projects. It will meet with control several options including the purchase of archeology in nearby designated wilderness. The WMA has drafted a plan and it is now waiting our Director's approval. Once made, it can be shared internally with the larger BLM group.

Hi Molly, Molly, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project BWP amendments/CDS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WMA as the draft is being prep.  
Our records show the following project issues:  
1) The project area includes eligible and suitable WMA resources including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WMA and Sonoran Desert Act requires looking at "increment" projects that are upstream, downstream or on a tributary of a designated river. Based  
2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT). The project needs to be considered per BLM NAC200.  
3) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Tenth Field Office BWP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible CDS for this project.  
Additional project information follows:

 Yes, see below is it a management board.

Hi Mr. Muller, and Terry - I hope you are all well and have had a great week - I wanted to check in with you on the Verde Transmission project RMP Amendment/EIS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WQWR at this stage. It being a year, I think we should have the following project:

Our research shows the following project information:

- The project is a proposed transmission line project that will connect additional capacity of the Verde River. The project consists of the Verde River, Section 7 of the Wild and Scenic Area, and the region leading to "historic" projects that are upstream, downstream or on a tributary of a designated river. Based on the project's location, the project is located in the Verde River.
- The project will cross into National Historical Land (the Colorado National Monument) and the Verde River is a National Historic Landmark.
- The project will cross into the Verde River and the Verde River is a National Historic Landmark.

There are no lands with additional characteristics that existing inventories may have been conducted as part of the BLM/FWS Joint Office RMP Amendment of 2012. Additional inventories may need to be conducted to provide a complete and defensible EIS for this project.

Additional project information follows:

National Conservation Lands, your review of the final draft ROD for TWS, ROW, and NGA package is requested. Please provide feedback to me by May 30. Additional information is found in Sharon's note below. This is the first of three emails from Sharon I will forward.  
Dorinda Bailey

[illegible][illegible]

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the Final RCD and the PA. Please respond with any suggested revisions by close of business May 24th, 2016. Subsequent emails will contain a courtesy copy of the TNEP Plan of Development in 2 parts due to size limitations.

Regards,  
Sharon

Revised Final draft RCD for the TransWest Transmission Project and the NHP package are for review by Sharon Knowlton on 05-18-16. Comments requested by 05-24-16. National Trails comments on RCD provided on 05-04-16. 05-24-17. Followed up on the Mitigation and Monitoring appenda which is missing details on project. I will meet today to review current management options including the purchase of land to provide riparian habitat. The NHP has drafted a plan and is now waiting for Director's approval. Once ready, it can be shared internally with the larger BLM group.

a Review conducted from the Wilderness Society  
a WOLF provided feedback on draft Final RCD, NHP, and NHP package (05-04-16).  
a WOLF drafted compensatory mitigation language. The issue was resolved and WOLF agreed to the mitigation language which was not about land to provide riparian habitat and not about mitigation. The compensatory mitigation package language, as modified by WOLF, was incorporated into an addendum to the RCD on 05-04-16.

Hi Molly, Mike, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/IS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOLF as the draft is being prep.

On 05/24/16, using the following email address:

Re: WOLF's review of the proposed project. The proposed route crosses the Rio Grande. Section 7 of the WMA and BLM's Watershed Act requires looking at "historic" projects that are upstream, downstream or on a tributary of a designated river. Based on the project's location, it is likely that the project will be considered a "historic" project.

2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT). The project needs to be considered per BLM NHP200.

3) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Trans West Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible IS for the project.

Subject: Re: Check in on the Verde Transmission Project RMP amendment/IS

Hi Adrian, thanks for the note. I will make sure to include you on communications on the Verde project. Thanks for keeping me updated and letting me know what WOLF support might be needed as you move forward. I do have a question - does this project is identified on the priority project transmission 4

Thanks,

I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOI 10 as the draft is being prepared.

Our records show the following project issues:

2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish NHT's). The project needs to be considered per BLM 166290.

j) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Tax Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible IIS for this project.

Subject: Here are the TranslEdit Project draft final RCD, RDR and NGA package for review in 3 emails

Hello everyone this is the first of 3 emails providing the draft/final package described above. We are pleased to provide the revised final draft ROD for the TransWest Transmission Project and the NOA package for review. The body of the ROD is attached, along with the Mitigation and Monitoring appendix, which is a grant, Appendix F: Mitigation and Monitoring with the exceptions explained above, Appendix D: Responses to governor's consistency and FERC comments, Appendix G: Alternatives Eliminated from further analysis and Appendix I: NPS requirements for access to Deerledge Road. Appendix H is the Plan of Development.

All comments received on the draft RCO and RCM grant thus far have been addressed except those noted here or still

Our Wyoming External Affairs Office will be working directly with other states and the WQ to finalize the NQA package.

We anticipate finalizing the greater sage grouse and migratory bird mitigation after the technical advisory group completes its task in the first half of June. We'll add that mitigation then. When WD provides the lands with wilderness characteristics details for inclusion in the mitigation and monitoring appendix,

In order to maximize our efficiency and allow for robust review and comment we are providing this package out now for final review and comment. Still pending completion are the final BO and the PA.

Please respond with any suggested revisions by close of business May 24th, 2016. Subsequent email will contain a courtesy copy of the TWS Plan of Development in 2 parts due to size limitation.

Comments: [REDACTED] subject Transmission Project and the NDA package sent for review by Sharon Knowlton on 05-13-16. Comments requested by CDB, 5-24-16. National Trails comments on ROD provided on 05-24-16, 05-26-27. Followed up on the Mitigation and Monitoring appendix which is missing details re project. It will most likely contain several options including the purchase of land to include nearby degraded wilderness. The WFO has drafted a plan and is now waiting our Director's approval. Once ready, it can be shared internally with the larger RLM group.

**Cell:** 01  
**Comment:** Intra Nelson:  
a Protest received from the Wilderness Society  
a WFOU provided feedback on draft Final RSD, ROW, and NDA package 05-24-06.  
a WFOU drafted compensatory mitigation language. The issue was resolved and WFOU agreed to the mitigation language which was not ideal [would mitigate and not would mitigate]. The compensatory mitigation package language, as modified by WFOU, was incorporated into an addendum to the FES on 05-01-05.

Hi Molly, Maile, and Terry - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/EIS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WO10 as the draft is being prepared.

Our records show the following project issues:

1) the project area includes eligible and suitable WSR streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the Wild and Scenic Rivers Act requires looking at "interruption" projects that are upstream, downstream or on a tributary of a designated river. Based

ii) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Tax Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to ensure a complete and defensible BCS for this project.

I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WSA as the draft is being prep.

Our records show the following project issues:

1) The project area includes eligible and suitable WSA streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WSA and Sonoran Desert Act requires looking at "increment" projects that are upstream, downstream or on a tributary of a designated river. Based on the project area, the project would cross two National Historical Trails (the Camino Real on Terra Antena and Old Spanish NHT). The project needs to be considered per BLM 160203.

2) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Two-Step Office BLM Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible IIS for this project.

Additional project information follows:

To: Tamaris, Stephen, Sally, Deborah, Christopher, Georganna, me

To meet the policy and purposes of the National Trails System Act (NTSIA Sec. 100), to prevent a project which will not substantially interfere with the nature and purposes of the trail (NTSIA Sec. 701), and to safeguard the nature and purposes of the National Scenic and Historic Trails (NSHT), BLM MS-4388 1.A.A.1.a.1),

Analysis and consultation measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the impacts from the Project. For residual (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that were National Trails System components, and will be required to be applied for the duration of the impacts. Mitigation measures will be feasible, additional, timely, consistent, adaptive, integrated, and reported upon.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include, but are not limited to, proposed mitigation measures (e.g., design features), including the associated monitoring, adaptive management, and reporting requirements.

Please let me know if you have any questions!

The attached BLM document has incorporated the NHT-4388-1.A.A.1.a.1) and 1.b.1) under National Conservation Lands, National Historic Trails.

Additionally we have added a few sentences under Decision, Right-of-Way Authorization and Selected Alternative plus Meyer-Blanks (public) request.

Please post this version to DCE.

Thanks much!

To: Teresa, Krista, Taha, Deborah, Christopher, Christopher, etc

Teresa, John, and Christopher - thank you for sending us the BHP BHP for a quick review. We did notice that the BHP language used for other transmission projects appears to be missing. To meet policy requirements, we recommend the following language be added to the National Conservation Lands (NCL) section on

To meet the policy and purposes of the National Trails System Act (NTSIA, 16 U.S.C. 1601), to permit a project which will not substantially interfere with the nature and purposes of the trail (NTSIA, 16 U.S.C. 1601), and to safeguard the nature and purposes of the National System and Historic Trails (NHS) (BLM M-8888, 1, A.A. 3.3).

Avoidance and minimization measures to mitigate impacts to National Trails System components, including the Oregon National Historic Trail (ONHT), will be applied for the duration of the impacts from the Project. For avoided (i.e., unavoidable) effects to the values and settings of the Oregon NHT, that show National Trails System components, and will be required to be applied for the duration of the impacts. All mitigation measures will be feasible, additional, timely, monitored, adaptively managed, and reported upon.

The terms and conditions within the permit will include all identified NHT-related avoidance, minimization, and compensatory mitigation measures, which may include appropriate proposed mitigation measures (e.g., design, structure), including the associated monitoring, adaptive management, and reporting requirement. Please let me know if you have any questions!

Hi Marka, Mike, and Terri - I hope you are all well and have had a great week. I wanted to check in with you on the Verde Transmission project RMP amendment/DLS. I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WDCD in the short & long term.

Our records show the following project items:

- 1) The project area includes rights and interests WDCD owns including additional segments of the Rio Grande. The proposed route crosses the Rio Grande River. Section 7 of the WDCD and Bureau of Land Management requires looking at "incidental" projects that are upstream, downstream or on a tributary of a designated river. Based
- 2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish National Trail). The project needs to be considered per BLM 506200.

3) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Two Field Office RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible DLS for this project.

I am hoping you can keep me updated on the progress of this project and let me know if support is needed from WOTD as the draft is being a map

Our records show the following project issues:

1) The project area includes eligible and suitable WOTD streams including additional segments of the Rio Grande. The proposed route crosses the Rio Grande near Section 7 of the WOTD and some. Works and requires looking at "incident" projects that are upstream, downstream or on a tributary of a designated river. Based

2) The project would cross two National Historical Trails (the Camino Real de Tierra Adentro & Old Spanish Nat'l). The project needs to be considered per BLM NCM260.

3) There are no lands with wilderness characteristics per existing inventories. Inventories may have been conducted as part of the BLM's Ten Year Draft RMP Amendment of 2012. Additional inventories may need to be conducted to prepare a complete and defensible GIS for this project.

Additional project information follows.

Subject: Re: Check in on the Verde Transmission Project RMP amendment/SL

Hi Adrian, thanks for the note. I will make sure and include you in communications on the Verde project. Thanks for keeping me updated and letting me know what WOFAR support might be needed as you move forward. I do have a question - I saw this project is identified on the priority project transmission if

Thanks,

Britta,

At this time, I'm not sure what our plans are relative to a WOI review of the draft EIS. I'll consult with our local management team here in New Mexico and our NMFLM Coordinator and get back to you on that question.

Hi Mrs. Auer, Anne  
Hi Bette,  
  
Thanks and hope the same to you too!  
  
All briefing was held on December 30th and Chris attended it from 8:00 and it was agreed to go ahead with Director's briefing and some suggestion were provided for fine tuning the presentation. Director's briefing request has been submitted but not yet scheduled.  
  
All the best,  
Silvia

Hi Mrs. Ann, Kelly, Molly, Christopher  
Hi Bette,  
  
Hi old December we briefed Steve Director Amy Landers on the WQI response and we are making a few adjustments to the memo response. We are also close to completing the GWD and your estimates.  
  
The holidays have cleared us down a bit but submitting this response to your office promptly remains high on the priority list.  
  
Thanks again for keeping this on our radar.  
  
Happy New Year!  
Richard

Hi Bette,  
  
Hi Bethel - all an adding BLM the status of my response. I appreciate you keeping it on your radar.  
  
We have decided to go ahead and include the end user greenhouse gas emissions (GWE) estimate into the RMP and this is taking some time due to the complexity involved in generating current and forecasted oil/gas production in our field office. We are close to having the production estimate sent to BLM.  
  
With the upcoming holidays it may be a few weeks before we are able to have this done.  
  
If you have any other questions I would be glad to answer them.  
  
Thanks,  
Richard

Hi Brett,

No further at all on adding about the status of our response. I appreciate you keeping it on your radar.

We have decided to go ahead and include the end user greenhouse gas emission (GHG) estimate into the RMP and this effort is taking some time due to the complexity involved in generating current and forecast oil/gas production in our field office. We are close to having the production estimates sent to all

With the upcoming holidays it may be a few weeks before we are able to have this done.

Brette,

Chad

Correction: We are anticipating having response ready to send back to your office by November 7, not December. My apologies for the confusion.

Hi Britta,

We are still working on providing a thorough response. Some of the response GCI analysis, Annual lease and attending meetings with cooperating agencies has slowed us down but we are getting close to having a response to several of the questions asked during the 9/27 briefing were to your office. We are hoping  
Thanks for your patience and look forward to hearing your officer's thoughts once we provide these responses.

Chad

Hi Britta,

In mid-December we briefed Core Director Amy Lunden on the NCL response and we are making a few adjustments to the memo response. We are also close to completing the GIS and user estimates.

The holidays have slowed us down a bit but submitting this response to your office promptly remains high on the priority list.

Thanks again for keeping this on your radar.

Happy New Year!  
Chad
