I just poked him, but we are quite anxious to finish this one up. Can you send me an informal copy? then I can make changes if he had concerns.

Morning Ann.

Yes, I received comments last night and sent to Earl this morning. It should be coming your way shortly.

There is one section of the pending memo on the New England Canyons and Seamounts monument which addresses the impacts of the monument on commercial fishing, attached.

The numbers here, whether due to differing time periods or otherwise, do not appear to directly correspond with the numbers in your report on the issue. Would you please have the appropriate people review this and endorse or amend the numbers, and/or the time periods reported on, as appropriate, so we are all using the same figures. Thank you
