Draft amend to NW Canyons and Seamounts Proc.docx

Downey had not said anything to me about further work on the proclamations. I have now added material from our report to flesh out this draft; result is attached.

OK - if the memo needs to be changed, please do so and send it back to me. Do we have a final proclamation?

Right now there are 2 figure ones and two unnumbered figures. In order, the map of the current monument should be figure 1, the map of the Atlantic coast canyons figure 2, and the two whales-dolphins charts figures 3 and 4. I will change the numbers for the last 2 and see how Kimberly wants them.

Kim - Please work with Randy to get the attachments to the Monument memo in a single pdf and labelled as they appear in the memo.

I do not believe I can do that, technically - they are in 2 different pdf files. I have paper copies of the monument map and the 2 charts showing where whales and dolphins are, each with a paper saying Figure 1, etc. I will recheck the latest draft and if the titles have changed will retype those and rescan the package into a new pdf. However, I needed help from Kimberly Edwards on your staff just to download the map showing the Atlantic canyons from a USGS publication, and I have no idea how to go about combining that with other documents. Perhaps she or someone else on your end would know how.

Please send me all or the attachments in a single pdf file labeled as the are identified in the memo.
