---

Thanks for the update - keep up the good work. I'll stop by later this morning.

Good morning Randy,

I hope you had a good weekend.

Everything is being updated and counted regardless of the number. Over the weekend, I updated FDMS according to the numbers on the spreadsheet that the DiscoverText students provided. I noticed a lot of entries were mail in comments which were already updated in FDMS. Marcia needed all submissions over 1,000 for her report, which is the reason I didn't include the ones with lower numbers.

There are a few more things that need to be posted. One is the large spreadsheet from Senator Brian Schatz that you asked me to wait until the end to post. Unfortunately, he didn't mention the number of submissions on the spreadsheet, so we'll count the names manually. The others are recent ones you gave us from Exec Sec.

After I post them today, I'll run a final Bulk Extract to capture the mail in comments from July 21st - current.

In addition, were finishing up the count of the mail in comments and should have those numbers to you today or tomorrow at the latest.

Jennifer

Jennifer, the reference to "over 1000" was to see which groups were sending the comments, not to affect which ones got counted. Will the smaller numbers from the students' report still be counted? And if the effort to see who sent them slows you down,

let it go, and just focus on numbers - the list Marcia got this morning will have enough group names to address that request.

Hi Marcia,

Attached is a spreadsheet with Bulk Extracts up to July 20th. I've only included the entries that had over 1,000 submissions. This is not totally complete yet, but will continue to work on it over the weekend.
