## Monuments

- Modifying national monuments will restore public access; infrastructure upgrades, repair, and maintenance; traditional use; tribal cultural use; and hunting and fishing rights on public lands.
- The action will also fulfill two campaign promises:
  - Making America Competitive Again: Restoring land to multiple use purposes will increase economic competitiveness, especially in rural communities, by allowing grazing, commercial fishing, logging, and in some cases mineral development.
  - Making Government Work for the People: By remedying the past abuses of the Antiquities Act, we will make sure local communities have a voice. NGOs have driven Antiquities Act designations in the past.

### Presidential action needed:

- (b) (5) DPP [REDACTED]

## Restore our Parks Initiative

- Created legislative language with NEC and OMB that would fund the \$11.5 billion National Park Service (NPS) infrastructure maintenance backlog with new revenues from energy development on public lands.

### Presidential action requested:

## King Cove Land Exchange
