Hi John,  
I hope you are doing well!

Nikki Moore mentioned that you might be able to help us address the information brought up in Kristin's note below (re: see if areas overlap with the mineral potential assessments that were done for the SFA Withdrawal EIS)?

Would you have a few minutes to discuss this or is there someone that you would suggest? I am happy to provide whatever you need, and could start off with the list of National Monuments under review if needed.

Thank you so much!

Best,

Rachel

Nikki you may want to have one of your folks do a quick check with WO 300 to see if any of these areas overlap with the mineral potential assessments that were done for the SFA Withdrawal EIS. Primarily to make sure there is consistency in characterization of potential, if there is overlap. K
