I'm not sure if you want to incorporate any of these edits. Nikki's comment about the area under protection is only in reference to BLM land, the 57% we cite is in reference to BLM+FS land (we received this info from BLM so I'm not sure where the confusion is coming from). The language regarding the MOU with the state is something we actually had in there but removed, not sure if there is any reason to put it back in. I'm not opposed to turning the ERS typography information into bullets - I think Christian recommended the same thing. Now that I look at it though, I wonder if it is at odds with the CBP data we also show, since it depicts the county as being mining-dependent whereas the CBP data shows mining as being a relatively small sector by employment. The two data sets represent different time periods, which may be part of it maybe (I don't know if the economy in SJ county has changed substantially between 2010-12 and 2015).

Attached are drafts of the interim report on the monument review process and the economic report on the Bears Ears monument. Please review and have any comments back to me by 3 pm tomorrow, June 8.

Due to late edits to the draft economic report there are some formatting issues there that will be corrected; no need to comment on those.

I regret the short turn-around, but that is likely to be the norm for this process.
