Here are my comments. I am sending them now as I think it likely I may need to get a new ID card to access my computer tomorrow. I encountered the same problem with my 2nd laptop as with the one in the office, in that it doesn't want to recognize the ID card. I was able to get in tonight after 5 tries, but it is clearly an ID problem, not a computer one.

I have some suggested wording changes from pages 4, 5 and 6 of the report on the first 2 pages of the comments, marked by page and section, and material on Marianas Trench and Rose Atoll on the last 2 pages. Both of these focus on the last bullet of the summary, and the basis for the recommendations. I believe the PRI section is fine as is for this report.

Here is the draft report. For your eyes only to fact check. Kathy I shared the monument data drives with you. I am fine with you separating out individual sections on monuments to have others check. Just not the recommendations or the full report.

Only others who have this is SOL and Dep Sec.

Thanks- Downey
