**Attachments:** [Additional Information Requested on Bears Ears NM 5-19-17.docx](#)

---

Hi Randy,

We have completed our review of the initial responses provided in response to the April 26, 2017 Executive Order 13792 and initial data request. The executive summary, detailed response for the requested items, and supporting sources of information have been uploaded to the respective Google Drive folder for the Bears Ears National Monument.

Per your request, I have also attached the additional information requested in a word document along with a zip drive that contains supporting data and documents.

Nikki Moore

Acting Deputy Assistant Director, National Conservation Lands and Community Partnerships  
Bureau of Land Management, Washington D.C.

202.219.3180 (office)

202.740.0835 (cell)

**Additional Information Requested on Executive Order on the Review  
of Designations Under the Antiquities Act**

**BLM-Utah Responses to Additional Questions**

a) Any legislative language, including legislation in appropriations bills

The boundary of Bears Ears National Monument (BENM) is largely congruent with similar designations proposed in the Utah Public Lands Initiative (UPLI) (H.R. 5780).

c) Designated wilderness areas (name, acreage), Wilderness Study Areas (name if there is one, acreage, type), and/or areas managed to preserve wilderness or roadless characteristics that are not WSAs.

1. There is no BLM-administered designated wilderness within BENM. The US Forest Service manages the Dark Canyon Wilderness.
2. BLM manages 11 WSAs totaling 380,759 acres within BENM.
  - Bridger Jack Mesa – 6,333 acres
  - Butler Wash – 24,277 acres
  - Cheesebox Canyon – 14,831 acres
  - Dark Canyon – 67,825 acres
  - Fish Creek Canyon – 46,102 acres
  - Grand Gulch – 105,213 acres

- Indian Creek – 6,554 acres
  - Mancos Mesa – 50,889 acres
  - Mule Canyon – 6,171 acres
  - Road Canyon – 52,404 acres
  - South Needles – 160 acres
    - *WSA/ISA acres listed are the total BLM-administered surface acres from the Utah Statewide Wilderness Study Report, October 1991. GIS calculations would vary.*
3. There are ~48,800 acres within 4 areas (Dark Canyon, Mancos Mesa, Nokai Dome East and Grand Gulch) that are carried forward in the 2008 Monticello Approved RMP for protection of their wilderness characteristics. Mancos Mesa, Nokai Dome East and Grand Gulch are unavailable for oil and gas leasing. Dark Canyon is available subject to a no surface occupancy stipulation that cannot be waived, excepted or modified. All 48,400 acres are managed as avoidance areas for rights-of-way (ROW).

*See: Bears Ears Existing Special Areas Calculations.pdf and MtFORMP\_Existing\_Special\_Designations\_BLM.pdf*

d) Outstanding R.S. 2477 claims within a monument – type of road claimed and history

There are 1,703 roads claimed in San Juan county under R.S. 2477. This figure also includes lands outside of BENM managed by the Monticello Field Office. (*See: Statewide\_RS2477\_Claims\_102313.pdf and Utah\_RS2477Claims.pdf*).

Note: Between 2005 and 2012, the State of Utah and 22 counties filed 30 lawsuits seeking quiet title to over 12,000 claimed R.S. 2477 rights-of-way. The vast majority of these claims are on BLM-administered lands, but claims are pending on lands administered by the National Park Service and U.S. Forest Service. To date, only one case, involving three roads, has been settled (Juab 1). Under a case management order, six cases involving 1,500 claims are currently being litigated —Kane (1), Kane (2), (3), and (4), and Garfield (1) and (2); these cases do not include lands within BENM. The remaining cases have been stayed, although preservation depositions have been allowed to continue. BLM-Utah maintains thousands of records related to R.S. 2477 claims and active or pending litigation, but some of the information is attorney-client privileged.

e) Maps –

BENM provided several maps in the initial data response (*BENM WO 410 Checklist and Supporting Docs subfolder: BENM GeoPDF map.pdf and BENM webmap.pdf*). There are also numerous maps contained within the Monticello Management Plan. We are attaching several maps of cultural and paleontological resources, which may also assist WO 410 in responding to other questions within this document. (1. *ArchaeologicalSurveysMap\_UDSH.pdf*; 2. *ArchySiteDensityMap\_UDSH.pdf*; 3. *DRAFT*

*Monticello FO Cultural Predictive Model Map BLM.pdf; 4.

g) Other – general questions or comments

1. **Discuss the full range of Proclamation objects.** The initial DOI data call focuses almost exclusively on cultural objects, but the Proclamation identifies many objects of antiquity or historical or scientific interest to be protected, such as paleontological resources.

2.
