Hi Randy,

You had asked about the DOI economic report on Berryessa Snow Mountain and if our 2016 draft BLM report used the 2015 report from the Winter Chamber of Commerce in any way?

We have checked and the BLM report, "Draft Regional Economic Contributions of National Monuments and National Conservation Areas," BLM, 2016, did not reference this 2015 Winters Chamber of Commerce report. The Winters report was done in 2015 and was a prospective report discussing the economic effects of monument designation.

The BLM report was a retrospective analysis focused on actual visitor data from 2016 and the economic effects of visitor spending, not necessarily attributable to the effect of designation. The Winters report relied on visitor data from interviews with resource managers. The BLM report relied on visitor data from our RMIS (Recreation and Management Information System).

Let me know if you need more detail. Thanks!
