Mr. Bowman,

Thanks so much! I greatly appreciate your prompt response.

I just wanted to make sure you received the information, as I believe it to be pertinent in the review of Rio Grande del Norte.

Sincerely,

Stuart Wilde
Taos, New Mexico

Thank you for checking. While I cannot respond to individual comments and submissions, I did receive your binder from the Deputy Secretary's office. All material submitted, particularly hard information, is being considered.

Dear Mr. Bowman,

I know you and the monument review team must be busy sorting through all the public comments that were submitted during the public comment process, so thanks in advance for taking a moment to read my email below.

I am a BLM outfitter/guide permittee, based in Taos, NM, operating in the Rio Grande del Norte National Monument. I am part of a local coalition of sportsmen, outfitters and guides, ranchers and land grant heirs, conservationists and community leaders, who worked to help establish the Rio Grande del Norte, from 2007-2013.

I am writing to follow up with you, to make sure you received the package of Documentation and Evidence of Pre-designation Public Outreach and Support, that I sent to you,

via Cathy Gulac, with Deputy Secretary Cason's Office, in early June.

This 258 page Binder of Documentation contains evidence of all the pre-designation public outreach that was done during the monument process, as well as all of the pre-designation Letters of Support and Resolutions from Local and Tribal Governments. Can you please confirm that you received this Binder of Documentation and Evidence, and are considering the contents, in your review of Rio Grande del Norte?

The Documentation and Evidence in the package I sent you in early June, can also be found online, at: <http://www.riograndedelnorte.org/monument-review/>, which was uploaded at the request of our local BLM Field Office, for the Monument Review Team to Reference.

In addition, I submitted a Substantive Comment Letter, with attachments, on behalf of our local coalition, detailing the history of the efforts to establish the Rio Grande del Norte as a National Monument, and addressing the concerns and considerations of the Executive Order. Here is a link to the Comments I submitted via the DOI Comment Page: <https://www.regulations.gov/document?D=DOI-2017-0002-739538>

I am asking that you please consider the Binder of Documentation and Evidence of Pre-designation Public Outreach and Support, as well as the Substantive Comment Letter with attachments referenced above, in your Review of the Rio Grande del Norte National Monument.

I know you are a busy man, but if you respond to this email, I would greatly appreciate it.

Feel free to call me with any questions, or if I can be of any assistance to you, during the review of Rio Grande del Norte.

Thank you very much!
