Hi Randy - looping in Richard Desselles for the questions response.

Thanks,
Emily

I have another set of questions - looking at your [Inventory of Technically and Economically Recoverable Hydrocarbon Resources of the Atlantic Outer Continental Shelf as of January 1, 2014: BOEM 2016-071](#) report, I can't with any confidence correlate the maps in the report to the location of the Canyons and Seamounts monument. Could you have someone indicate for me which specific formations discussed, if any, overlap the monument, and - or perhaps "or" - which of the assessment units reported in Table 2, page 40, overlap the monument, if any. If there is an overlap I likely will have follow-up questions.
