Emergency Management

In Georgia, the West Mims Fire in the Okefenokee National Wildlife Refuge has burned 152,231 (+247) acres. The fire is 60 (+20)-percent contained and managed by a Type-1 Incident Management Team with 989 (-75) personnel, including 147 (-22) DOI personnel. There are 320 (no change) residences and 7 (no change) commercial structures threatened. Firefighters contend with low fuel moisture, high winds, and reduced accessibility. The containment date remains November 1.

The Office of Environment Policy and Compliance (OEPC) and the U.S. Fish and Wildlife Service (USFWS) continue with their unified command response activities regarding the May 11 jet fuel spill at Naval Air Station Oceana in Virginia Beach. The spill is affecting Wolfsnare Creek

and the adjacent residential areas. The USFWS, Virginia Ecological Services - Environmental Contaminants Program, is on scene as subject matter experts for the wildlife response operation. Spill impact to trust species remains relatively low.

The US Geological Survey (USGS) has deployed seven crews to respond to river flooding in Kansas, Nevada and California. Crews are measuring high water marks and installing emergency gages to support local flood response activities.

Interior Denies Secretary Zinke Will Recommend Rescinding Bears Ears Designation.

The Huffington Post (5/19, D'angelo) reports that the Interior Department has “denied that Interior Secretary Ryan Zinke told Utah officials he will recommend the 1.35-million acre Bears Ears National Monument be abolished.” E&E News reported Friday that San Juan County Commissioner Phil Lyman “told the publication Zinke disclosed his plans during a meeting with the commission earlier this month.” But “shortly after the story published was, Interior spokeswoman Heather Swift said on Twitter that such reports were ‘not accurate.’” Swift wrote in a statement, “The Secretary is listening to and talking with advocates on all sides of the issue in Utah. He has not yet reached a decision.”

Secretary Zinke Plans To Visit Everglades.

The Palm Beach (FL) Post (5/19, Bennett) reports that Interior Secretary Ryan Zinke “plans to visit the Everglades after being invited to tour the River of Grass by Florida’s two senators and most of the state’s U.S. House delegation.” Heather Swift, the Interior Department’s press secretary, said, “The Secretary believes the best way to learn about a location is with boots on the ground.” Swift said, “He’s visited Utah, California, Wyoming, Montana, and several other locations and looks forward to seeing the Everglades and other Florida public lands. The Secretary is thankful for the warm invitation from the senators.”

Secretary Zinke’s Personal Schedule Shows Industry Leaders Have Frequent Access.

The Washington Post (5/19, Eilperin) reports that Interior Secretary Ryan Zinke “spent much of his first two months in office meeting with energy and other industry groups, according to personal schedules released this week under the Freedom of Information Act.” The schedules, “which cover March and April, detail a slew of meetings with oil and gas producers as well as officials representing gun owners, marine industries, automobile dealers and builders.” Zinke “also met with representatives of the Navajo Nation and Montana’s Little Shell Tribe, as well as numerous lawmakers and officials from a range of states and U.S. territories.”

Maine Gov. LePage Bans Signs To Katahdin Woods And Waters.

The Guardian (UK) (5/21, Helmore) reports that a decision by the Maine Gov. Paul LePage to ban signs to Katahdin Woods and Waters “has been described as ‘sophomoric and petty’ by a member of the family that donated the 87,563-acre tract to the nation.” A state transportation spokesman, Ted Talbot, “said in remarks reported by the Bangor Daily News that the refusal to allow official signs for Katahdin to be placed along main roads including Interstate 95 and

Routes 11, 157 and 159 was a cost-saving measure.” But Lucas St Clair, “whose family acquired the land using the Burt’s Bees fortune, told

Supreme Court’s Decision In Spider Case Has Implications For Limits Of Federal Power.

In his column for the Washington Post (5/19, Will), George F. Will writes that a case involving the Bone Cave Harvestman spider species “might be heading to the Supreme Court.” The case hinges on the interpretation of the Constitution’s commerce clause, and the court’s decision will have implications for the limits of federal power. Will hopes that the court will “apply its 2005 ruling that congressional regulation of intrastate, noncommercial activity is proper only when the activity is an ‘essential part of a larger regulation of economic activity, in which the regulatory scheme could be undercut unless the intrastate activity were regulated.’”

Editorial: Wild Horse Population Needs To Be Controlled.

In an editorial, the Bend (OR) Bulletin (5/21) draws attention to the problem of wild horse overpopulation. It says that “too many Americans see the mythical horse when the discussion begins and recoil at solutions that reduce wild horse herds.” However, the paper argues that “it’s doing wild horses no favor to allow their population to overwhelm the landscape.”

BOEM Schedules Cook Inlet Lease Sale For June.

UPI (5/19, Graeber) reports that “after a careful environmental review, the U.S. government said it was putting a section of the Alaskan coast up for auction for oil and gas explorers.” Walter Cruickshank, the acting director of the Bureau of Ocean Energy Management, said in a statement, “We conducted a robust environmental analysis and look forward to holding Alaska’s first Outer Continental Shelf lease sale since 2008.” According to the article, “the lease covers about 1 million acres off the south-central Alaskan coast in the Cook Inlet.” Cruickshank added, “The areas offered for leasing represent a careful balance between jobs, energy development, and natural resource protection.” The auction opens June 21.

Offshore Wind Farms Planned South Of Martha’s Vineyard.

The Falmouth (MA) Enterprise (5/19, Feldott) reports that in the next few years, “three wind energy developers plan to install” Massachusetts’s “first offshore wind farms about 14 miles south of Martha’s Vineyard and Nantucket.” The Massachusetts Executive Office of Energy and Environmental Affairs and the Massachusetts Clean Energy Center hosted a meeting on Tuesday, May 16 “to update the public on the state of offshore wind energy development off the coast of Massachusetts and Rhode Island.” According to the article, “about 70 people attended the meeting, which featured presentations from representatives of the US Bureau of Ocean Energy Management and offshore wind developers.”
