DOI DAILY UPDATE FOR CABINET AFFAIRS – 4/17/17

Doug Domenech, Senior Advisor

Status of the Secretary

The Secretary is traveling in California until 4/20/17.

TODAY: Secretary will tour Santa Cruz Island with NPS staff.

TODAY: Secretary will host a townhall forum on Channel Islands at the Reagan Ranch Center.

California Trip:

Tue. 4/18: Channel Islands--Santa Rosa. Rep./Leader McCarthy (R-CA) invited

Wed. 4/19: San Francisco: Presidio stop, Park Police Strategic Plan rollout

Thurs. 4/20: Fly to Montana.

Fri. 4/21: Personal Day.

Sat. 4/22: Off

Sun. 4/23: Fly to Washington, DC.

Long Range: Saturday 4/22: Earth Day.

Long Range: 5/25-5/28. The Secretary will participate in a CODEL sponsored by Senator Murkowski. Arctic Council. Norway, Greenland, Alaska. Various AK events 5/29-5/31.

Media Announcements Today

Interior Announcements Planned for April 17

- USGS Releases Report on Global Strategic Mineral Assessment - Report focuses on the uses, global locations, and current and projected future availability of 23 mineral commodities critical to the security and economy of the United States.

- DOI drafted a blog post about National Parks Week highlighting the importance and history of our national parks. The blog post will be on the White House blog this week.

- National Park Service and National Park Foundation Launch Parks 101 - Release focuses on “Uncovering National Park Stories You’ve Never Heard Before To Celebrate National Park Week”

- Celebrate #WorldHeritageUSA on World Heritage Day - Special initiative will promote U.S. contributions to World Heritage (Release from US/ICOMOS)

- U.S. Fish and Wildlife Service to Review Status of 138 Pacific Region Species - FWS Pacific Region is initiating 5-year reviews of 138 species protected under the federal Endangered Species Act (ESA). The species are found in Hawaii, Oregon, Washington, and California.

Executive Orders

Awaiting next EO on offshore energy. (Early May?)

Awaiting EO on National Monuments. (Early May?)

Speaking Invitations

Accepted

4/27 Theodore Roosevelt Conservation Partnership BBQ (DC, REI)

4/27 Western Caucus Members Only Luncheon (DC, Capitol)

4/28 NRA Leadership Forum, George World Congress Center in Atlanta, GA.

5/1 Offshore Technology Conference (Houston, TX)

-

Regretted

4/19 American Forest Resource Council 2017 Annual Meeting (Stevenson, WA)

4/24 Annual Tribal Self-Governance Consultation Conference (Spokane, WA)

4/25 Northwest Public Power Association Legislative Dinner (DC)

4/26 Theodore Roosevelt Conservation Partnership Dinner (DC)

4/27 Blueprint 2025 Infrastructure Leadership Forum (DC)

4/28 Woodlawn Cemetery Arbor Day Celebration (NYC)

Outstanding Invitations in Process

4/25 Northwest Public Power Association Legislative Dinner (DC)

5/1 Ducks Unlimited Reception (DC, Canadian Embassy)

5/2 Public Lands Trust, Washington, DC

NEED CABINET AFFAIRS ASSISTANCE ON THESE ITEMS:

Sportsmen's Event with POTUS/VP: Formal request submitted to Cabinet Affairs outlining a proposed "Sportsmen's" announcement of \$1.1 billion in funding for hunting and fishing activities. NOTE: the Department will need to announce this soon. Details also sent to WH IGA.

Possible event at the Lincoln Memorial: June 10. IS THIS EVENT HAPPENING?

Emergency Management

Florida: the Cowbell Fire on Big Cypress National Preserve has burned 19,279 (+2,339) acres. The fire is 52 (+5)-percent contained and managed by a Type-2 Incident Management Team with 283 (+9) personnel, including 100 (+23) DOI personnel. There are 25 (no change) residences threatened, and the containment date remains April 30. The fire continues to threaten infrastructure, transportation corridors, federal facilities, threatened and endangered species/habitat, recreational resources, and cultural resources. Area and trail closures remain in effect.

Alaska: On the morning of April 14, BP Exploration Alaska (BPXA) employees discovered an uncontrolled gas release from the top of a well house of an oil and gas production well in the Prudhoe Bay oil field on Alaska's North Slope. It was reported on Sunday, April 16, that the well continues venting natural gas, which initially caused a spray of crude oil that impacted the well pad. An overflight suggested that the crude spray plume did not leave the pad; however, the

situation is not yet safe for responders to access the area to confirm whether there are any impacts to the adjacent tundra. The primary DOI trust resource issue is potential for oil exposure to polar bears. There have been no reports of bears in the vicinity thus far, and, given the industrial nature of the site, the probability of oil exposure is thought to be low.

Alaska: On April 13, dive operations commenced in order to perform temporary repair on a Hilcorp Alaska, LLC natural gas pipeline located at a depth of 80 feet in Cook Inlet, south-central Alaska. The leak was originally detected on February 7, 2017; however, ice cover prevented repair efforts. Hilcorp shut down oil production from platforms serviced by the pipeline, as well as an adjacent oil pipeline, which reduced the leak from an estimated 275,000 to 100,000 cubic feet of methane per day. A temporary clamp was successful, and permanent repair operations began on April 14. The leaking natural gas generated concerns about potential impacts to aquatic life, including salmon and other fish, the endangered Cook Inlet beluga whale, and other wildlife.

Media of Interest

During Visit To California's National Parks, Secretary Zinke Reaffirms Commitment To Public Lands.

The Fresno (CA) Bee (4/14, Appleton) reports that Interior Secretary Ryan Zinke "toured Kings Canyon National Park Friday for the first time, and met with staff to discuss pressing issues within California's national parks, including infrastructure woes, wildfire prevention and claims of sexual harassment within the Park Service." Zinke "said the purpose of his visit was to inspect the front lines of the national parks firsthand." According to the article, "he stressed that his first goal as secretary will be to rebuild trust with the public by ensuring there will be no sale or transfer of public lands under his stewardship." He said that "wildfire management and updating infrastructure are top priorities."

Secretary Zinke To Speak At NRA's April Leadership Forum.

Politico (4/14, Conway) reports that President Trump will "speak at the National Rifle Association's annual leadership forum in Atlanta later this month, the gun lobby said Friday." Interior Secretary Ryan Zinke is "also expected to speak at the conference, as are other prominent Republicans, such as Florida Gov. Rick Scott and Sens. Ted Cruz, Luther Strange, David Perdue and Rob Portman."

Op-Ed: Bears Ears National Monument Is "Not The Right Decision".

In an op-ed for the Deseret (UT) News (4/14, Benally), Ryan Benally, Vice Chairman of the Stewards of San Juan County, writes to "provide the correct information" to Interior Secretary Ryan Zinke "of why Bears Ears National Monument is not the right decision." According to Benally, "Native Americans living near Bears Ears have remained as distrustful of any wilderness-monument type designation because it creates another oppressive controlling systemic government-run entity, like the BIA." Benally claims that "a national monument was unfairly pushed on San Juan County natives by out-of-state organizations, such as the outdoor retail industry, which showed its true intentions when it decided to make a spectacle of its exit of the Outdoor Retailer show."

Employee Who Hijacked NPS' Twitter Account Unpunished.

Bloomberg News (4/14, Roston) reports that on January 24, a seasonal employee at the Badlands National Park “hijacked the facility’s Twitter account” and began tweeting “several facts about climate change.” The employee, whose name was “redacted from agency documents obtained through a Freedom of Information Act (FOIA) request,” admitted that he sent the tweets out of fear of an impending gag order on climate science. The incident follows a directive from the Trump Administration “to shut down twitter platforms immediately until further notice.” According to Bloomberg, the individual behind the tweets was not disciplined and many FOIA documents show “supportive notes sent to a public NPS email.”

USGS Finds Largest Continuous Natural Gas Deposit In US.

The Daily Caller (4/14, Follett) reported the USGS discovered the largest continuous natural gas deposit in the US with an estimated 4 billion barrels of oil and 304.4 trillion cubic feet of natural gas. The deposit is located in the Haynesville and Bossier shale formations and more natural gas was found than in any other continuous assessment the USGS has ever conducted. Walter Guidroz, a coordinator of the USGS’ energy program, said, “Changes in technology and industry practices, combined with an increased understanding of the regional geologic framework, can have a significant effect on what resources become technically recoverable.”

White House Communications Report (sent to WH Comms, Friday.)

No report was prepared.

Federal Register Notices Cleared for Publishing

Items were cleared for the Federal Register on Friday.

REG0006909 FWS Receipt of Application for Incidental Take Permit; Low-Effect Habitat Conservation Plan for the Phillips 66 Cal Coast Pipeline Replacement Project, Santa Barbara County, California This notice provides the public a 30-day public comment period regarding an application for a low-effect incidental take permit for the California tiger salamander and California red-legged frog. The permit is for a project that proposes to replace the existing Cal Coast crude oil pipeline with a new 6-inch diameter buried pipeline adjacent to the existing pipeline, within the same right-of-way. Notice 04/14/2017.

REG0006936 FWS Endangered and Threatened Wildlife and Plants; 90-day Finding on Two Petitions (Florida Black Bear and Mojave population of the Desert Tortoise). FWS finds that the petitions do not present substantial scientific or commercial information indicating that the petitioned action may be warranted, and the Service is not initiating status reviews in response to the petitions. Notice 04/14/2017.

REG0006934 NPS National Register of Historic Places, March 25, 2017. The NPS is soliciting comments on the significance of properties nominated before Mar. 25, 2017, for listing in the National Register of Historic Places or related actions. Notice 04/14/2017.

REG0006935 NPS National Register of Historic Places, April 1, 2017. The NPS is soliciting comments on the significance of properties nominated before Apr. 1, 2017, for listing in the National Register of Historic Places or related actions. Notice 04/14/2017.
