TODAY: The Department will issue a press release and a Federal Register notice requesting information related to the review of the National Monuments under the President's EO.

“Interior Department Releases List of Monuments Under Review, Announces First-Ever for Public to Weigh in on Monuments” - WASHINGTON – The Department of the Interior today announced the first ever opportunity for members of the public to officially weigh in on monument designations under the Antiquities Act of 1906, and the Department released the final list of monuments that will be reviewed under the President's Executive Order 13792, issued April 26, 2017. A public comment period is not required for monument designations under the Antiquities Act, however, Secretary of the Interior Ryan Zinke and President Trump both strongly believe local input is a critical component of federal land management.

Emergency Management

In Georgia, the West Mims Fire in the Okefenokee National Wildlife Refuge has burned 111,650 (+3,804) acres. The fire is 12 (+4)-percent contained and managed by a Type-1 IMT with 503 (+11) personnel, including 87 (+8) DOI personnel. There are 87 (no change) residences and 17 (no change) commercial structures threatened. The containment date remains November 1.

The National Weather Service reports improving conditions in the central Plains and Midwest, where flood response, including USGS support, continues.

Media of Interest

Secretary Zinke To Meet With Bears Ears Tribal Leaders.

The High Country (CO) News (5/4, Blankenbuehler) reports that During a Wednesday conference call, the Bears Ears Inter-Tribal Coalition requested an audience with Interior Secretary Ryan Zinke. Following the call, “a staffer from the Bureau of Land Management’s Utah office called the Bears Ears Inter-Tribal Coalition on behalf of Interior to set up a meeting with Zinke.” According to the coalition, tribal leaders will meet with Zinke on Sunday in Salt Lake City.

North Dakota Gov. Burgum: Trump Appointees Good For State.

The Minot (ND) Daily News (5/4, Ogden) reports that North Dakota Gov. Doug Burgum “said he thinks the biggest change for North Dakota as a result of the Trump administration is the president’s new team, in particular, two of its members,” Interior Secretary Ryan Zinke and Environmental Protection Agency administration Scott Pruitt. Burgum believes that Zinke will be “good for North Dakota for agriculture, energy, for the tribes, etc.”

New Mexico Issues Wolf Release Permit To FWS.

The AP (5/4, Bryan) reports that “despite a pending legal battle over efforts to reintroduce endangered Mexican gray wolves in the American Southwest, New Mexico has cleared the way for the federal government to place two captive-born wolf pups with wild foster families.” A permit issued this week by the state Game and Fish Department arrives “after a federal court recently lifted a temporary restraining order that had stopped the U.S. Fish and Wildlife Service from releasing more of the endangered animals.” While New Mexico “still plans to pursue its case in court, the 30-day permit allows for federal wildlife managers to place up to two pups in a den in the Gila National Forest as part of a project aimed at boosting the genetic diversity of wolves in the wild in New Mexico and Arizona.”

Legislation Introduced To Stop Offshore Seismic Airgun Use.

WHYY-FM Philadelphia (5/4, Auciello) reports that Rep. Frank A. LoBiondo has “introduced legislation to halt permits for controversial seismic airgun blasting along the Atlantic seaboard.” LoBiondo “says the practice, used by petroleum companies to identify oil and gas reservoirs deep in the ocean floor, has ‘significant, adverse effects’ on marine life.” He said, “The ecological damage and negative economic impact caused by seismic testing is clear, which is why there is near-unanimous opposition from local concerned residents, commercial and recreational fishermen, and environmentalists along the Jersey Shore. This bipartisan legislation reaffirms my strong opposition to seismic air-gun testing in waters off South Jersey.”

Editorial: Offshore Drilling Opposed.

In an editorial, the Newport News (VA) Daily Press (5/3) opposes offshore drilling and recent President Trump’s recent “America First” energy executive order. It argues that “at the present time, there is less urgency than any time in recent memory for an increase in domestic oil production” because “our nation has increased oil production and decreased consumption.” As such, “a risk-reward analysis here would be terribly one-sided.”

Dakota Access Fills As It Prepares To Start Service.

Bloomberg BNA (5/4) reports the Dakota Access Pipeline is being filled with crude oil as it prepares to go into service on May 14. Analysts say the line should rearrange some crude oil flows and boost profit margins for producers in North Dakota. Many production companies

and investment bank analysts expect the line to be a boost to gross margins in to \$1-3 a barrel range as transportation costs drop and North Dakota prices rise as it assumes greater market access in the Midwest and South.

Torres Backs Review Of Antiquities Act.

The Saipan (MNP) Tribune (5/3, Perez) reports that Gov. Ralph DLG Torres, “who witnessed President Donald Trump sign an executive order mandating a review of the Antiquities Act, said there is a need to review the law to ensure that it upholds its original intent.” Torres said, “I support the President’s decision to review these declarations to ensure they uphold their intents and provide benefits to the people who must live with the long term effects of their [national monuments] presence.”

Interior Department Releases List of Monuments Under Review, Announces First-Ever Formal Public Comment Period for Antiquities Act Monuments

WASHINGTON – The Department of the Interior today announced the first ever formal public comment period for members of the public to officially weigh in on monument designations under the Antiquities Act of 1906, and the Department released a list of monuments under review under the President’s Executive Order 13792, issued April 26, 2017. A public comment period is not required for monument designations under the Antiquities Act; however, Secretary of the Interior Ryan Zinke and President Trump both strongly believe that local input is a critical component of federal land management.

Comments may be submitted online after May 12 at <http://www.regulations.gov> by entering “DOI-2017-0002” in the Search bar and clicking “Search,” or by mail to Monument Review, MS-1530, U.S. Department of the Interior, 1849 C Street NW, Washington, DC 20240.

DATES: The Department will shortly publish a notice in the Federal Register officially opening the public comment period. Written comments relating to the Bears Ears National Monument must be submitted within 15 days of publication of that notice. Written comments relating to all other designations subject to Executive Order 13792 must be submitted within 60 days of that date.

“The Department of the Interior is the steward of America’s greatest treasures and the manager of one-fifth of our land. Part of being a good steward is being a good neighbor and listening to the American people who we represent,” said Secretary Zinke. “Today’s action, initiating a formal public comment process finally gives a voice to local communities and states when it comes to Antiquities Act monument designations. There is no pre-determined outcome on any monument. I look forward to hearing from and engaging with local communities and stakeholders as this process continues.”

Executive Order 13792 of April 26, 2017 (82 FR 20429, May 1, 2017), directs the Secretary of the Interior to review certain National Monuments designated or expanded under the Antiquities Act of 1906, 54 U.S.C. 320301-320303 (Act). Specifically, Section 2 of the Executive Order directs the Secretary to conduct a review of all Presidential designations or expansions of designations under the Antiquities Act made since January 1, 1996, where the designation covers more than 100,000 acres, where the designation after expansion covers more than 100,000 acres, or where the Secretary determines that the designation or expansion was made without adequate public outreach and coordination with relevant stakeholders, to determine whether each designation or expansion conforms to the policy set forth in section 1 of the order. Among other provisions, Section 1 states that designations should reflect the Act’s “requirements and original objectives” and “appropriately balance the protection of landmarks, structures, and objects against the appropriate use of Federal lands and the effects on surrounding lands and communities.” 82 FR 20429 (May 1, 2017).

In making the requisite determinations, the Secretary is directed to consider:

- (i) the requirements and original objectives of the Act, including the Act's requirement that reservations of land not exceed "the smallest area compatible with the proper care and management of the objects to be protected";
- (ii) whether designated lands are appropriately classified under the Act as "historic landmarks, historic and prehistoric structures, [or] other objects of historic or scientific interest";
- (iii) the effects of a designation on the available uses of designated Federal lands, including consideration of the multiple-use policy of section 102(a)(7) of the Federal Land Policy and Management Act (43 U.S.C. 1701(a)(7)), as well as the effects on the available uses of Federal lands beyond the monument boundaries;
- (iv) the effects of a designation on the use and enjoyment of non-Federal lands within or beyond monument boundaries;
- (v) concerns of State, tribal, and local governments affected by a designation, including the economic development and fiscal condition of affected States, tribes, and localities;
- (vi) the availability of Federal resources to properly manage designated areas; and
- (vii) such other factors as the Secretary deems appropriate.

82 FR 20429-20430 (May 1, 2017).

The National Monuments being initially reviewed are listed in the following tables:

NATIONAL MONUMENTS BEING REVIEWED TO DETERMINE WHETHER THE DESIGNATION OR EXPANSION WAS MADE WITHOUT ADEQUATE PUBLIC OUTREACH AND COORDINATION WITH RELEVANT STAKEHOLDERS

Katahdin Woods and Waters	Maine	2016	87,563
---------------------------	-------	------	--------

The Department of the Interior seeks public comments related to: (1) Whether national monuments in addition to those listed above should be reviewed because they were designated or expanded after January 1, 1996 “without adequate public outreach and coordination with relevant stakeholders;” and (2) the application of factors (i) through (vii) set forth above to the listed national monuments or to other Presidential designations or expansions of designations meeting the criteria of the Executive Order. With respect to factor (vii), comments should address other factors the Secretary might consider for this review.

In a separate but related process, certain Marine National Monuments will also be reviewed. As directed by section 4 of Executive Order 13795 of April 28, 2017, “Implementing An America-First Offshore Energy Strategy” (82 FR 20815, May 3, 2017), the Department of Commerce will lead the review of the Marine National Monuments in consultation with the Secretary of the Interior. To assist in that consultation, the Secretary will accept comments related to the application of factors (i) through (vii) in Executive

Order 13792 as set forth above to the following Marine National Monuments:

MARINE NATIONAL MONUMENTS BEING REVIEWED PURSUANT TO EXECUTIVE ORDERS 13795 AND 13792
