Exec Sec is formatting the Federal Register notice and will take it to the Register once it is signed. SOL is reviewing up their chain.

I have made arrangements with Joe Nasser for the mail room to segregate the comments based on a mail stop he gave me that will be in the notice, and he will find a room that will be empty through the end of July where the review team can go over the comments and meet, SOL has no problem with our receiving email comments through Regs.gov, which Exec Sec will arrange for.

However, one problem - the Federal Register now requires a "For Further Information" section in all notices, including a contact name and phone number. I have arranged for a new phone number for this, and is there anyone departing in the near future, or an intern, who might volunteer to have their name used?

Since we have no "further information" to provide, my plan is to have that number go straight to voicemail, with a recorded message saying all available information is in the Federal Register notice.

The properly formatted draft is attached.
