Downey, I am hosting our BLM IT Investment Board on Monday thru Weds, but could step out at either of those two times to be on a call. Please let me know today if you would like to see additional data layers or would like larger maps to work from. We can print poster size maps and Fed Ex copies to you all. ed

Thanks Ed,  
Lets plan for a catch up call Monday. I propose 12 or 5 Monday.

All,  
I am sorry for the delay in getting these to you. We still do not have the shape files for the two monuments from the SHPOs office. The first attachment below is the Grand Staircase with the objects that Josh identified from the proclamation. The second map is the same as the first but it includes the Kane and Garfield county proposals. The third map shows

the known paleo resources on the monument.

Because I still do not have the cultural shapefile data, I have attached a map we got from the SHPO that identify archaeological sites in the monument. Of significance is that only about 5 percent of the monument has been surveyed, so just like with paleo there are a lot of unsurveyed areas. We don't have a predictive model for GSENM like we do in BENM so I don't think we can produce what Josh called a "heat map" for GSENM.

(b) (6) and have calls/meetings from 11-2:30 mountain. I can chat after that. We can send poster size maps of any I have sent you by FedEx if you would like. We can also add other layers or adjust as needed. ed
