Hi Scott,

The request has grown from 1 to 3 requests: the "initial call for data", "additional questions" and "executive summary". Due date has changed from June 2 to COB May 31.

We have answers to most of the questions in the first two. I was advised by Ken Mahoney to complete the first two, then summarize those in the "executive summary".

I got the grazing data today from Washington office. (Only WO has access to the data needed)

At the outset, I chose COB tomorrow as the deadline for us all to collect our responses. That provides me time to synthesize, for any problems that come up to be addressed, summarizing into "executive summary", and Melissa to take a look before final submission.

Kim Ryan is on target to complete her portion tomorrow. Maggie Hartney is doing some research on an additional question that came up from her findings. Francisco is getting the last few recreation stats to me tomorrow.

It is looking good for meeting the deadline.

Thanks for checking in,

Claire

 > The attached Word document file "Initial Data Request Related to Review of National Monuments" contains a list of items for which information needs to be gathered for your national monument. Please begin to compile the requested information. I will contact each of you on the afternoon of Tuesday May 23 for an interim check on the progress of the data collection. All data collection should be completed and submitted to me by Friday May 26. I will review and upload the data the following week to meet the June 2 due date for the data call.
