[Bears Ears Economic Review final.docx](#)  
[Draft status report 1 on Monument Review Process.docx](#)

After some unexpected delays, here is a review status report and the Bears Ears economic report.

The status report was reviewed by you as an interim report, but I have changed the name so it is not confused with the report the Secretary provided to the President. As you will recall, this document originated as a backup alternative in case the Secretary had decided not to provide specific recommendations on Bears Ears and elected to report instead just on the progress of the review. The review team provided many good edits to the initial draft, and the document was used extensively in the Departmental press release on the report the Secretary did provide to the President.

The Bears Ears economic report, prepared by the Departmental economic staff, reflects considerable input from BLM and the Forest Service. Going forward, the economic staff will prepare similar reports on most of the monuments under review. The Forest Service economists will prepare the reports for two monuments -- Giant Sequoia and San Gabriel Mountains -- that are entirely managed by the Forest Service, and there will be discussions with NOAA with respect to the Marine National Monuments.

## Draft Interim report on Monument Review Process
